Dilemma Of Modern Housewife Solved By Mechanical Servants

Without any doubt, the life of the average housewife today is vastly more complicated than that of her mother and grandmother before her. Today's housewife is at the mercy of a paradoxical way of life, which places an ever growing burden on her time.

The pressure is constantly upon her to devote more and more time to the Parent-Teachers organizations and other civic activities such as fund raising drives. At the same time, her husband and family, with constantly increasing leisure time on their hands, expect her to spend more of her time with them.

Out of this tug of war have come many interesting solutions. Among the most popular of these has been the use of increasing numbers of electric housewares which perform as veritable mechanical servants.

Whereas mother and grandmother spent many long weary hours with the many household duties, today's homemaker is able to do her housework with the aid of more than 30 electric housewares and still find time to keep herself and her home impeccably groomed and have time for her civic duties, entertainment of her friends and time to enjoy her family.

Woman hours saved in the kitchen leaves more time for the children and to attend church and community functions. It also makes more time available in the evenings for visitors and family activities.

The housewife's daily breakfasts are a simple routine of quickly squeezing juice with her electric juicer while a perfect cup of coffee is brewing from freshly ground coffee in a percolator or drip-type coffee maker. Bread is toasting to that just right degree of crispness preferred by the family while she is preparing a substantial dish of bacon and eggs in her electric skillet. The end result—a piping-hot breakfast in a matter of minutes.

A quick, nourishing lunch is easily fixed up on the sandwich grill, or on the waffle iron, for the children. At the same time mother can whip up cookies or a delicious cake using her food mixer.

It is the time-saving and versatile electric housewares items that are the key to the modern housewife's new found freedom. Her blender will puree food for the baby, chop nuts and fruits and even mix cocktails in less time than ever before.

Her skillet will cook, bake and saute foods. The electric roaster will roast a medium size turkey, bake pies, cakes or rolls and cook vegetables which are kept piping hot at the table on the electric trivet.

Her family also benefits because she can serve them tasty roasts and steaks during the hottest weather using a broiler. A delightful meal . . . picnic style . . . can be served in the garden.

The modern housewife today has over 30 servants at her beck and call. Servants not only to cook but to keep her looking pretty. She now has time to keep her hair and clothing impeccable. Just as important, the labor saved leaves her feeling fit and able to join in the festive activities at any time during the day or evening.

Impromptu get-togethers are the fashion today, and the hostess who has friends drop in unexpectedly is never at a loss to whip together a delightful snack or even a full dinner. With all this extra activity, she can still find time to join in the fun.

The popularity of electric housewares is well deserved particularly when you consider the time and work they save.

Stuck With It

"How is the second-hand car you bought?"

"I've just realized how hard it is to drive a bargain."

Torrid Talk

"Say, Pa!"

"Well, what is it now?"

"When deaf mutes say bad words do they get their fingers burned?"

New Wallpapers Rich In Decorator Possibilities

One of the easiest and least expensive ways to create a 1957 model out of a well-loved but slightly older home is to try a few decorating tricks with the new wallpapers. You can make the walls of any room look like something entirely different from what they originally were—just by using wallpaper. And, for very little money.

Today's wallpapers are designed to go anywhere in the house. The designs are simple. There is a fine sense of freedom and openness in the way many freely sketched drawings are widely spaced on light backgrounds. Today's wallpapers take easily to contemporary furnishings or to a combination of contemporary and traditional.

Wallpaper can solve the problem of an unattractive and uneven wall—one with the old-fashioned frame panels, for example. Put up lightweight wallboard over the entire wall, brush on a glue size, and decorate with a colorful wallpaper.

To add a colorful and dramatic note in the living room and to separate it from the dining area, cover a three-paneled screen with picturesque wallpaper.

In the kitchen that includes a dining area, it is easy to create the effect of "another room" in the latter with wallpaper.

Even one small touch of wallpaper, imaginatively used, can turn almost any room from drabness to a fresh new look. And, with such a wide variety of wallpapers to choose from, you can create any mood.

Favorite Recipes

The apple, one of the oldest of cultivated fruits, still retains all its old-time popularity. When buying them, choose firm apples of good color and flavor. Immature apples are poor in color and flavor and they shrivel after storage.

Over-ripe apples are mealy and poor in flavor. Brown-tinted irregular area on surface is called scald. It is caused by gases given off by apples during storage. If slight, it affects quality very little.

Apple Filled Pork Rolls
1 large thin-sliced fresh pork
2 medium apples, chopped
¾ cups chopped prunes
1 small onion chopped
3 stripe bacon
1 cup soft bread crumbs
½ teaspoon salt

Cut bacon into tiny pieces and cook slowly in frying pan until crisp. Add chopped onion and cook 25 minutes. Mix together bread crumbs, apples, prunes, and salt. Add bacon, onion and bacon fat. Toss together with a pork.

If the mixture seems dry, add small amount of juice from cooked prunes. Spread stuffing evenly on pork slice, roll up carefully. Tie with a soft string.

Place in baking pan and roast in an oven 325 degrees for two hours.

Fruit Relish
6 tart apples
½-lb. pitted dates
½-lb. diced apricots, soaked in cold water
2 cups vinegar
2 cups brown sugar, packed firm
½ teaspoon salt
¾ teaspoon ginger
1 teaspoon cinnamon
2 cups canned tomatoes
1½ cups seedless raisins

Pare the apples, core and slice; with wet scissors, cut the dates in pieces; cut the apricots into small bits. Place the apples, dates and apricots in a kettle. Cover with the vinegar and simmer until the fruits are tender. Add sugar, salt, ginger and cinnamon. Stir in the tomatoes and raisins.

Continue cooking over low heat for 45 minutes or until the mixture is thick. Pour into hot, sterile jars and seal at once.

Apples Pancakes with Maple Sugar
2 cups flour
2 teaspoons baking powder
1 teaspoon salt
1 tablespoon sugar
2 eggs well beaten
1¼ cups milk
2 tablespoons melted butter
1 cup apples, chopped fine
Butter
Maple sugar
Mix and sift dry ingredients.

Combine the eggs and milk and add to the flour mixture gradually, beating until smooth. Stir in the butter. Fold in the apples.

Drop by spoonfuls on a hot ungreased griddle, turning once during baking. While hot, spread with butter and sprinkle with maple sugar, shaved from the cake.

Apple Special
2 cups chopped apples
1 cup chopped walnuts
1 cup raisins or dried runes
Juice of 1 lemon
Mix and put in a well-greased square pan 8"x8"
½ cup sugar
1 tablespoon flour
1 egg
Mix and spread over other mixture. Bake in an open 350 degrees about 40 minutes.

Serve either hot of cold with a topping of vanilla ice cream or whipped cream.

OF PARTICULAR INTEREST TO HUNTERS

Bob-white hunting in the eastern half of the country has been better this year than has been the case in several years. Of course the drought in the western bird country has done a lot of damage to the game population and hunting there.

Quail—called partridge in some southeastern states — is wonderful table fare and a prolific breeder and have made a comeback since the fearful year of 1954. This column deals only with shooting quail, not pheasant, grouse, or other game birds.

First of all, it should be said that quail must have three things to survive and multiply — food, water and shelter. But the land owner who takes a little time and effort to provide these necessities will be rewarded with coveys that stay where they are as long as these essentials are available.

Quail do not naturally migrate. They will stay in the same general area for decades, unless forced to move to survive. This year winter arrived rather late and it's thought that some hens raised two coveys in more southerly states—thus partly accounting for increased birds this hunting season.

The rule this year, seemingly, is for quail to hold close. Dogs pass within feet of them and never smell them during recent dry weather and therefore many coveys go undiscovered for months, or the entire season. Birds are generally well-fed when killed.

It is good to see the birds make a slight comeback in southeastern areas — the prime areas left for good quail hunting. Hunters who kill a covey down to one or two birds, or wipe it out, should realize that this covey will not be around next year — where as leaving six birds would probably insure twenty or at least fifteen birds in the covey next year.

Some people think coveys should be left with a minimum of eight or ten birds. It seems obvious that six should be spared. It's hard to withhold fire when five or six birds get up and the best rule — when one finds a covey well shot out—is not to hunt the area any more. If one does, and the birds get up, or are pointed, the temptation is strong to shoot.

Doves are making a comeback in many sections of the country along with quail, except where drought has set them back, and deer are plentiful this year too. Altogether, it is a good year. But to the quail hunter, the progress of vital importance is the greater number of coveys found, and the large coveys found this year.

Another year or two of improvement like this past one would bring back decent quail hunting to many parts of the country for the first time in half a dozen years.

Personal Property Taxes Are Due By March 15th

The Ohio Legislature has made no change in filing dates for personal property taxpayers, according to County Auditor Fred C. Dunn.

Books still open on Feb. 15 and close on March 31 regardless of the fact that Federal and City of Columbus income tax returns may be filed as late as April 15.

Auditor Dunn said that approximately 45,000 forms have been mailed to Franklin County taxpayers of records. Newcomers who have not filed previously may obtain forms at the Courthouse. He explained that taxable personal property in Ohio is divided into two classes, tangible and intangible:

Tangible property consists of equipment, tools, machinery, implements, etc., and furniture and fixtures in use on Jan. 1, 1957, by manufacturers, farmers, wholesalers, retailers, business and professional persons in every line (including operators of motels, rooming houses and furnished apartments) and also inventories of all products, merchandise and livestock held on Jan. 1 in the conduct of all types of business, industry and farming. Licensed motor vehicles, aircraft and watercraft used for pleasure only are exempt.

Taxable intangible property consists of investment securities such as productive or non-productive stocks, bonds, mortgages, notes, land contracts, accounts receivable, postal savings deposits, etc., owned on Jan. 1, 1957, by individuals, partnerships and corporations. United States bonds, stock certificates in all banks and Ohio insurance companies, also deposits in Ohio banks and building and loan associations are exempt, but similar holdings in out-of-state financial institutions and insurance companies are taxable. Dividends and interest received in 1956 are taxable at five per cent. Non-productive investments are taxable at two-tenths of one percent of their real value on Jan. 1, 1957.

The following classes of returns must be filed in duplicate: All corporation returns, returns involving trusts, intangible returns where the taxable income is $600 or more, tangible returns where listed values are $5000 or more and returns listing both intangible and tangible taxable values of a total of $5000 or more.

Dunn said that deputies are on hand each day from 8:30 a.m. until 4:30 p.m. (Saturdays until noon) to assist taxpayers in making out their returns, or completed forms may be mailed to the Auditor not later than March 14. All returns must be signed by taxpayers in the space indicated.

Remittances should be made payable to the County Treasurer. At least one-half of the total tax must accompany the returns.

Full Length Mirrors

Full-length mirrors are almost a "must" in the modern home; usually they are placed in the doors on bedroom and coat closets, where they facilitate "last minute check-ups" of attire by family and guests.

Decorators' Items

Venetian blinds are today entering the category of "decorators' items." They come in a wide range of colors and color combinations and in an interesting variety of finishes: spatter, mother-of-pearl, wood grain, linen and lace.

Pour Without Splashing

When pouring liquids such as turpentine and shellac from square gallon cans having a spout in one corner, hold the can so that the opening or spout is at the top when the can is in pouring position.

Under Ohio Skies

By DIVISION OF WILDLIFE

Aids To Health and Beauty

A well-known surgical dressing firm has begun to market a different type of plastic bandage that will be a tremendous help to mothers who have heretofore had trouble treating the minor cuts and scrapes that children so frequently encounter.

It involves a matter of psychology. These new bandages are designed to represent glittering gold combat stars on a field of bright red and silver jets surging through blue skies. These interesting designs are imprinted on the plastic film of regular red and blue medicated bandages.

A group of children selected the colors and designs used. In addition to being medicated, the new bandages are washable and waterproof.

Many pediatricians say they have found the colored bandages helpful when giving small - fry patients injections. I wish a type of bandages would be thought of that would make injections for grown patients less frightening. The children choose the design they would like to have to cover the skin puncture as the doctor gives them the shot.

Doctors tell us that adults should always watch very carefully what they say concerning doctors, hospitals, operations, etc. before the small - fry. It seems that much of the fear some children experience concerning a trip to the doctor or the hospital is learned from the conversation of grown people.

If a youngster must make a trip to the hospital — make it as interesting sounding as possible for him. A little girl will be pleased with a new gown and slippers. A boy will usually respond to several new games. Don't tell them it won't hurt, just don't discuss this subject unless you have to. Spend as much time as possible with your child before and after the event.

About Your Home

We are certainly at the height of the soup season. The soup kettle, in most American homes has given way to the can of bought soup. Although there are many fine canned soups, it is hard to beat a great big bowl of "home made" vegetable soup.

Besides, if you want to save money and at the same time serve tastier meals preparing old-fashioned soups is one way to do this.

If you are interested in saving money or your food budget, you can have soup once a week. Save the meat stock. Add to it the bones from chicken or any fowl, chop bones, roast bones and other meat bones. Also, any water from cooking vegetables.

Cook this mixture down until it is rich and flavorful. It can be used as a base, not only for soups but stews and cooking vegetables.

This stock pot should be boiled up once a day. In the old days great grandmother kept a stock pot going on the back of the stove all the time.

It is possible to make an excellent stock with two pounds of skin ment with bone. Add a beef bone and for extra flavor a veal or beef knuckle. The knuckle is filled with gelatin and adds both texture and flavor.

There are endless varieties of soup. Some are perfect served before a meal. Some are cold, thin or thick. A favorite for this season is the "all-in-one" soup. This soup is made with vegetables and good stew meat. It is thick and nourishing and needs only bread, salad and dessert to be a luncheon fit for a king or any "hard-to-please" [illegible].

Glad To Get Back

A grandfather visited a household in which he had a little grandson who had spent part of the summer at a boys' camp. The lad talked so enthusiastically about the camp that his grandfather offered a slight reminder. "After all, though," he remarked, "you were rather glad to get home, weren't you?"

"Well," replied the lad thoughtfully, "not 'specially." Then after a bit he added: "Some of the fellows were — those that had dogs."

Begin With Good Plan to Get Best Landscaping Results

Good landscaping of the home grounds starts with a good plan. The simplest way for most people is to have a local landscape nurseryman lay out a very simple planting design. Then all the home owner has to do is order the plants recommended and have them set on the ground in their proper locations where he can plant them himself according to directions.

To help you in deciding, there are several things your landscaping should accomplish: (1) you should have a center of interest; (2) you want to create a beautiful picture both outside and from within the house as you look out, and (3) house and sky and earth should be tied together in a way to give pleasure to everyone. Other things your landscaping should provide are privacy, beautiful flowers and foliage all year around, as well as a certain amount of home fruit.

Plant Groupings

Groupings of plants often add to the attractiveness of the picture as a whole. If you have a one-story house, low-growing trees and shrubs are preferable.

Your center of interest may be a beautiful tree. Do not place it in the center of the lawn, which usually is better left open to grass.

Along the street, you may have groupings of trees or tall shrubs at the corners of the property. They may be tied together with low-growing plants, or a hedge. Lower growing shrubs will soften an abrupt change from lawn to tree, if planted around the tree.

Don't overplant. Allow for the growth of trees and shrubs. Do not plant them too thickly unless you wish immediate effect and intend to thin them out in a few years. Planting in gentle curves is better than in straight lines.

In relation to the foundation planting, you desire first to frame the home. A low tree, surrounded by a grouping of shrubs often is attractive at each corner, tied together by low, spreading evergreens and low flowering plants at the base of the house.

Flowering shrubs have the added advantage of supplying cut flowers for the home. Roses and similar plants not only blend well but serve that purpose. A living fence of floribunda roses may make a striking property division line.

Home Life Aided In Three Ways By Gardens

There are three principal uses for the average garden: (1) to supply cut flowers to decorate the table and home, (2) to make the property beautiful, and (3) to provide a comfortable area in which the home owner can enjoy his hobby of growing plants.

In starting from scratch, the garden may consist of perennial plants, which need not be renewed each year, or from seeds, or small potted plants available in every locality.

There are many kinds of perennials, of which chrysanthemum, delphinium, phlox and hollyhocks are probably the most outstanding. Chrysanthemums have the advantage of producing flowers late in the season when little else is blooming.

Best rule for planting annuals in the average flower bed is to place the taller growing plants in the center and lower growing ones toward the sides until the edge of the bed is reached.

In growing both perennials and annuals, preparation of the bed is important. They will grow best in a good loam. Spade to a depth of eight inches and pulverize the soil by forking it over several times. Rake the top two inches so the soil is fine. Add fertilizer as described on its container.

If seeds are planted the soil should be especially fine. After planting, whether it be seeds or plants, soak the soil with water. Do not allow young plants to dry out, but do not keep them continuously wet.

Good rule is to water well and then let the bed alone until it shows evidence of being dry. Cultivation of the soil between plants will help to preserve its water content.

Not a Wolf, Either

A girl from the big city complained that a bull kept looking at her in a somewhat menacing manner.

"I imagine," said the farmer, "that it's on account of that red dress you're wearing."

"Oh," said the girl, "I know it's terribly out of fashion, but just fancy a country bull noticing it."

When One Is Touched

"Why do you always purchase two-pants suits?"

"Because "in my other pants' is a mighty useful alibi."

Glicks Mark Half Century With 19 Per Cent Bonus Event

Glick's 19% Bonus Evens offers the consumer greater values and more selections than ever before, said Robert A. Glick, general manager of the Glick Furniture Company.

This event, which has been four months in the planning, marks the 50th anniversary of Central Ohio's largest furniture company. Buyers in all departments have scoured the factories of America especially for this event. All of the 130 associates have been trained to give the public the finest service possible.

"We know, without a doubt," said Mr. Glick "that this 19% Bonus Event is the consumers' best buying opportunity of the year. It is a tradition of long standing here at Glicks, our way of simply saying 'thank you' to our many friends who have patronized us in the past. Complete satisfaction for our customers is our motto.

"We offer our customers a 19% Bonus in additional free merchandise of their own selection. The prices in all of our four stores are the same as last month and the many months before. The genuineness of this 19% Bonus and the overwhelming acceptance is attested to by the more than 220,000 customers who have participated thus far in sharing this 19% bonus."

Conception of the 19% Bonus Event dates back to the time of Frank A. Glick and then his brother, I. A. Glick, whose common ideal was to have a store where values were apparent and sound, where dealings were based on honesty and fairness and where building of lifelong friendship was a sacred trust. This was done, and then through the years they have searched for a way to express to their many friends a simple "Thank You." The 19% Bonus Event was the result.

Robert Glick said that he and his brother, William, the sons of Frank A. Glick, "are proud to continue this fine tradition for we know that thousands of our friends throughout Columbus and Central Ohio flock into benefit from this Event."

Glicks now operates four stores in Columbus. Downtown at 66 E. Long Street, in the Great Western and Northern Lights Shopping Centers and the Bargain Annex at 46 E. Long Street. Glicks offers the most complete selections of furniture, carpets and appliances in Central Ohio. Among the many styles featured in any of Glicks four stores are Early American Danish, French and Italian Provincial, Traditional and Casual.

Among the enumerable services offered by Glicks are a positive policy of satisfaction guaranteed, decorating services at no charge in the Home Planner's Shops, a service department of factory trained specialists to service every item that Glicks sells and a completely equipped sales force ready to bring to the customer's homes, without obligation, a complete selection of furniture, carpeting and appliances for comfortable choosing in the home.

In addition to the tremendous selections offered a Glicks, shopping is made extremely easy because of the free parking facilities they offer. Shoppers at either of the downtown stores are invited to park free at the Long Street Garage, which is opposite the stores, and, of course, there is always free and easy parking at the mammoth shopping centers in which the two other branch stores are located.

Not a Sure Guide

Jack — In almost every movie where a girl is hugged she raises her foot.

Tom — Aw, you can't go by the movies. I tried to hug a girl last night and what she raised was a bloomin' row.

In Fashion Now

Spring suits have a new look. The jackets are short-just as they were during the fall and winter. They end at the waistline or come as low as the hip line.

The short-jacket suits usually feature a soft easy fitting skirt. The longer jackets are belted. This new interest in belts has brought on a new crop of novel belts well worth mentioning.

It's not peace we object to—it's the nervous tension that goes with it.

Hollywood Influence

The Manchester Guardian vouches for this: A teacher in an infant school at Old Trafford admonished her tiny pupil, a movie fan, "Now don't let me have to tell you again." "O. K., Baby," was the child's reply.

Cleaning Wallpaper

To get rid of grease spots on wallpaper, hold a clean white blotter against wall and press over it with a warm iron, moving to a clean spot on the blotter as soon as one portion of it absorbs the grease.

Power Tools Big Help To Home Handyman

Many a "home handyman" would be more inclined to tackle certain major repair or remodelling projects, if he had the necessary power tools to make such jobs less laborious and time-consuming.

Yet, if he does not expect to use the special tool involved beyond the project currently contemplated, he may not wish to make the necessary outlay for its purchase. In this case, an investigation of local sources and rates for power tool rental may well prove worth while.

In much the same manner as floor-finishing machines, wallpaper steamers and the like are available for rental from hardware stores, paint stores and building supply dealers, a wide variety of power and special purpose machines can usually be hired by the day or week, often from one of these same sources, or in other cases from special tool-renting companies.

THE GARDEN SPOT . . .

With snow still in the air, this may seem out of season, but your chances of success with a garden this spring and summer will be increased considerably with a little planning now.

Every garden should be "planted"—"planted" on paper before the work in the garden begins. The plan will help you to determine how much of each kind and variety of vegetables you will want to plant. It will also help you to save on your seed order. If the space in your garden is limited you can plan for the most desired crops, and if space is unlimited, you can decide how large it should be. With the garden on paper, the variety wanted and the quantity of seed required can be listed. In this way, the seed order will be easy to make and you will not find yourself with too much or too little seed when the time for planting arrives.

Any garden can produce more food in a year if the plan provides for "succession cropping"—following one crop with another. Early maturing crops should be planted next to each other so that a worthwhile area will become available for planting later crops. Row spacings and distances in the row should be included in the plan so that there will be no mistakes at planting time.

The needs and tastes of your family will determine which crops will be grown. If space is limited, crops which are the most productive for the space available should be first choice. Sweet corn and vine crops for example take large amounts of space, and to plant them in a very small garden would not be practical. Of course if the family demands them, they may be included.

Special plantings should be made to provide the necessary raw produce for home canning and freezing, rather than depending on a surplus to provide the amount to be preserved. The amount may be small, and by the time they become "surplus" they usually have passed their peak of quality.

A well planned garden might include:

1. Two leafy green or yellow vegetables, such as kale, spinach, beet greens, etc.
2. Two pod vegetables, such as peas, beans, lima beans.
3. Two root crops, such as carrots, beets, parsnips, rutabagas.
4. Tomatoes and cabbage.
5. Other kinds which the family might like.

Many gardeners have questions about whether they should plant seed which was left over from planting the garden last year. In general, the ability of the seed to germinate and grow is greatly reduced when held over for a year. The best plan is to obtain fresh seed in the quantity needed each year.

A Help Or Headache? Opinion Divided On Tax Stamps

Mrs. F. P. Ahern, 195 Fairmont-av, receives the familiar sales tax stamp which she and thousands of Ohioans get with their purchases, from Seiller's clerk, Mrs. Margaret Veit, 234 S. Westmoor-av. Mrs. Veit is doing what many clerks term a "pesky chore."

By Barbara Villalobos

"To be or not to be" seems to be the "taxing" question facing the Ohio Legislature in regards to abolishing the present retail sales tax stamp system

This is a controversial, if not at times a downright "touchy" topic on which many residents have voiced loud and long opinions. Is it a nuisance to the man in business? Does the customer find the tax stamp a help or a headache? What is the actual cash redemption of tax stamps? Will schools, churches, PTA groups, and other social organizations "go without" if the stamp is abolished?

These and many other questions were put to local residents because it appears the public may have the last say on the issue if the legislature decides to put it to the voters

C. H. Campbell

C H Campbell, executive secretary of Hilltop Business Association feels that sales tax stamps provide protection for both the customer and the merchant.

"There's much to be said for retention of sales tax stamps he explained "A customer feels uneasy if he paid the tax and doesn't receive a receipt to show he paid it and the customer doesn't have any proof that the tax he's just paid will be paid to the state by the merchant."

He pointed out that a lot of people will be unwilling to pay the tax (as has been the case in the past) if they don't receive a receipt and they will have a tendency to wonder if the tax they're paying the merchant will be turned into the state.

He added "It would be a severe loss to institutions such as Shrine Crippled Children Association, churches, PTA groups, and service clubs because that is an important source of revenue."

A local newspaperman and father of four said "it would be a terrific blow to schools" Why, I know of at least one school, St Aloysius, that receives between $1000 and $1500 every year from sales tax."

John Nippert

On the other side of the fence is businessman John Nippert of Nippert Electric Products Co., who said emphatically "I am definitely opposed to them."

"I feel it's an expensive tax to issue, audit and it's a nuisance for people who have to issue them," he said. Nippert, who's in the electric manufacturing business, said "taxes are not intended for support of charitable organizations People are not getting money from tax stamps free. They pay for it in the long run."

Miss Harriette Brown, vice-principal of West High School, told how 75% of their school's

Sometimes We Can't Do The Impossible

Our group of community newspapers has made a practice for many years now of using local pictures quite extensively. Practically every organization in each of these communities has at some time or another been given the use of our photographer and space in our papers

Once in awhile some groups call on us many times and ask for this favor. We always try to do our best to be of service

However we sometimes have to say we are sorry because our space, or time of our photographer, is just not available. Groups anticipating using photos in our papers are asked to give us at least a week of advance warning and we will advise you then what we can do.

Sometimes we just can't do the impossible!

Grass Roots Opinion

We watched four television shows in succession the other evening and during a two hour period there were 18 persons murdered or killed by some blood curdling method. Now multiply that by the number of stations on the air and you can soon determine how easy it is for youngsters to get the idea that killing is about all that adults do. TV can stand some housecleaning!

Firemen Mourn Their Faithful 'Dal'

"Dal," as he was photographed recently in his favorite seat . . . beside the driver of a Franklin Township fire truck. The driver seen here is Walter Collins, 3784 Sullivant-av.

• • •

"Dal," Dalmatian mascot of Franklin Township Fire Department had his nine-month service cut short Monday afternoon with a fatal dose of strychnine. Neither did he live to see his 2nd birthday in May.

"Dal," who proved a "real friend and companion" to his firehouse cohorts, will be treated the same in death. A burial service will be held at 6:30 p.m, Thursday on the front lawn of the firehouse at 4100 Sullivant-av Dal's body will be embalmed and laid in a casket. The public is invited to attend the burial

Nor are friends of the young coach dog limited to fire headquarters. Already more than 20 "outsiders" have called, offering to donate money for the reward. Two Dalmatians have also been offered to fill Dal's "dog-steps."

A $700 reward has been offered for the arrest and conviction of the strychnine poisoner

Firemen received a call at 3 p.m. Monday saying that after "jumping fences and acting very strangely," their mascot was lying in the backyard of a Roth-av residence, near S. Sullivant-av.

Fire Chief James C. Moffitt and a fireman immediately took the dog, silent but alive, to the veterinarian, where they received a "very likely strychnine" report. Dal died at 4 p.m. at the office of the veterinarian.

Tuesday the body was taken to the state agriculture department laboratory at Reynoldsburg for further tests

"Dal" was featured recently in a story in this newspaper, describing the Franklin Township Fire Department.

Career Day Set. Mar. 22

Many students are not prepared for the future; they are confused and wondering what they should study for a career. West High has had for several years, a day called Career Day.

Every student in grades 10 through 12 will participate in the program, designed to give him a better idea of what he will want to do after he graduates.

A speaker will be present to represent each chosen profession. Conferences on careers ranging from A to Z will be held for interested students.

Mr. Neeb of the West High guidance department hopes that this day, which will be held on Mar. 22 this year, will take the confusion out of students minds.

300 To Enter In Science Day

West High students will participate in the annual science day to be held at the Youth Center on the Ohio State fairgrounds Mar. 30.

Approximately 300 West High physics, biology, chemistry, and general science students will present projects representing these sciences. In the past, most West High entrants received ribbons and many took their projects on to the State Science Day.

"Musical Madness," West High's annual musical variety production, will be presented at the school on Mar. 14 and 15. This year's theme of music through the ages follows the progress of music from the primitive era through the gay nineties and the development of jazz. Shots of humor is mingled with real student talent.

As in previous years, junior and senior bands combined orchestras will participate in the show. Clair Barnard has charge of the school bands and John Dale, the instrumental students.

Tickets are on sale now and can be exchanged for reserved seats in the lobby of the school from Mar. 7 until the dates of the show.

Girls To Be Hosts At Hop

Ladies first? Not in this case. A turnabout will take place Friday, Mar. 22, when girls take their best beau to the West High Y-Teens Sock Hop.

The hop will be with levies or Bermuda shorts worn and a prize given for the funniest pair of socks. It has been said that the girls will have to open doors for their dates and even take them out to eat after the dance.

The 8 until 11 p.m. dance is priced at 50 cents per ticket and will feature Bill Erdy and his Rock and Roll Band.

The Garden Spot

James R. Mills
Associate Co. Agent
Franklin County

Regardless of Mr. Groundhog's proclamation about the coming of spring, the multi-colored seed catalogs serve notice that spring is just around the corner.

Browsing through those catalogs can give you many hours of pleasure and relaxation and can also be helpful in planning for your garden this summer. In most catalogs the varieties are described and the gardener can get some idea of what to expect if he plants them.

The garden plan can be used now to determine how much seed you may want to order. Which varieties you choose to plant should be determined by the use or uses you wish to make of the crops in your garden. If you intend to use all of the produce as fresh table vegetables, there are many varieties which may be planted. If, however, you intend to use part of the crops for freezing, certain other varieties will give better results.

Varieties are developed to meet certain requirements which may make them adaptable to certain uses such as fresh use on the table, canning, and freezing, to name a few. The perfect variety would be one which would produce a high yield of good color which could be used equally well for fresh vegetables, canning, or freezing.

Unfortunately, many of our vegetable varieties have one use for which they are best suited. For example, many gardeners will not freeze green beans because in their words, they just "don't like frozen green beans." The chances are that they froze the variety which for years had been their old fresh vegetable standby and was never intended to be used for freezing purposes.

Seed companies and university researchers have been working to develop and test varieties which can be grown in Ohio gardens and used for both fresh and frozen vegetables. Some of the results of this work is shown in a list of suggested vegetable varieties for home gardens in Ohio. Of the common vegetables grown in many gardens here in central Ohio, those marked with a star (*) are suitable for freezing as well as for immediate use as table vegetables.

Beans—(Bush, green)—Stringless Black Valentine, Stringless Green Pod*, Tendergreen*

Beans—(Bush, wax)—Surecrop*, Pencil Pod Black Wax*

Beets—Early Wonder, Detroit Dark Red*

Broccoli—Italian Green Sprouting (Calabrese)*

Cabbage, early—Resistant Golden Acre, Marion Market

Cabbage, late—Wisconsin All Season, Wisconsin Hollander 8

Cauliflower—Early Snowball*

Corn, sweet, early—North Star, Marcross

Corn, sweet, mid-season—Golden Cross Bantam*, Frost Gold*, Tenderfreezer*

Corn, sweet, late—Ioana, Aristogold Bantam, Tendermost*

Cucumber, early—Early Fortune, A & C, Burpee Hybrid

Lettuce, leaf—Salad Bowl, Grand Rapids, Black Seeded Simpson

Lettuce, head, Great Lakes, Imperial 44

Onions—Ebenezer, Sweet Spanish

Peas—Little Marvel, Premium Gem, Thomas Laxton,* Gradus*, Wando*

Radish—Early Scarlet Globe, White Icicle, Cherry Belle

Spinach—Long Standing Bloomdale*

Tomato, early—Pritchard, Valiant, Stokesdale

Tomato, late—Rutgers, Marglobe, Longred

The complete listing of all vegetable varieties may be found in Extension Bulletin No. 387, "For a Good Home Garden in Ohio," available from your County Agricultural Agent.

Thinking of raising your own plants? Early cabbage and head lettuce should be started around the end of February, transplanted and moved to the coldframe early in March.

Better arrange now for someone to plow your garden early this spring before the rush of spring farm work is in full swing. A delay now may mean blisters from spading later on. Pass the liniment please!

LOVE LETTER

Between lines of a usual letter,
phrased in impersonal tense.
(Jim has a raise, Mother is better)
like a warm electric silence
sift unsaid words of love—
sweet omniscience.

Frost last night, the words
went . . .
inevitable, invisible as air,
as pervading, as innocent,
a thought withheld, but there,
gentle as summer scent.

Lisa Grenelle, in The Lyric.

TERSE VERSE

"How doth the busy shining sun"
Show up each speck of dust and grime,
Showing the work that's gotta be done
Because it's (sob) spring-cleaning time.

Here it is March: It will soon be Easter, then Fourth of July (if they don't change it) and then Thanksgiving and time to address Christmas cards again . . . After hearing that "talking" dog on TV the other day, I've decided I'll stand by a canine friend of mine who can say more by barking in assorted keys and inflections than he could by talking. His barked Welcome is much more eloquent than any spoken (?) word. And his angry growl would frighten any trespasser — it says "Keep out" without words. This isn't world-astounding information but it does fill up space.

Mail—From Munich, Germany: I've taken tours to many areas in the Bavarian section of Germany. One of the most interesting was the trip to the three castles built by King Ludwig—the Mad King, he was called. He built all three castles in close proximity and one (if you have a fairy tale book handy, you will probably see its picture) was built on the side of a mountain. It has dozens of towers, look-out cupolas, balconies and court yards. It is all white, with pink trim, indicating royalty. From a distance it looks like it is made of whipped cream and cotton candy. The other two castles are no less spectacular and much more expensive. King Ludwig was subject to whims (so said the tour guide) and after seeing a palace in the neighborhood he would dash home and tell his builders that he wanted a palace just like it, only larger and more elaborate. One of his castles is patterned after Versailles, with huge fountains and statues. Ludwig disliked people and all three castles are almost inaccessible, with only foot paths and trails leading to them . . . From the mother of teen-age twins: Am not sure if this is original with the girls, but they were discussing a contemporary's hot rod the other evening and we heard them say his car is so small that when the carburetor floods, the boy throws it over his shoulder and burps it. Ah youth! . . . From a reader: Some time ago you quoted a verse but it did not rhyme so I wondered if a line was omitted. It was about an oak tree. Answer: the last line was omitted. Sorry. Here is the poem again, which I learned after quoting it, was written by Archibald Rutledge:

• • •

Of weakness and of strength
How little can we tell!
I thought the wild flower's bell,
Beside the great oak's hardihood,
The frailest thing in all the wood.
Yet in the storm the wild flower stood;
It was the oak that fell.

Fox Realty Exclusive Agents For 'Timberbrook Estates'

"The choice suburban location for building today's dream home lies in the beautiful wooded land of Timberbrook Estates," realtor Harold L. Fox, 3000 W. Broad-st says enthusiastically.

Fox is exclusive agent for the controlled subdivision now open for public inspection. Ideally located south of Hilliards, four miles from either Terrastadt or Westinghouse plants and just minutes from the heart of the city, these building sites should appeal to the discriminate buyer. The location is one and a half miles north of West Broad-st, just off Rome-Hilliards-rd.

Harold L. Fox

The entire tract of land is being sold in half and three-quarter acre plots with frontage ranging 100 feet to more than 230 feet. This restricted subdivision is to be enhanced by winding blacktop roads. Uncommon to most new suburban areas, natural gas is now available. This facility is appreciated by many who say that it provides clean, constant, automatically-controlled temperatures.

"Close to the best of schools and in the midst of the natural beauty of trees and clean, fresh air, you can raise your family away from the noise and dirt of the city. The future of this subdivision is extremely bright," Fox related.

Immediate plans call for 79 home sites with more than twice as many to follow. Fox invites the public to "come out and browse around." Further information is available at the realty office at 3000 W. Broad-st or from any of Fox's staff of representatives.

Help Or Headache—

public address system was paid for by students who saved and brought in sales tax stamps.

"Our school budget doesn't allow for extra equipment like the velvet curtain we have in our auditorium or sound-proofing the cafeteria," she explained, "so we hold two shows a year to collect sales tax stamps from the students to buy these things. She added, "If they abolish the tax stamp, I guess we'll have to charge admission to the shows in order to raise money for the "extra" things we need." Both the curtain and sound-proofing of the cafeteria were paid for from sales tax revenue.

Emmett Seely, a civic-minded businessman who takes an active part in local affairs, including stamp-raising projects, is a man in the middle. "From a business standpoint, I'd like to get rid of them. We've actually had people who won't take their change until the salesperson removes the stamp and that's not just one person but many.

"Some people have actually tossed them back at us. Seely, who keeps a container on the store counter for people to put their tax stamps in, said thoughtfully, "I'm not smart enough to have an answer to the problem—we're more or less caught in the middle." He added "I'd like to go on record that I'm in favor of the removal of stamps but not in favor of the redemption value being lost to these needy groups who use the taxes for worthwhile things.

You've heard both sides — now, what do you think? Are the stamps a help or a headache?

One great trouble with the world today, especially on the international level, is that people don't trust one another, and have excellent reasons for not doing so. Olin Miller.

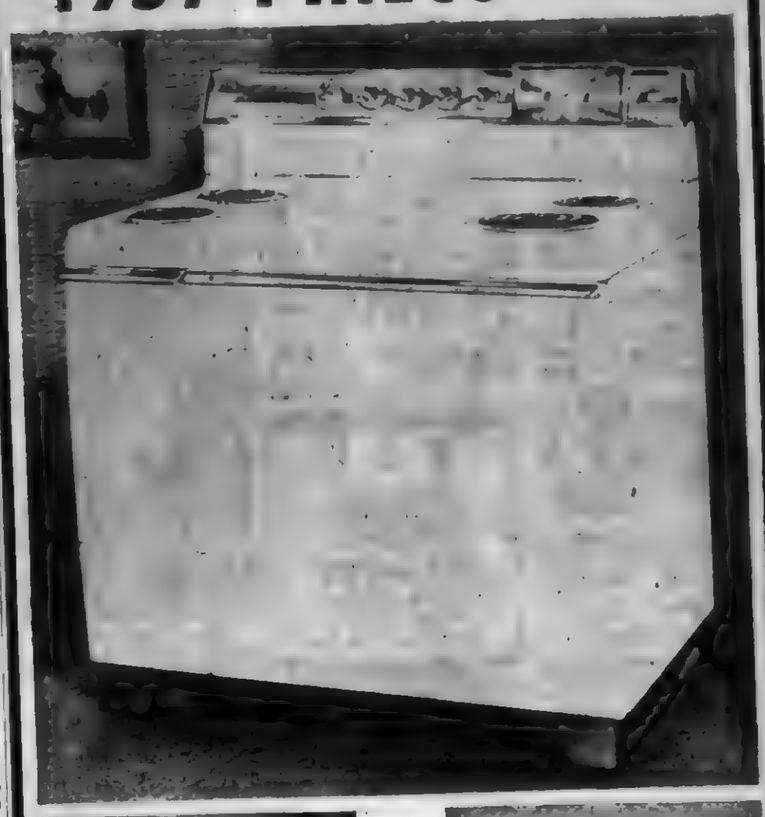
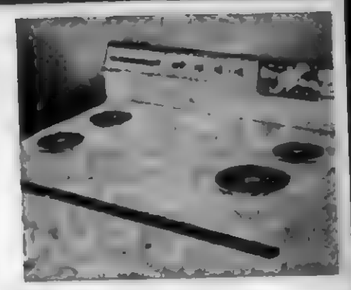
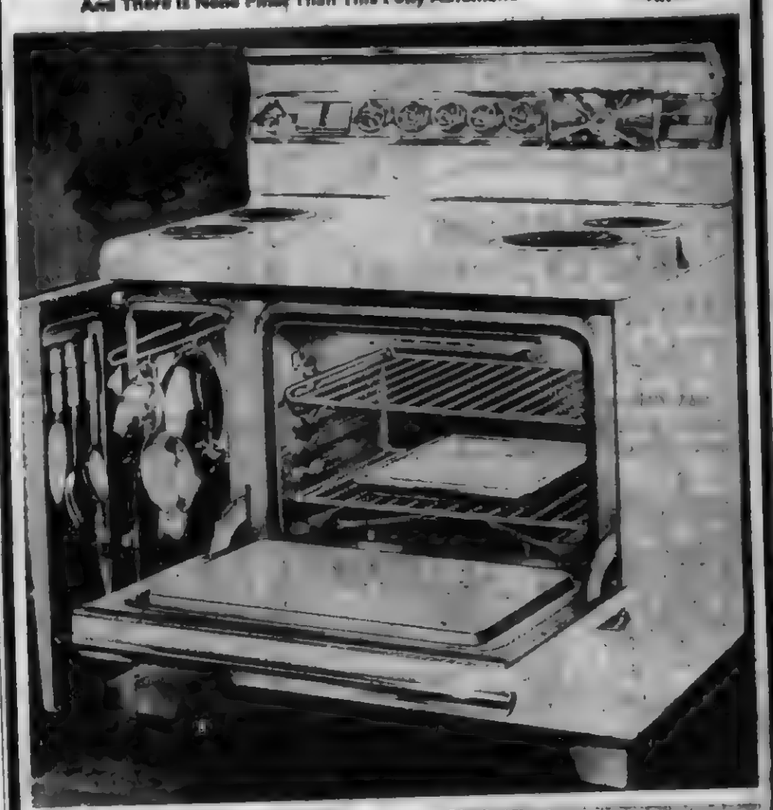
Yes Sir, Maybe We'll All Be Just Mixed Up Kids

This hullabaloo about daylight savings time prompts the following letter from County Treasurer Newton Thatcher:



"If folks think there is a lot of fuss today because of the daylight-saving proposal, the old timers will remind them of the troubled year of 1897. That was the time when the big quarrel was going on whether to have the city run on Standard Time or Sun Time.





"Look at what that fuss of 1897 did to me personally. I arrived in this world at two minutes past midnight on a certain day in March. If I were born on Standard Time I was born on March 12. If I were born on Sun Time I was born on March 13. As it happened our family doctor believed in the time as it had always been, Sun Time, so he reported me on the 13th date. Officially maybe I arrived on March 12. Who was right? Should I be celebrating two birthdays instead of one?

"The preceding is not an indorsement of slow or fast time for the present day. On that question I shall express my opinion by way of the proposed ballot."

Don't Care Attitude?
Is yours a "don't care attitude" toward God—except on holidays? God is always interested in you. Let us get acquainted with you this Sunday at our church.

Bible Answers I Peter 3:15 "... be ready always to give an answer ..."
DID PAUL EXCLUDE ALL WORKS WHEN HE STATED THAT SAVLATION WAS NOT BY WORKS IN EPHESIANS, 2:9? No, he did not. If the apostle had excluded all works by his statement he would have excluded faith itself for Jesus tells us that to believe is to work. John 6:29 "Jesus answered and said unto them, This is the work of God, that ye believe on Him whom He hath sent." It is true that man is not justified by the works of the law or by the works of his own devising. (Romans 3:20 and Matthew 15:9). But is is equally clear from James' statement in the second chapter and the twenty-fourth verse that man must do some work to be justified. These works are the works of God as mentioned by our Savior in John 6:29 and would include all the commandments given by God. To say that man can be saved in disobedience is to contradict plain Scriptural truth. In II Thessalonians 1:7-9, the destiny of the disobedient is set forth. Man must obey the commandments of God.

Elder And Epler Expansion Celebrated By 'Open House'

K. M. Elder is president and general manager of both Columbus Retreading Co., 926 W. Mound-st and Elder and Epler Inc., 1020 W. Mound-st.

K. M. Elder

A recent open house celebrated the addition of facilities and a 50 percent increase in floor space at Columbus Retreading Co.

Established on Jan. 1, 1950, Elder and Epler Inc. is distributor for Goodyear and Firestone tires and tubes, Shell gas and oil, Hotpoint appliances, RCA television and radio, and GE and Sunbeam small home appliances.

The company also offers 24-hour lubrication and washing service and operates a 24-hour restaurant, bunk house and parking facilities.

The retreading company, established Jan. 1, 1953, is already largest independently owned retreading plant north of the Mason-Dixon line. Any tire from 6.00x9 through 33.5x33 can be recapped and any tire built through 37.5x33 can be repaired.

Seven service trucks, five equipped to service off-the-road tires, cover Ohio and surrounding states, picking up and delivering tires. Working on a 24-hour basis, the plant is able to give six-day service to all customers.

Prior to 1950, Elder spent five and one-half years with Perry Fay Motors and 16 years with Goodyear Tire and Rubber Co.

He is a member of Hoge Memorial Presbyterian Church, Hilltop YMCA governing body, downtown Lions Club, Builders Exchange, Agonia Club, Columbus Chamber of Commerce, Westgate Lodge, and Scottish Rite. He is president of Hilltop Shrine Club.

Relaxation means a trip to his home at Marblehead and fishing on Lake Erie. Elder lives at 616 E. Westgate-av with his wife, Gertrude. A son, Fred, is a junior student at OSU, and a daughter, Mrs. Mary Nel Myers, lives at 518 S. Nashoba-av. Her husband, Bill, is associated with both Elder companies. Two grandchildren, Sally K. and Dougy D., complete the family circle.

'Retired' Bell 'Hired' Again

A sequel to "A Bell For Adano" is "A Bell For Air Squadron 33."

The 15 members of Explorer Air Squadron 33 of Westgate Methodist Church decided that a bell would enhance their aviation-nautical exhibit for the Scout-O-Rama this weekend.

Troop adviser Oliver Stomp, after a search via the railroad companies, located a steam engine bell, which had been "retired" when the diesels came into "power."

In the old days of "steam", the 282-pound bell traveled some 12,000 miles a month on the Pennsylvania Railroad between Columbus, St. Louis and Chicago.

The bell was presented Monday to the Central Ohio Area Council of Boy Scouts by the Railroad Community Committee of Columbus. Following its Scout-O-Rama appearance, the bell will be available to other scout units under the jurisdiction of the Central Ohio Area Council.

Summer duty for the bell will be to call Scouts together at Camp Lazarus. Mounted on a square oak base with casters, the bell is shiny and bright again in the knowledge that "there's more than one place to ring a bell!"

Fireboys Extend 'Scrap' Campaign

The drive for newspapers, coat hangers and old radio or television parts is still going strong, according to Hilltop Junior Firefighters of No. 17 House.

The boys expressed appreciation for donations they have already received and urged persons to be patient who have not yet been contacted.

Contributors may call BR. 4-9626 after 3:30 p.m. for pick-up. The firehouse number should not be called.

Proceeds will be used for equipment for the Junior Firefighters.

Chief David Bryant invites boys between 14 and 21 years to join the Junior Fire Department by signing up at the Fire House or by calling Jack LeDiard at BR. 4-4903.

Today the average man lives 25 years longer than a century ago. He has to in order to get his taxes paid.

Too Many Offspring Make Mugs 'Dog-Tired' At Night

"I CERTAINLY LEAD A DOG'S LIFE," says Mother "Mugs" who finds herself completely exhausted after a day with her eleven little livewires. Between 5 a.m. and 9:30 p.m. on Jan. 15, Mugs delivered her first family—twelve squirming offspring. Evidentially, Mugs believes the adage that they're cheaper by the dozen! Mrs. Herbert E. Weinhold, owner, 930 Racine-st, explained that there was one runt in the litter which she fed a mixture of evaporated milk, water and syrup from a doll bottle. However, in spite of Mrs. Weinhold's diligent care, the small one died a few weeks ago.

Movies, Food, Prizes Follow Successful YM Taffy Sale

Boys and girls of Hilltop YMCA have sold 2,400 pounds of taffy during their week-long sale.

At the victory rally Saturday afternoon, approximately 100 of these youthful salesmen enjoyed movies and refreshments, followed by the announcement of the grand prize winners and the winners of the consolation prizes.

Grand prize winners, selling 250 pounds or more were: John Neibler, and Deward Watts, who tied for first place with 351 pounds each; Don Ehman, 329 pounds; Jim Von Ins, 309 pounds; and David Line, 252 pounds. These five grand prize winners won an airplane trip to Cleveland, a swim and snack at the Cleveland "Y," a picture show, dinner and the return flight. Watts and Neibler divided the $5 extra spending money going to the top salesman.

Consolation prizes for the next 10 places below grand prize included a fishing rod, fishing reel, ball glove, baseball, softball, baseball bat, wrist compass, canteen, flashlight, football, and bow-and-arrow set. Several duplicate prizes were given for ties which increased the list from 10 to 13 names. These winners were Rickie Nader, Donald Lake, Mike Tripp, Gerald Walters, David Foster, Phil Hoelcher, Mike Lute, Val McGinness, Ed Wolf, John Salmon, Dave Detrow, Leci Varga, and Steve Matson.

All who sold 48 pounds or more received a Hilltop YMCA tee shirt. In addition to the grand prize winners and the 13 consolation prize winners, Cary Adams, Roger Essig, Jim McMillen, Lyle Vradenburg, Greg Wolfe, Steve Edgar, and Jan Snedecor received a tee shirt.

Sight-Saving Class Offers Bigger and Brighter Future For Visually Handicapped Youngsters

MOVABLE TILT-TOP DESKS, which can be adjusted to info jevels, bring the work to the children's eyes. Miss Orebaugh's remark that "everything in the room is movable, even us," displays her charming flow of humor which maintains a relaxed and enthusiastic atmosphere. Front row workers are, left to right, Robbie May, Dana Bagby and Billy Pearce. Back row are Virginia Taylor, Clark Mayo and Dolores Word.

A UNIQUE METHOD of reading is demonstrated by Dolores Word in the "Monkey's nest," a magnifying projector used in Miss Nelle Orebaugh's sightsaving class at Sullivant School.

A favorite spot with 11 visually handicapped youngsters, the projector is one of many techniques and materials designed especially for these children.

By Shirlee Monty

Things are done in a big way in Miss Nelle Orebaugh's sight-saving class at Sullivant School, 791 Griggs-av

Books are bigger, print is bigger, chalk is bigger, pencils, everything come in the "elephant" size for 11 little "hard of seeing" youngsters

The 11 visually handicapped children travel to school via taxi or parents and some from Arlington, Columbus, West Jefferson and New Rome. Among their visual problems are myopia, cataract and glaucoma usually with less than 20/70 vision.

In a room where techniques and materials are designed especially for them, these children are learning to "sharpen their vision and to make maximum use of their remaining eyesight," according to Miss Orebaugh, sight conservationist.

New Reading Technique

A favorite spot in Miss Orebaugh's classroom is the magnifying projector or "monkey's nest" as it has wittily been dubbed by the children. The reader sits under a coverad and slides his book under a projector, which magnifies the print from three to five times and projects it on a small screen.

Magnifying aids are frequently used by the youngsters to bring the print into their visual plane. Many read by a Dazor lamp, which again enlarges the print several times. Others simply move small hand glasses along as they read.

Everything from spelling books to the classroom dictionary has 18 or 24 point print in this room. However, as print has gotten larger, pictures have disappeared "None of our 24 point books have pictures," Miss Orebaugh explained. "If they did, each book would come in several volumes, and then, where would we put the children?"

Right now, the children are "put" in tilt-top movable desks, designed with a top that can be tilted to bring the child's work to eye level. The youngsters write with large pencils on soft cream paper with wide green lines, which again, aid readability.

More frequently, the children write at the blackboard with large soft chalk or maneuver magnetized numbers, letters and figures on the metal boards to tell their story. Most of these youngsters rate "excellent" in handwriting, although many of them, write kinesthetically, by feel rather than by sight.

Designs Special Aids

There's a lot of talk in Miss Orebaugh's room about "Stand-Up Sound Off" words and understandably so. The set of 210 picture-word cards for developing reading skill were designed by Miss Orebaugh in 1956 and are sold in book and department stores throughout the country.

The children are enthusiastic about learning words the "sound-off" way. "Why, I like them so well I keep 110 cards at home," one small boy announced.

Other classroom furnishings include an FM radio and record player, gifts of Hilltop Lions Club. "And how much we've appreciated them," Miss Orebaugh said. "You see, we must train these children to "hear" exceptionally well to compensate for their "seeing problems."

Miss Orebaugh also stresses general health and relaxation with these children. "Relaxation comes first, and then I try to develop right attitudes and to create in the child a desire to achieve," Miss Orebaugh said.

The atmosphere in her room breathes with success. Kathleen at the dictionary, John at the board, Dolores in the "monkey's nest," Philip at the Dazor lamp . . . 11 relaxed, happy children . . . all with an enthusiastic "desire to achieve."

A PENMANSHIP EXPERT in the class is John Brock. Many of these children write kinesthetically, by feel rather than by sight.

KATHLEEN WORDEN shows how hand magnifying glasses are used to aid readability. Kathleen looks up a word definition in the class dictionary, which has 24-point print, three times larger than newspaper print (. . . like this)

A DAZOR LAMP magnifies the print several times for Phillip Resch of West Jefferson.

A Saga About 'Spooky'

Spooky, a long-haired white cat, wasn't scaring anyone a few nights ago. She was too scared, herself! However, after describing her lost "Spooky" in this newspaper, Mrs. H. B. James, 3137 W. Broad-st, received a call from the Hilltonia area. And sure enough, there was Spooky, meowing something about "dial BR. 9-9444 for everything, even me!"

WHAT IS A COLUMBARIUM?
Literally, columbarium means a dove-cote, or house of the dove. Since doves are the universal symbol of peace, the meaning has been broadened to mean the "house of peace".
What better name, then, than Columbarium for the memorial sanctuary which provides the cremation memorials of dear ones?
In our columbarium are niches for memorials as fine as may be found anywhere. Others cost no more than the complete cost of a grave. Every memorial regardless of cost, receives day-to-day care in an atmosphere of quiet dignity.
For complete information write or telephone us for the booklet, "The Way of Nature". Readable and informative, it will be sent to you without cost or obligation.

Girl Scout News

Brownies and Intermediate Girl Scouts of John Burroughs and West Mound schools joined together for an International Friendship Program. February is the month troops devote extra time in their programs to friendship with those all over the world.

This year the Scouts chose a theme to depict the life of Juliette Low, founder of Girl Scouts in the United States. Each troop pantomined or gave skits on different phases of Juliette Low's life from the time she became acquainted with the Girl Guides of England until the Girl Scouts became a world organization.

Mrs. Raymond Wright, chairman of John Burroughs Neighborhood Association, turned the program over to Mrs. Chester Bell, program chairman. Mrs. Hillard Tripp led the singing.

Janet Orban of John Burroughs School and Alanda LeValley, of West Mound School, were chosen to represent District VIII at the International Girl Scout dinner held at Hoge Memorial Presbyterian Church on Feb. 23.

Even if you can't take it with you, it sure can brighten up the port of embarkation.

—Cy N. Pease.

Volunteers Needed For Drive

WORKING ON PLANS for the Mar. 20 fund drive to combat childhood nephrosis (kidney disease) are, seated, Mrs. Guy R. Tayler, Jr., 58 Whitethorne-av; standing, left to right, Mrs. Lewis Trout, 796 Richardson-av, and Mrs. William E. Williams, 402 S. Terrace-av. Mrs. Williams is chairman for the southwest Columbus area. Volunteers may call Mrs. Williams at BR. 9-1851.

Volunteers are still badly needed for a Nephrosis "Walk", a county-wide, home-to-home solicitation for funds on Mar. 20. Nephrosis is a childhood kidney disease, evidenced by body swelling, which distorts the body grotesquely.

Mrs. William E. Williams, 402 S. Terrace-av, is chairman for the southwest Columbus area. Volunteers may call Mrs. Williams at BR. 9-1851.

The theme "Give These Children More Than Half a Chance to Live" points to the 50 per cent of these victims who die from the disease.

Because the cause and cure are unknown, the Nephrosis Chapter hopes to raise $10,000 for research, parent education and financial aid to victims of the disease. Nephrosis usually occurs in children between 18 months and four years.

The Central Ohio Chapter was incorporated as a non-profit organization in December, 1956. Services are donated by the membership and a medical advisory board.

Contributions may be made out to "Nephrosis" and sent to Ohio State University, Room 108, Kinsman Hall, Columbus, Ohio.

Golden Agers 'Waltz, Sing' At '90's' Party

Yesteryear's "rock and roll" crowd defied Thursday night's rain and numbered 500 at their "Gay Nineties" Golden Age Rally at Sunshine Recreation Center, W. Town-st at Sandusky-st.

Theme, costumes and entertainment ushered in the "decade of youth" for these "over 60" party-goers. The calendar was turned back to a barbershop quartet, waltz contest and songs like "She's More to Be Pitied Than Censured."

A costume parade, trio, kitchen orchestra, choruses and square dancing added to the general gaiety of the evening.

Ushers will be furnished by Glenwood Methodist.

Sponsored by the general department of United Church women of the National Council of Churches of Christ, World Day of Prayer is observed on the first Friday of Lent in 142 countries.

These Hilltop Druggists Ask: "Can You Understand This?"

gr. ℈ ʒ
gtt. fz 3

these are some of the symbols your doctor gives your pharmacist for health - giving prescriptions

Your prescription is written in Latin (not to confuse you nor to make it secretive), but because Latin is a dead language and is used internationally. A prescription written in Latin by your doctor, can be filled not only on the Hilltop, but in Canada, France, Germany and even in Indo-China because the pharmacist and the doctor must understand Latin before they practice their professions.

"EX MODO PRAESCRIPTO"

this is . . .
DOCTOR - PHARMACIST
language

It isn't necessary for you to understand the meaning of "Ex Modo Praescripto" or any of the symbols at the uper left. It is important that the Hilltop has a number of people who do; an ample number of registered pharmacists who are qualified to read the written language of the physician when he prescribes compounded medicine for you. It should give us all a feeling of security to know that we are blessed with good doctors and good, reliable pharmacists who guard the health of our community. When you take your doctor's prescription to one of the drug stores, listed below, you can rest assured that it will be filled properly whether you understand the doctor's "Language" or not.

Retired Folks Find Inflation Plays Havoc With Their Plans

The so called retired are not so retired. Many persons who looked ahead for years toward living on a pension are unable to do so, a Record reporter discovered this week.

Inflation is the enemy of the aged and retired. Countless men and women are finding it necessary to find ways to supplement their pensions. Many are doing anything but enjoying a relaxed middle or old age.

In our look about the Hilltop we found:

Mr. and Mrs. Frank L. Wolford, 381 S. Hague-av, have a seven room house to maintain on a government pension. His income from this pension is $80 a month.

"Our income is not sufficient," said Mr. Wolford. He works part time in order to keep himself and his wife alive.

Mrs. Wolford worries about doctor bills. She said, "You never know when you might need a doctor. We have hospitalization insurance but find it costly to keep up."

Mrs. Fred Cahill, 116 N. Warren-av, said, "I just started to get Social Security and it isn't enough."

Mrs. Cahill is a widow. She is paying rent. Her big worries are the cost of heating her home and doctor bills. "My friends don't know how I make ends meet." She has found it necessary to rent a room in her home.

Mrs. Cahill points out, "I think food is out of sight." She is however, able to eat by watching food sales and careful management of her money.

Mrs. W. H. E. Spratley lives with her married son at 106 N. Ogden-av. She is the widow of a former railroad man. Her pension is $60 a month. She said, "I doubt very much if anyone could maintain any kind of a home on $60 a month." In order to have a nice home she must live with her son.

Rev. and Mrs. Charles Bowman of 342 S. Sylvan-av, present a different picture. They have the good fortune to have combined pensions. Rev. Bowman, a retired minister and his wife, a retired school principal.

They live nicely with Mrs. Bowman doing the bookkeeping for their home. This sort of living gives Rev. Bowman time for his hobbies, bird and plant life.

He feeds the birds and his garden is a sanctuary for turtle doves and martins.

Right now he is building a hot bed. His only worry at the moment is where he is going to get fresh horse manure for his hot bed.

One may draw his own conclusions as to what inflation has done to the retired. However, it would seem the only way to enjoy retirement is to be fortunate enough to have two pensions coming into the home.

Grass Roots Opinion

There seems to be every evidence that there is a house cleaning in order over at the county court house, all of which brings us back to a contention we have had for many years: When one party has the affairs of government so long in their own hands said government reaches a stage where the law of diminishing returns with regard to efficiency, sets in.

Time Tempers: We recently used a large photo of the old Troop 45 Boy Scouts and in said picture was the late Dr. H. H. Reighley. Those of us who recall Dr. Reighley as a local school administrator remember him as a stern disciplinarian. A lot of his former students thought he was "too strict." It was a pleasing thing to have his former students advise, after seeing his picture again, that now they look back and are mighty happy that he was so strict. And this makes good sense, that can well be practiced by present teachers and administrators.

Patience Does It

More than 100 persons were present at City Council meeting Monday night to attend the hearing on the request of the board of Friends Rescue Home that the city vacate a three-fourths acre plot dedicated as a street in Roys Circle and deed it to the home.

Approve Big Sewer Survey

96-Inch Trunk Line To Meet Area Growth

Steps toward the development of a huge new sewer trunk line for Western Franklin County were taken Monday evening when Columbus City Council appropriated $50,000 for a survey of this area.

Plans call for the extension of a 96-inch line at a cost of one million dollars a mile from the sewage treatment plant to a point near Harrisburg-pk where it would join with lines from Grove City and Urbancrest.

It is planned that an extension of the line would run or a parallel with the southern Franklin Township line, then to the north around the General Motors plant toward Rome and Hilliards. This would open up large areas for future development.

This whole program is in keeping with a recommendation made by the Regional Planning Commission in 1954. Grove City has asked to come into this program in view of the fact that the State Department of Health has given them until Apr. 15 to provide a solution of their pollution problems.

When the new trunk line is extended to Harrisburg-pk, Grove City would have to build about 1200 feet of line to tie into it.

The $50,000 survey appropriation by city council also covers cost estimates for carrying Marion Township sewage service from a pumping station north along the Scioto River to the treatment plant.

Fishing Hole Is Next Stop For Railroader

"It's the end of the run" for Engineer Carl Miller, 1492 N. Hague-av. The 65-year-old railroad man "engineered" his last day Monday after 47 years with the New York Central Railroad.

By Shirle Monty

Monday was anything but "blue" for Engineer Carl A. Miller of the New York Central Railroad.

The 65-year-old railroad man swung off the engine, picked up his bag, and waved good-by to his crew and 47 years of railroading on Monday afternoon.

Waiting at the McKinley Avenue Roundhouse with kisses and congratulations were his daughter, Mrs. Jane Wolf, 1492 N. Hague-av, and sister, Mrs. Albert Jack of Greenville, Mich.

Looking much younger than his 65 years, Engineer Miller talked eagerly of his "fishin' and fixin'" retirement plans. Fishing has always been a "favorite" with Miller and "with a new home at 1492 Hague-av, I've got a lot of fixing and adding to do," he said.

Celebrations seem to be in style for the retired engineer, who marked his 65th birthday Sunday with a trip to Toledo. "He didn't waste much time retiring," Mrs. Miller remarked. "But he just decided that when he turned 65, it was time to quit and relax."

Miller entered railroad life on Nov. 1, 1910, just 10 years after his father, an engineer, retired from the old CS&H railroad, later known as the Z&W railroad.

A Heap O' Shoveling

Starting out his railroad career "firing coal," Miller was promoted to engineer in 1916. "Hand-firing the engine was the hardest part of my last 47 years," the former railroad man recalled. "We burned up 56 tons of coal to Toledo and back—and that's a lot of shoveling!"

But not much compared to his 10-year total. Miller estimated that at 10 tons a day for 10 years, he shoveled more than 29,000 tons of coal, or comparitively speaking, six trains with 70 cars each—all full of coal!

"If I had seen it this way in the beginning," he laughed, "I probably never would have started!"

Miller has evidenced many changes since 1910, foremost, the change from steam to diesel power. The change-over occurred in April, 1949 to New York Central.

"A great thrill went with the old steam engine," Miller reminisced," getting on that old whistle and blowing for all you were worth, the noise, the rocking . . . the diesel engine rides like an automobile . . . and you can get on with a clean suit and come off with a clean face . . . not

Housewives To Show On TV 'Way We Wash Our Clothes'

The Hilltop is going to be the scene of what is perhaps the first television commercial produced remote and live, direct from a home.

Westinghouse's Betty Furness is scheduled to be here on Apr. 8 when CBS televises the Westinghouse "Studio One" Sand Test commercial from the homes of two Hilltop housewives who live across the street from each other.

It all happened this way: Back a few weeks ago Betty Furness demonstrated via TV how she could put dark-sand in a Westinghouse Laundromat automatic washer containing six towels and have the sand removed in the normal course of the rinsing and cleaning actions of the machine. She also proceeded to show that other machines didn't do that kind of a job.

Mrs. Fred R. Asay, 3176 Whitehead-rd, wife of West Hill Drugs owner, saw the demonstration and thought nothing of it because she had already done that very thing with her own Westinghouse washer.

Her neighbor, Mrs. Michae E. Spangler, wife of a local dentist, 3165 Whitehead-rd, was skeptical however and told Mrs. Asay she thought the whole thing was "rigged."

Mrs. Asay told Don Rice of Westgate Electric, local Westinghouse dealer, about the conversation. A letter was written to the manufacturing firm, and after some discussion and a lot of planning the whole thing is scheduled to be enacted right here on the Hilltop.

A crew of 15 CBS engineers, cameramen and technicians will begin setting up their equipment on Apr. 7. They will use the "split-screen" technique used on the "Person to person" program to televise simultaneously from the two homes.

PRUNE THE FRUIT TREES

What to do with the fruit tree in the backyard is a problem faced by many backyard gardeners at this time of the year. Proper pruning is one of the most important jobs in your garden at this time of the year. It is not too difficult, but a certain amount of thought and skill is needed to get the best results. Pruning tends to make it possible for the tree to give maximum yields of fruit over a long period of years.

The proper time to prune is during March and April while the tree is still in a dormant stage, and long periods of extreme cold weather are not likely to be encountered. Trees pruned in the fall or early winter may suffer serious winter injury.

There are a number of different tools which are used in large orchards to do the pruning, each with a special use. For the home gardener, however, not all of these are necessary. There are two which are really necessary. First is the hand shears used in making small cuts on twigs and branches. A small narrow bladed hand saw is the second tool, and can be used for making any larger cuts which cannot be handled by the hand shears. A third tool, which would be desirable, although not absolutely necessary, is the long steel handled lopping shears. This tool makes the job of cutting larger limbs much easier. With these tools the average person can do an acceptable job of pruning.

A well pruned tree will have strong, well spaced "scaffold branches" coming off the main trunk of the tree. There will be no interference or rubbing of smaller branches against each other at any place in the tree. Pruning tends to keep the tree from becoming too tall and "leggy" if the proper cuts are made.

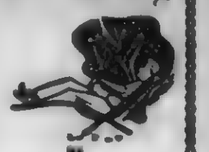
Removal of large branches is referred to as "bulk pruning," and "detailed pruning" is the removal of small branches to thin out the tree. "Heading back" cuts are used to remove the terminal growth of a branch back to a lateral branch.

You should make all cuts smooth and flush to the limb from which the branch was removed, leaving no stub which will decay and allow disease to enter the tree. Pruning should be done with the minimum number of cuts to obtain the desired results. Few "bulk cuts" will be necessary on a well cared for tree.

FERTILIZE NOW

In Ohio, nitrogen is the only nutrient elements which is not provided in adequate amount to the trees by the soil.

Apples and plums need one-fourth pound of nitrate of soda per year of tree's age. Then, an eight-year-old tree would receive two pounds broadcast out around the tree.



Peaches and cherries need one-third pound per year of age.

Questions of general interest will be answered in this column. Write the question on a postcard with your name and address and mail to "THE GARDEN SPOT" J. R. Mills, Franklin County Agricultural Ext. Service, Room 317, Old Post Office, Columbus, Ohio.

In Passing

By Esther Weakley

It must take patience for the hills to stand
Bearing the sun, humoring wind's caprice,
Waiting until day fades and night returns—
The dark cool night—that brings the stars and peace.

We might from this immense serenity
Learn the long way of patience, if we try,
Knowing that strength from such discernment comes
From hills that stand all day against the sky.

Dear Son

By Joseph Martell

Chittlin' Switch
Monday Afternoon

Dear Jason:

I'm on the outh with your Paw. Last week we had an argument when I wouldn't dip into the egg money to let him go awill a few down at the Bon Ton Cafe. I told him he was driving me to my grave. In two minutes he had the old Ford in front of the house.

Things have been rather slow here around the Switch. That young boy you used to run around ith Vernon Stronk from Beaver Gulch, got arrested last week because he was a camera fiend. I thought it was funny they'd arrest anyone who had a hobby for taking pictures but come to find out, Vernon took cameras.

The bathroom set came the other day that we ordered from Sears but the company must have made a mistake because after we set the tub and and the rest of the stuff up we seemed to have a piece left over. Well, we took this extra piece off the hinges and the flat part I used for a bread board and the round section we framed Grandmaw's picture.

That parrot you sent me will be the death of me yet. His language is not the best. Mrs. Poozer has a girl parrot who prays all day long so I figured that if I put my parrot in with hers, maybe he'd learn how to be polite. Well, as soon as we put him in her cage he shouted: "How's about some loving, honey!" Mrs. Poozer's bird shouted back: "What do you think I've been praying for?"

A couple of weeks ago I wrote you that Adrenaline Sledge's husband died very suddenly. Addie took it pretty hard so the preacher paid her a call yesterday to comfort her. When he got there he found her drinking heavily and was in an extremely happy mood. He was very surprised and asked her if the bottle she held in her hand was the sole comfort she could find in the loss of her husband. She answered: "Nope, there is a dozen more bottlef up in the cupboard."

I happened to mention to that snoopy librarian, Maude Flange, that you were going to sea soon and maybe get as far as Egypt. She told me to tell you if you did get there to be sure and see the Sphinx. I told her if you didn't get a chance to see them you'd at least call them on the phone.

Your loving,
MOM

Four West High Vocal Groups To Be Rated On Ability At District Trials

March seems to be the month for singing. Four West High vocal groups are going to contest this month.

West High Choir and the girls' glee club will be judged on Mar. 30 and the mixed and girls' ensembles on Mar. 16.

Each group is given its choice from a list of selected numbers, and each chooses a "warm-up number." The choir has chosen "Elijah Rock" as its selection and "Sanctus" as its warm-up number. Required selection for all choirs is "Lend Thine Ear to My Prayer."

Choral groups have been attending contest for many years, not to compete but to be judged by qualified judges. Ratings start at "1," which is the best grade. Last year the choir received "1" in the district and "2" in the state; girls' ensemble got "2" and the mixed ensemble "1" in the district and a "2" in the state. Girls' glee club is attending for the first time this year.

Groups receiving less than "1" in the district are not eligible to go to state contest.

Mixed ensemble is composed of June Johnson, Sandy Southworth, Pat Evans, Judy Beagle, Gary Smith, Jim Apel, Bill Campbell and Jack Kight. Girls' ensemble is composed of Kay Hudson, Peggy Hastilow, Linda Ross, Jeannie Mincks, Holly Hunt, Judy Seagle, Janet and Janis Harvey, Elizabeth Postlethwait, and Shirley Anderson is the accompanist.

Senior Students View 'Jury' Film

West High 12A problems of democracy students viewed a film on jury duty, Mar. 6.

Purpose of the film is to better acquaint Columbus up-and-coming voters with America's jury system. Many try every way they know to dodge this three week public service. They do this from, perhaps, lack of knowledge on the subject.

Each Columbus high school has had the opportunity of having this film shown to its students.

State School Receives Flag

Smith-Barratt Post 249, American Legion, presented an American flag to Geve Hall, Columbus State School during a school assembly program Feb. 27. Participants in the ceremony were (left to right): Roy E. Ferguson, director of education and training at the school; a resident at the school, who accepted the flag; Dr. Hans Mulhelm, clinical director; Commander William J. Gallagher and Mrs. Alberta N. Francisco of Smith-Barratt Post 249. Dr. Mulhelm was present as a personal representative for Dr. W. A. Butcher, managing officer of the school.

For both men and women, blue and red tend to be the most highly preferred colors, while yellow and orange tend to be the less highly preferred.

Fishing Hole—

(Continued from Page 1)

as with the steam engine . . . gloves last a year on a diesel . . . they lasted a month on a steam engine!"

Miller pointed out an increase from 1800 railroad tonnage in 1910 to 10,000 tonnage now. Not only tonnage, but salaries, too, have undergone a considerable increase from 1916 days when Miller received $4.75 for a 10-hour day or 100-mile trip.

The most serious accident Miller experienced in his 47 railroad years was a broken leg in 1920. He was thrown off a train that went into an open switch in Raymonds, O.

For the past ten years, Miller has been on the Columbus, Toledo run or "Hot Shot" run, according to railroad lingo. A member of the Brotherhood of Locomotive Firemen and Enginemen, he served as general chairman for the group from 1935-36.

Miller glanced back once more to describe his work as "a good life spent with good officials and fellowmen." He commended the road foreman, R. W. Moss, "who made my last two days very enjoyable."

And with that, Miller turned in his "engineering" license for a fisherman's license . . . with hopes that his new "hauls" will be as large as the old.

The Phantoms lead the league with a 6-2 record. They also won team honors for high game, 637, and high series, 1366, Thursday.

WHAT IS A COLUMBARIUM?

Literally, columbarium means a dove-cote, or house of the dove.

Since doves are the universal symbol of peace, the meaning has been broadened to mean the "house of peace".

What better name, then, than Columbarium for the memorial sanctuary which provides the cremation memorials of dear ones?

In our columbarium are niches for memorials as fine as may be found anywhere. Others cost no more than the complete cost of a grave. Every memorial regardless of cost, receives day-to-day care in an atmosphere of quiet dignity.

For complete information write or telephone us for the booklet, "The Way of Nature". Readable and informative, it will be sent to you without cost or obligation.

Burgess-Boyer Rites Event Of Mar. 2

Westgate Evangelical United Brethren Church was decorated with arrangements of palms, ferns, white bridal flowers and candelabra, with an arch of greenery and white flowers for the wedding of Miss Kay Burgess and Mr. Richard E. Boyer, Mar. 2. Rev. Harold Dutt read the marriage service at 2:30 p.m.

The new Mrs. Boyer is the daughter of Mr. and Mrs. Ray Burgess, 731 Wiltshire-rd and her husband is the son of Mrs. Marie Tate, 977 E. Whittier-st.

Given in marriage by her father, the bride chose a gown of pure silk and nylon tulle, designed with scooped, iridescent-trimmed neckline and long, tapering sleeves. The full waltz length skirt featured a peplum effect in the front and, in the back, tiny tiers of ruffles extended the full length of the gown.

Her fingertip-length veil of imported illusion was caught to a matching plateau trimmed with pearls and iridescents, and she carried an arrangement of white glamelias and lillies of the valley.

Mrs. August Ruzicka, matron of honor, was gowned in a pink semi-sheath taffeta gown with matching feather hat and veil, and carried violet glamelias.

Jane Roberts, cousin of the bride, was the miniature bride. She wore a white net and satin ribbon gown with a matching bonnet and a corsage of white glamelias.

Mrs. Danny Bell, bridesmatron, and Dee Roberts and Lynn Roberts, cousins of the bride, junior brideamaids, all wore violet semi-sheath taffeta frocks with matching feather hats and pink glamelia corsages.

Mr. August Ruzicka served as bestman and guests were seated by Mr. Rudy Williams, Mr. Garry Beckett, Mr. Walt Schwartz and Mr. Bob Vogt.

Mrs. Burgess chose for her daughter's wedding, a pink jersey and chiffon frock over taffeta, white feather hat and a corsage of white orchids. The mother of the bridegroom wore a light blue jersey gown with black accessories and an identical corsage.

Miss Grace Durflinger and Mrs. Richard Kerns were hostesses for the reception held at the Dispatch Country Club, immediately after the ceremony.

The new Mrs. Boyer was graduated from West High School and is employed at the Ohio Bell Telephone Co. Mr. Boyer was graduated from South High School and is associated with the Columbus Dispatch.

A college education seldom hurts a man if he's willing to learn a little.

'Nephrosis Walk Is Dated Mar. 20; Volunteers Needed

The Central Ohio Chapter of the National Nephrosis Foundation is sponsoring a Nephrosis Walk on Mar. 20 to raise funds for research at Children's Hospital and University Hospital.

Childhood Nephrosis, one of the most common chronic diseases that attack children, is a serious kidney ailment which remains a mystery to medical science. The cause is unknown, and there is no known cure. Fifty per cent of all victims do not survive.

Mrs. O. M. Goodloe, wife of the city health commissioner, is the local Honorary Walk Chairman.

Mrs. Goodloe said, "As a nurse, I have always been interested in the promotion of health and, especially the problems which relate to children. In my personal experience, I have seen and helped care for many children with nephrosis. The nephrosis walkers who will be visiting homes in Columbus and Franklin County on Wednesday, Mar. 20 have a serious health message for everyone, and we hope everyone will listen."

If a nephrosis volunteer does not call at your home, you may mail your contribution to: NEPHROSIS, P.O. BOX 83, COLUMBUS, O.

Many volunteers are still needed. Volunteers may call: Mrs. Stanley Klein, 2686 Brentwood, BE. 1-6046, chairman for the Nephrosis Walk; Mrs. Harry C. Sharp, 184 S. Yearling-rd, BE. 1-7543, president and general chairman; or Mrs. Kathyrn Williams, 5220 Jeannette-rd, TR. 6-7415, Hilliards suburban chairman. Hilliards team captains are Mrs. J. P. Adams, wife of Rev. J. P. Adams, Mrs. Calvin Davis, Mrs. Betty Ball, Mrs. Marlin Hurd, Mrs. Gene Burleson, Mrs. Frances Mayer and Mrs. George VanFossen.

The Dublin suburban chairman is Mrs. Ed Sima, 728 Riverside-dr, TU. 9-8096.

O'Neill Proclaims Wildlife Week

Sportsmen's clubs, civic organizations and youth groups will take part in National Wildlife Week to be observed Mar. 17-23 by proclamation of Gov. C. William O'Neill.

Chairman of this year's event is Walt Disney. Disney has designated the theme for 1957 as "Homes for Wildlife" which the conservationists can run the whole gamut of abuses to which Ohioans have thoughtlessly or selfishly subjected their rich land in the past.

Ohio State To Hold Ag-Career Conferences

Franklin and Madison County high school juniors and seniors may attend the annual series of career conferences sponsored by the Ohio State University's College of Agriculture Mar. 21 at 1 p.m. in Room 111 of the new Agriculture Administration Building at the university.

Representatives of the university will discuss careers in agriculture, home economics and related fields with the students. Chester S. Hutchison, assistant dean, will be in charge of the Columbus area meeting.

"Some people say the best way to stop the noise in the car is to let her drive!"

Plan Farm-Home Week

Research workers, extension staff and teachers in the College of Agriculture at Ohio State University will team up to throw a searchlight on the future of Ohio agriculture at the 45th annual Farm and Home Week, Mar. 19 through 21, Dean L. L. Rummell announced.

Open house for Ohio citizens in the new Agricultural Administration building will be one feature of the Farm and Home Week program, Dean Rummell said.

The college will stage their sessions emphasizing new trens revealed by research at two afternoon periods on Tuesday, Mar. 19 and Wed., Mar. 20.

Tuesday forenoon and Wednesday forenoon sessions will be general assemblies. Here the broad policy questions facing farm people will be examined.

"Youth Day" for high school students is the feature scheduled for Thursday Mar. 21.

Four Ohio dairymen will share their experiences in herd expansion with Ohio State University Farm and Home Week visitors Mar. 19. They will appear as panel members on a dairy science program at 3 p.m. in Plumb Hall.

Other dairy science speakers on the Mar. 19 program will consider topics related to dairy feeding. They will discuss such subjects as: supplementing super and sub-quality roughages, pelleted roughages for dairy cattle, the effect of grain on roughage digestion and minor feed factors of major importance.

A Dairy Herd Improvement association honor banquet is scheduled for 6.30 p.m. Mar. 19 in Pomerene Hall.

D. Howard Doane, one of the nation's outstanding farm management authorities, is scheduled to speak.

He will appear at a Buckeye Farmers Business luncheon Mar. 20 in the Ohio Union on the OSU campus. He will speak on the subject "Managing the Farm Business the Next Few Years." Doane also will talk at a general morning session the same day.

A special program for Ohio beekeepers Mar. 21 will offer suggestions on spring management of colonies and some tips on how to identify nectar and pollen plants.

Blind School Sets Festival

Ohio State School for the Blind will hold "Festival Day" from 2 to 5 p.m. Sunday, Mar. 17 at the school, 5220 N. High-st.

The program is planned to acquaint the public with the school's activities and to raise money for school projects and equipment.

Featured will be classroom exhibits, displays by clubs and Scouts, music program, performances by bowling and wrestling teams and a tour of the school and cottages. Refreshments and baked goods will be on sale. General admission is 25 cents.

Farm Bureau To Take Issues To Washington

Farm Bureau congressional spokesmen are preparing for their annual trip to Washington, D. C., to talk over current issues with Ohio Congressmen, USDA and other government officials.

Harold L. Schacht, Canal Winchester, will represent Franklin County as spokesman from the 12th Congressional District.

Among the matters to be taken up will be

(1) Better deal for corn producers; (2) extension of Public Law 480 which permits foreign countries to buy our produce in their own currency (thereby increasing world trade); (3) opposition to mandatory check-offs on farm products; (4) public development of Niagara Power (which allegedly would bring cheaper electric rates to Eastern Ohio); and (5) opposition to proposed changes in taxes on co-ops.

Contentment is really just a matter of reducing your wants and desires.

Blue Ribbon Photographer Allen Still Goes To School

J. Curtis Allen, who's been taking pictures for 15 years, goes to school every summer for six weeks to learn "something new." Thousands of satisfied customers (he prints 100,000 pictures a year) must wonder where the room for improvement lies.

Allen, a snappy dresser with an affable manner, started his colorful career in photography after he graduated from the Chicago Institute of Technology as an electrical engineer.

He was sent to Hollywood as a special lighting effects advisor for motion picture sets. During his stay out there, he worked—this is a switch—in front of the camera with Glenn Ford in "Target for Today," an 8th Air Force documentary film.

Allen, who in real life was a Lt. Col. in the Air Force during World War II, played a commanding officer in the film.

Allen is known nationally as one of the best child photographers in the country, although he takes adult and commercial photographs as well. His unique photographs of children have earned him more blue ribbons than Liberace has teeth.

Although he has a staff of 15,

Recognize this man? You should because he's Hilltop's own J. Curtis Allen, a photographer who's shown in a rare scene in front of the camera. Allen is shown as he appeared in an Air Force documentary film, "Target for Today" in which he played a commanding officer.

Allen takes all the pictures. He strives for "something different" in his photos.

His popularity with teenagers is due to special poses and lighting he uses to give "a little glamour" to their portraits. He calls it a "Hollywood style" portrait because he learned the technique while there.

Allen, whose pleasures include smoking a pipe ("If I don't have a pipe I'm lost") and spending summers at his cottage at Madison Lake ("fishing's good there"), lives at 221 N. Ogden-av. He has a 15-year-old daughter who is interested in photography and a petite wife, Phyllis who helps him in the busy studio.

Allen's a member of the American Legion, Hilltop Business Association, and is a director with the Ohio Professional Photographers Association.

'DAL' BECOMES LEGEND

By Barbara Villalobos

A last farewell was given Thursday for "Dal," the talisman mascot of the Franklin Township Fire Department who was poisoned last week.

Approximately 150 friends, neighbors, and firemen attended. The tribute was held at the firehouse, 4100 Sullivant-av. The sleek black and white spotted dog was described by a fireman as "the smartest dog I've ever seen."

"Dal" lay in a open white casket with a large bouquet of red carnations from the firemen behind it. His former owners, Mr. and Mrs. Bryan Wyatt, sent a fireman's helmet made of flowers with "Dal" in gold letters on the shield. The card read "To "Dal," the best pal we ever owned."

Funeral director Noble Allen, who handled burial arrangements, sent pink and purple flowers. The Ladies Auxiliary placed a silver wreath beside his casket. A woman who had planned to breed her own dog to "Dal" sent gladiolas.

You could sense the indignation and outrage people felt as they filed past "Dal's" casket. There were tears from the women and bewildered expressions on children's faces. Grown men, most of them firemen, were stern faced and misty-eyed.

One question seemed to dominate their conversations — "why would anyone want to poison 'Dal'"? He was a friendly dog — he'd never bit or hurt anybody. The one thing he didn't like was roughness or fighting of any kind.

Recall 'Good Times' Together

Firemen who had owned "Dal" as a pup, seemed to find comfort in talking about him. One told how "Dal" would pout all day if he didn't get to go on a fire run. The firehouse was his home. If you couldn't find "Dal," you just had to "look in one of the trucks and he'd be there" one fireman recalled.

Another laughed as he remembered how "Dal" had eaten one fireman's lunch of hamburgers when he had rushed out to a fire. "We spanked him for it and after that, we'd put steaks and everything else on the table and try to coax him to get it but he wouldn't touch it," he recalled.

The service was simple and brief. Carl Alte, deputy of Franklin County, began by saying "We are gathered here to pay homage for a real pal." Inspector of State Fire Marshall's Office, Otto Bugg, read a poem from "Dog World" magazine — they've offered a $50 reward plus prosecution costs of poisoner. He finished with "whoever did this, may God have mercy on his soul." One woman in the Ladies Auxiliary shouted "amen!"

Firemen, hats off, filed past the casket for a last look at "Dal," followed by Boy Scouts, then friends and neighbors.

Dal's casket was carried outside past two rows of firemen to the front lawn of the firehouse where he was buried.

Perhaps the mood of the evening could best be described this way. A little boy, upon seeing "Dal" in the casket, asked with childlike curiosity, "What's "Dal" doing in there?

Everyone else wondered too.

• • •

Franklin Township firemen were given another Dalmatian the day after Dal's poisoning. A Mrs. Lounsdury of Gahanna was the donor.

Mrs. Lounsdury's daughter owned the dog but she's been in Florida training to be a stewardess and the dog "wasn't get the right kind of care."

The dog's name is "Tally-Ho" but firemen have expressed a desire to change it. One fireman said "she is hard of hearing—she can't pick up certain sounds just right but we're going to wait and see if she outgrows it."

If they can't keep the dog because of her defective hearing, they'll "breed her and try to get a good litter of pups."

Sgt. Robert Murphy of the sheriff's office is working on all leads and tips trying to find who poisoned "Dal."

Bible Answers

I Peter 3:15 ". . . be ready always to give an answer . . ."

IS SALVATION BY GRACE ONLY? Nowhere in the scriptures is it stated that salvation is by grace only. Why anyone would want to espouse such an erroneous doctrine is certainly beyond the comprehension of faithful Christians. Certainly man is saved by the grace of God (Titus 2:11). Man is also saved by the blood of Christ (Romans 5:9). To say that a man is saved by grace only is to exclude the blood of Christ. Man is also saved by faith (Romans 5:1), repentance (Luke 13:3), confession (Matthew 10:32), and baptism (1 Peter 3:21). The grace of God, the blood of Christ and the obedience of man bring salvation. Salvation by grace only and faith only are not only contradictory terms but are the doctrines and commandments of men (Matthew 15:9). Salvation is much too priceless a possession to take chances with. Be sure that you follow the Bible.

Dig That Crazy Bunch Of Kiwanians When They Performed At Hilliards Last Thursday

The Village of Hilliards may never be the same. Last Thursday evening Hilltop and West Franklin Kiwanians joined forces at their annual Spring Frolic, commonly called the "nut festival." One of the performers was Russell Carter doing a hula accompanied by Al Bettinger.

Maury "88 Keys" Stretch, president of West Franklin Club entertained at the piano and looking on are Hilliards Legion Minstrel Men Ralph Geese and David Patch. The Hilliards group accompanied by their "red hat" Dixieland Band served up an entertaining minstrel. Dancing followed the big entertainment.

More talent from the Legion show was displayed by the line of dancing girls shown here. The Hilliards Minstrel will be the last of this month. Earlier in the evening the Agriculture Committee members had presented themselves with awards and presented a special portrait to President Ed Johnson.

Homer and Jethrow really pulled down the house. Dick Nash and Don Best playing the parts of these two comedians showed "good form" in their fun making. It was apparent that months of time had been spent in preparation for this lavish entertainment that will go down as a history maker.

Elvis was there and got a big ovation. This Elvis is Hilltopper Bill Grace who also handles a mean guitar and sings. Harold Cunningham was master of ceremonies. Dinner was served by the Hilliards High Home Ec department.

Susie Johnson Sings 3 Hits On TV Show

Susie Johnson, star of Broadway's "Most Happy Fella" and daughter of Mr. and Mrs. Clyde Johnson, 121 S. Sylvan-av, was guest on the "Tonight" TV show Monday night.

She performed three numbers from the show which has skyrocketed her to fame.

TV seems to run in the family as Miss Johnson's husband, Robert Pastene, will appear on the Omnibus show Sunday night.

Contrary to reports published elsewhere, Susie Johnson's tooth was not knocked out during a recent hehearsal of the show, according to her mother. Mrs. Johnson explained that a cane hit her on the mouth, cutting her lip, but "not affecting her teeth."

YOUR NEW TIRE BUYING GUIDE
Recently the major rubber companies — Firestone, Goodyear, Goodrich and U.S. — reduced their 1st and 2nd line tires to 2nd and 3rd line levels, with a corresponding drop in quality, without changing the names of their tires. Consequently these tires are not the same quality tires you received on your 1955-1956 automobiles but are of lower grade. In order to eliminate the confusion which has resulted, the following up-to-date line-up is being printed for your convenience.

Father Is Doing Well

Men who are about to become Dads for the first time are notoriously a nervous lot, but this state of anxiety usually wears off with the coming of the second or third new arrival. Not so, however, in the case of Les Swinford, manager of the Great Western J. C. Penney Store, whose wife gave birth to a baby boy last Thursday at University Hospital.

An announcement of the event, prepared by the printer, awaited only the insertion of the youngster's name, and boy or girl. When the word was given to Les that it was a boy, he flashed the news to the printer, and off the press came the announcements, ready for the mail. Only problem was how to explain the name, Virgil Mac, on the announcements, instead of Edward Mac, the name which should have been given the printer.

Yes, Les admits he was a bit nervous—even after the fourth arrival. Virgil, incidentally, is his grandfather's name.

P.S. The announcements were reprinted: Edward Mac, 6 lbs. 4 oz., blue eyes, blond hair."

Expension

As we experience more growing pains we need to continue to expand our business and our facilities and so our latest move is to take over the room immediately west of our present offices.

A new and attractive front is being built. Considerable remodeling is under way inside our building and in another few weeks we hope to be settled down again after moving our various departments in order to make their working conditions better.

And as somebody has said . . . you just never stand still . . . you either go forward or backward . . . We're merely trying to keep pace with the rapidly growing communities we serve.

F. Wollerman Accepts Pulpit In Delaware

Fred Wollerman, 26-year-old son of Mr. and Mrs. Arthur Wollerman, has accepted a unanimous

Fred Wollerman

call to the Old Stone Presbyterian Church near Delaware.

A senior at McCormick Seminary in Chicago, he was graduated from West High School in 1949. He studied one year at Ohio State, three years at Wooster College and attended special classes at Capital University.

He was a student pastor at a church in Remington, Ind., and will be graduated from McCormick on May 2.

Mr. Wollerman, who lives on the campus at McCormick, is married to the former Jane Earle of Perrysville. They have two sons.

Fred's mother hopes he will be ordained at Hoge Memorial Presbyterian Church because he's been enrolled there from the "cradle roll on up."

Fred is one of three young men from Hoge who are now studying for the Presbyterian ministry. The other two are Robert Schmidt, son of Mr. and Mrs. R. F. Schmidt, 143 N. Huron, and Charles Nairn, who is now studying and living on his seminary [illegible].

Former Hilltop Boy Wins Award

Robert Sandusky, 17, formerly of 175 S. Roys-av, has won a Civil Air Patrol foreign exchange scholarship which means he'll be able to visit one of 21 free nations this summer.

Robert, who moved to Omaha, Neb. last September is a senior at North High there, was featured in a Nebraska newspaper story telling of the award.

Capt. Mollie B. Campbell, CAP public information officer, said Robert is an "outstanding cadet with a good mind and sound logic. I don't believe you could confront him with a situation he couldn't handle."

He intends to take up aeronautical engineering at the University of Colorado or Ohio State after graduation from high school.

Mt. Carmel To Hold Cancer Survey Clinic

Mt. Carmel Hospital is one of four in Columbus which will be open from 7 to 9 p.m. Tuesdays with a free clinic for women who wish to take part in the cancer survey project.

The project is for women of Franklin County who are over 20 years of age. It is being sponsored in six cities around the nation by the U. S. Public Health Service, in cooperation locally with the Columbus Academy of Medicine, Ohio State University, and the American Cancer Society.

The survey project is using a brief and simple test, so brief that it takes only five minutes, and so simple that it is the earliest means by which cancer can be detected in the reproductive tract.

At this time, after being in operation in the county for six months, 71 women have been found who were suffering from cancer of the uterus and did not know it. These 71 are either under treatment or have been clinically cured.

The survey project is designed so that women will undergo this test three times at yearly intervals, either in the office of their own physician or at one of the free clinics which have been established.

There is no laboratory charge involved in the project. If the woman visits her own doctor she receives a report from him; if she goes to a clinic, her report will be mailed to her directly from the survey office.

Daytime clinic has been established at 320 W. 10th-av, from 2 to 4 p.m., five days each week. The establishing of night clinics was done in response to many requests from women who work during the day.

Four hospitals will have night clinics, all on Tuesdays from 7 to 9 p.m. In addition to Mt. Carmel, facts will be [illegible] Grant, White Cross and St. Ann's. Women are requested to go to the emergency room at that time for the examination.

School Custodian Supervises 'Child Traffic' On Bad Corner

ONE OF THE SAFEST CORNERS AROUND during after-school hours is the Highland-av, Broad-st intersection, thanks to the daily vigilance of Highland Avenue School custodian Villar Kaufman. Although 'patroling' is not a part of his official duties, the 68-year-old custodian has supervised and directed 'child traffic' for the past 16 years.

By John McPeek

Some people do everything that is expected of them. And then there are those who do more than what they are expected to do. Vilar Kaufman, head custodian at Highland Avenue Elementary School, is such a man.

For the past 16 years, Kaufman, unfailingly, has appeared at the corner of Highland and Broad to supervise and direct the homeward-bound Highland Avenue School children while crossing the street.

With the exception of several days when he was sick, and a few weeks last year when he was recuperating from an injury received on the job, he has never missed a day.

'Patroling' children is not an official part of his duties. "He does it out of the goodness of his heart," Mrs Ruth Rankin, principal of the school, said. "He thinks only of the welfare of the children."

When interviewed for this article, Kaufman stated, "Now don't go picturing me as some sort of noble character. I only do it because that Broad-st traffic can be murder. I think someone ought to watch after those kids, and I'm the logical one here to do it. Like everyone else, I work because I have to make a living, and that's all. Of course, I like [illegible] though," he added, making a mockery of his gruffness.

For the past three years Kaufman has been assisted in his extra-curricular traffic activity by school custodian Glen Mosier of 60 N. Ogden-av. Mosier has been directing the children during the lunch hour, while Kaufman has continued to direct them when school dismisses at 3:15 p.m.

Occasionally someone will suggest that Kaufman discontinue the extra work because now there are well-organized junior traffic patrolmen on the job. But Kaufman brushes the suggestion aside. "They're kids, too," he says. "It's best that an adult is there," and he continues to appear promptly every day.

Kaufman, who is well-liked by school officials and teachers, is particularly fond of the Highland Avenue School because it was "just 58 years ago" that he attended it as a fifth-grade pupil.

Now 68 years old, Kaufman will retire at the age of 70 under the school board's compulsory retirement plan.

"I've seen so many kids and teachers come and go, it sure is going to seem strange to leave the place," Kaufman said. "Oh well, I've got a big house and there is always plenty to do around it. Maybe I'll do some gardening, too."

We're sure it's going to seem strange, too, not seeing this familiar figure at his usual corner. Kaufman lives with his wife at 47 S. Warren-av. They have a daughter and a son, married and living away from home.

S. Ogden-av, at 91. He had lived at the Ogden-av address since [illegible].

A well-known figure on W. Broad-st, "Pop" was seen nearly every day walking the familiar blocks near his home. He had emigrated to the United States in 1889, and settled in Columbus. Mr. Schumann had lived alone since the death of his son, Clarence, last November.

He had been employed as a machinist at Jeffrey Manufacturing Co. for 27 years before his retirement and was a member of the Moose Lodge.

Mr. Schumann is survived by daughters, Mrs. Norman Pohle, 3108 Wicklow-rd, Mrs. G. H. Faubert of Big Run-rd, Grove City, Mrs. C. O. Leach, 1875 Sullivant-av; sons, Carl, 115 Demorest-av, and Ernest, 683 Wiltshire-rd; nine grandchildren and five great-grandchildren; several nieces and nephews.

THE CALENDAR SAYS:

It's Spring!

Well, the calendar says it's Spring and the weatherman tells us it's so but a lot of people are going to find that it's hard to believe on a day like this.

It never fails, does it? The first day of Spring always turns out to be a shining example of a typical winter's day in the north. Today was no exception but we had an even extra touch—some snow to cool off our "spring fever" brows and dampen our optimistic outlook. Oh well, button up that overcoat and get out that handkerchief—you won't be needing them for long because it's Spring! (It says here)

Paid Record Reader May Discover $120 This Week

Two Hilltop Record subscribers discovered for themselves last week that cashing in on our "Confederate" money game is just as easy as we promise. J. C. Torrie, 132 N. Hague-av, and Mrs. E. W. Flugge, 48 N. Harris-av, exchange their copies of last week's Record, containing $1 insignia, for crisp, new "Confederate" bills.

The big jackpot insignia, worth $115 last week went begging.

Misfortune of last week's subscribers however means the added good fortune of this week's lucky winner, for the value of the jackpot insignia has just now soared to $120.

As usual, ten $1 insignia are also printed on ads in ten other copies of the Record.

Any subscriber, whose name appears on our records as having paid in advance, or on his carrier boy's route book as a paying customer, is eligible to claim "Confederate" bills. All employes or carriers of the newspaper and members of their families are excepted.

"Confederate" money is good as gold with any merchant advertising in the current issue of the Record, and may be spent with him.

Any paid subscriber finding a lucky insignia in his copy of the Record, may exchange the newspaper for "Confederate" money at The Hilltop Record office, 2465 W. Broad-st before Saturday noon.

Heart Fund Movie On View Tonight

The Franklin County Heart Fund plays a direct part in the forthcoming TV film, "Hemo, the Magnificent." Television rights of the research film, "Action of the Human Heart Valves," produced from Heart Association funds, was purchased by Frank Capra for use in this animated spectacular.

"Hemo, the Magnificent" may be seen locally at 9 tonight, Wednesday Mar. 20, over WBNS TV. Produced for the Bell System Science Series, "Hemo" gives visual demonstrations to the workings of the human heart and circulatory system by using cartoon characters, and "live" actors, as well as unique microscope and X-ray movies.

Mrs. Jerry Spears, 2999 Fremont-av, was city chairman for the 1957 "Heart Sunday" drive, held Feb. 24. Mrs. Robert Chrisman, of 85 S. Roys-av, one of many enthusiastic West Side women workers in the recent Heart Fund drive, served as chairman for the West-City solicitations. Other area officers were Mrs. Felix Wheeler, 455 Cherry-dr; Mrs. Russell Alban, 2749 Elliott-av; Mrs. Edward Alban, 272 S. Ogden-av; Mrs. Keith Brenot, 668 Richardson-av, and Mrs. Hugh Fletcher, 279 S. Brinker-av, vice-chairman.

"Action of the Human Heart Valves," a part of which was use in "Hemo," was made possible by a Central Ohio Heart Association grant to Ohio State University on Mar. 19, 1955.

A Mighty Sweet Jug To Tap!

For years people have been practicing golf for the fun of it. But now it looks as if golfing is going to "pay off." George's Driving Range, 5960 W. Broad-st, has hung a glass jug on a pole 125 yards from the start of the range. Break that jug with a "sliced" ball and you will receive $100 worth of free merchandise—anything the store sells—from Seiler's Department Store, 5400 W Broad-st. It's a real challenge for amateur golfers and you can test your skill with other enthusiasts. "Nothing to lose and everything to gain." This offer is good throughout the driving range season. The range is open from 9 a. m. to 1 a.m.

CREMATION MEMORIALIZATION
... the choice of thoughtful families
Some things have natural appeal for enlightened, forward looking people. Cremation memorialization is a good example.
Here is the reverent, modern service that duplicates the processes of Nature, accomplishing in two or three hours exactly what Nature alone requires decades to complete. The resulting cremation memorial is placed within the niches of our Columbarium in an atmosphere of light and warmth. Here it is protected from the ravages of time and weather through the years to come.
Cremation memorials are available in a wide range of appointments and prices. They usually cost no more than the complete cost of a grave, and may be had for materially less.
You may obtain complete information by writing or telephoning us for the booklet, "The Way of Nature". No cost or obligation, of course.

In Passing

By Esther Weakley

SHAMROCK

Dear lowly shamrock, growing
In Ireland's grassy ways,
The old, old winds are blowing
Your tale of ancient days
'Round chapels, roofless; falling,
Grim in their gray despair;
Through glens where echoes calling
Drift through the twilight air;
Blowing where steeples soaring
Into the tender blue
Repeat the tale, adoring
The God the good Saint knew.
To somber Druids preaching
The shamrock's leaves he showed—
Apt symbol, subtly teaching
In glen and shadowy wood,
Of Three in One uniting,
Joined, yet each separate,
The Ageless Mystery lighting,
Godhead Illuminate.

Vignette—She had never seen a real live orchid, but she always thought they must be real pretty. After her husband died she had worked very hard to feed, clothe and educate their six children. After the children were grown and on their own she kept on working hard so she wouldn't be a burden to them. Last week she died. If she could have seen the orchid somebody pinned to her good "church dress," she would have been that proud!

Quote—The man who lives beyond his means should start acting his wage . . . A bore is a person who, when you ask him how he is, tells you . . . How not to grow old: Always drive fast out of alleys; demand half the road—the middle half—insist on your rights; never look behind when you back up—there's never anything back there; always manage to splash pedestrians when it's raining. Dry-cleaners will erect a monument to your memory; always lock your brakes when skidding. It makes the job more artistic. Often you can turn clear around; always race with locomotives to the crossing. Engineers like it—it breaks the monotony of their jobs; always drive as fast as you can on wet pavements for a short life and a merry one . . . Sonic booms are overrated. Now you take Job—it has been stated that he was a patient creature. But he never sat through a double feature! Unquote.

PREPARING THE SEEDBED

St. Patrick's Day signals the start of the gardening season for many "old timers" a gardening. Many of them will try to get their first planting of peas in the ground by that time if the weather permits, although it would be safer to wait until about Apr. 1.

The methods you follow in preparing the seedbed of your garden can well determine the condition of the soil throughout the growing season. Two things are important in getting an ideal condition for plants to grow—airation and good water drainage. Roots of plants need a certain amount of air around them, and while they need moisture, an excess of water standing in the ground will damage them. The ideal seedbed is one which has been worked as little as possible to provide a satisfactory place to grow seeds, and it is not necessary to break up all the small clods on the surface of the soil. In general, the size of the soil particles should be roughly about the same size as the seeds to be planted. Therefore, the smaller the seed, the more the soil should be worked.

Spring plowing or spading should be done when the moisture content of the soil is such that it "shatters" when turned. When turned too wet, heavy soils will become hard when they dry and will not produce well for the entire season. A good test can be given by taking a handful of the soil and squeezing it. If the soil can be pressed into a ball the plowing or spading should be delayed.

When the moisture content is right the soil will crumble freely. Such soil will require a minimum amount of working. Usually a good raking is all that will be necessary. If the soil requires several operations to prepare it, it will be better to wait and work it on the "dry" side rather than when it is wet. A loose sandy soil may require firming or settling during preparation.

Straight rows are the mark of a good gardener. Some folks will pass off their crooked rows with the remark that, "you can get more in a crooked row." This may be true, but since we will be working in the garden from time to time, cultivating and such, crooked rows will not be much of an asset.

To obtain straight rows is an easy matter if you use two stakes and enough twine to run the full length of the garden. Measure the distance desired between rows and drive a stake at this distance at each end of the row. Stretch twine between the stakes as a guide in furrowing out the rows.

Keep in mind that in gardening, as in life, it's best to "play it straight."

Here's a tip for the early gardener. When planting an early garden you'll have better success if you treat your seeds with a seed-treating fungicide. It will keep many of the seeds from rotting in the cold wet soil before they germinate, and start to grow. The material is available under a number of trade names at any good garden supply store, and a small packet will treat a large amount of seed.

Send in your questions if you have any. Send with your name and address to "THE GARDEN SPOT" J. R. Mills, Franklin County Agricultural Ext. Service, Room 317, Old Post Office, Columbus, Ohio.

Dear Son

By Joseph Martell

Chittlin' Switch
Sunday noon

Dear Jason:

I read in the "Daily Bugle" here the other day that they're putting up some new barracks on your base. Don't be backwards. Go right up to the Captain and tell him you'd like a nice room facing south. Don't let those yankees put their applications in before you.

Things here have been really popping last week. Scandal after scandal. You know how everyone thought the old maid librarian, Maude Flange, had such a nice figure for a woman of her age? Sort of bosomy? Well, I saw her at the Bon Ton Department store last week and she wasn't buying [illegible].

Personally, I wouldn't be caught dead in that department store. I bought a hat there and it was decorated with two live birds. I put it on my charge account and forgot all about paying the bill. Yesterday the hat flew back to the store.

Ned Poozer, the mailman, got married to that Sylvanis Scrud. She's really a-very lovely girl but it's a shame that her nose is so big. Ned also told me very confidentially that her nostrils are so large that every time he kisses her he feels like he's driving into a two-car garage.

I don't care what anyone says but I really believe Waldo Stronk isn't all there. He went to one of those Psychintrists (head shrinker) and asked him if it would be permissible for one to marry an octopus. Evidently the bone crusher told him the idea was ridiculous. Now Waldo is stuck with eight engagement rings.

The Judge was real lenient with your Uncle Lushmore. He was arrested for peddling whiskey but when he went to court and the Judge took one look at your Uncle he dismissed the charges. The Judge said it was obvious that if Lush possessed liquor he certainly could get rid of it without selling it. It's true that Unc may be a drinker but you've got to admit he's honest. He worked in a bathhouse for five years and never took a bath.

I also read in the Chittlin' Switch Daily Bugle that Abe Gooch who lives down the road from us has been in love with the same woman for twenty-five years. If his wife ever found out she'd kill him.

Write soon. Your loving,
MOM.

P.S. Next week your Paw and I are going to New Jersey to see your sister Clara-May. She's really doing fine up 'here. She writes us she has a lovely apartment, a mink coat, diamond bracelet and a convertible. She works in a restaurant as a waitress. The owner's name is Minsky. Will she be surprised to see us! She doesn't know we're coming. I'll write you all about it next week.

But Literally !

The brakes screeched in front of the house, but the motorist had not stopped in time. His head hanging low, he approached the door and knocked hesitantly.

"I ran over your cat just now," he reported to the lady who opened the door. And, seeing the shocked look on her face, he added quickly: "But I want to replace him."

The woman nodded briskly "Get busy," she said, "there's a mouse in my pantry."

Campfire Groups Give Wheelchair To State School

Campfire Girls of the West District celebrated their 47th birthday anniversary this week by "giving" instead of "getting."

Girls from Blue Birds, Camp Fire Girls and Horizon Clubs donated a new chrome wheel chair to Columbus State School to be used in one of the wards.

According to the chairman of the Western District, Mrs. James Matheny, the girls have decided to make this a yearly project, since the school can always use more chairs.

Membership in the Boys' club is open to all Hilltop lads between 15 and 19. Football talk will highlight the next meeting of the club when a pro game film will be shown and several Ohio State players will attend.

Brown On Top Service Team

FOOTBALL TROPHY—Herb Brown, former West High and Hilltop A.C. athlete, receives a trophy for competing with the championship football team of his area in North Africa from Captain Duberg (right), Commandant of Port Lyautey. Brown, son of Mr. and Mrs. Ernie Brown, 112 N. Warren-av, is also stationed with Jerry O'Rourke, another Hilltop lad who was part of a 17-boy group which Mayor Maynard Sensenbrenner swore into the Seabees last year.

Dance Climaxes Open House Program At Glenwood Center

The climaxing Stardust Whirl dance of Glenwood Recreation Center's Open House celebration last week capped three days of a successful program, according to those who attended.

A Variety Show was the highlight of Wednesday evening with about 350 persons attending and over 80 children participating in the show. Bill Mertz, WVKO disc jockey, was emcee.

Scott Morris, substituting for Bud Swisher Thursday night, called the Western Round-Up Square Dance, as cowboys and cowgirls danced around cacti and a corral.

The Junior Boys All-Stars upset the league champion Thunderbirds, 18-16, in an exhibition basketball game, Thursday. Butch Castle scored eight points for the All Stars, while Bill Dildine tallied 12 for the champs.

The intermediate girls All Stars handed the Basketeers a 22-11 defeat as Bev Friend hit the nets for 10 points to take high scoring honors. Bev Wenger was second with 8, making four out of four free throws.

Donna Berlo and Barbara Waldo scored six and five points, respectively for the Basketeers.

Guards, Karin Roivas, Mary Ellen Murphy, and Jayne Ricketts, did an outstanding job of keeping the Basketeers out of the scoring area.

The Basketeers defeated the Junior Girls All-Stars, 44-23, Friday in the highest scoring game in the junior girls division. Vicki Quinn and Mary Jo Blackburn hit the nets for 20 and 18 points, respectively, while Cindy McAdow, Norma Bias, and Joyce Berlo scored nine, eight, and six points, respectively, for the All-Stars.

The Jailhouse Five easily defeated the Intermediate Boys All-Stars, 47-29. Bob Dean's 15 points paced the Jailhouse Five attack. For the All-Stars, Bill Kern and Ed Fredendall scored five points apiece.

Bob DeWitt's 16 points led the Celtics to a hard-earned, 47-46 victory over the Senior Boys All-Stars. Bob Kreig collected 14 points for the champions. Dick Miller scored 20, and Mike McDonald, 11, to lead the All Stars.

N. J. Barack, superintendent of the Public Recreation Department, presented the champions of the intermediate, senior, and adult leagues with their awards.

Approximately 325 persons attended the Stardust Whirl Friday night, and danced to the music of Hank Carmon and his Orchestra. The dance room was decorated with various assortments of stars and shades of blue crepe paper.

Other features of the Open House were photo and craft displays of center activities. The photo display included black and white photographs and color slides of activities. Scrapbooks for the past two years were also on display.

Hillcrest Faces West Park For League Laurels

First-round winner Hillcrest Baptist faces second-round champ West Park Methodist Saturday at 1:30 p. m. in the championship game of the Hilltop YMCA Junior Church Basketball League at Glenwood Recreation Center. A Gra-Y play-off game will precede the championship contest.

West Park copped the second-round busting last Saturday downing Burgess Ave. EUB, 39-34. Bob Arthur led the Methodist attack with 16 points while Tom Arthur and Bob Stevens chalked up nine each. Gary Smith with 15 and Ed Fredendall with 12 kept Burgess in the game.

Burgess Ave. EUB, coached by Dick Trott, was voted the league sportsmanship trophy.

Leading scorers of the circuit ard: Gary Smith, Burgess EUB, 193; Dave Thomas, Glenwood Methodist, 190; Bob Dean, Westgate EUB, 190; Mike Richter, Hillcrest, 167; Ed Eredendall, Burgess EUB, 132; Bob Arthur, West Park Methodist, 132; Bob Stevens, West Park Methodist, 120; Jim Hastings, Hoge Memorial, 120; Steve Stavrides, Hillcrest, 119.

Hilliards Little League To Hold First Meeting

According to plans set by Scioto-Darby Recreation Department, the Little League Baseball organization will begin with a meeting of parents Mar. 28 at 8 p.m. in the high school auditorium.

The executive committee, headed jointly by Bob Deaman and Tom Cameron, urges that a full quota of parents attend the meeting, to be informed and express their views on this season's plans.

Bassel Johnson and Paul Ward, heads of the finahcial committee, have estimated the cost of this year's baseball needs will be approximately $1400. A fee of $3 will be charged each boy to purchase his league shirt and cap.

Bill O'Hara, Scioto-Darby recreation director, states that labor and equipment for conditioning diamonds will be needed. John Kramer, head of the equipment and ball diamond maintenance committee, states that he will need many volunteers. Persons interested may contact him at TR. 6-7572.

It is hoped that sufficient diamond areas will be available to permit all league teams to play on the same evenings. This will cut down the evening work for men who must assist every time playing is done.

Plans for the sale of Jai Stadium reserve tickets to benefit the league finances are being formulated. The game date set for these tickets will be Apr. 28.

After the parents' meeting Mar. 28, Jim Murdock and Virgil Hart, heads of the social committee, will announce plans for the annual "Kick-Off Parade." Letters of application for membership in the league teams will soon be sent each boy in the league age-groups through the schools.

This year's head coach, Chuck Weidner, will need a few more volunteers to fill coaching positions with various teams. He reports that he has had excellent response to last year's coaches, but, in the event of additional memberships on the teams, more coaches will be needed. Volunteers may contact Weidner personally, or O'Hara in his office at the Junior High school.

Basketeers Win Crown

Glenwood Recreation Center's Basketeers defeated Sunshine, 28-2, to win the junior girls Inter-Center Basketball Tournament last week at Sunshine Recreation Center.

Patty Rice led the Basketeers with eight points, followed by Vicki Quinn and Mary Jo Blackburn with six each. The Basketeers qualified for the finals by defeating Linden, 26-6.

The fast-moving Beatty team was too much for the Hilltop Hoppers as the latter lost a 22-15 decision in the final senior girls game. Kay Hudson accounted for 12 of the Hoppers' 15. They defeated Linden, 20-18, and Sunshine, 34-16, to qualify for the finals.

The Thunderbirds, champions of the junior boys' league, advanced to the quarter finals before bowing out of the annual tournament. The Thunderbirds blasted Sunshine in the opening game, 38-6, before loosing to the Whetstone team, 48-33.

In the intermediate boys' division, the Jailhouse Five bowed to 11th Avenue 53-42. In the senior boys' classification, the Celtics dropped their opening to a fast-moving Schiller five, 66-52.

Penny For Your Thoughts

Question: Do you think parents should be legally responsible for the misdeeds of their children?

Mrs. H. H. Clay, 170 S. Sylvan-av: "Yes I do. If children received better training at home, they wouldn't get into trouble. Maybe if parents were legally responsible, they would train their children better.

Mrs. John R. Harper, 796 Wiltshire-rd: "I certainly do. I think it's the parents' responsibility to teach the child to respect property. It's the parents' fault if the child does wrong because the child was not trained properly."

Mrs. Daniel Hewlett, 1987½ Fairmont-av: "Yes, I think so. Parents may take better care of their children if they know they're responsible."

George H. Kirk, 335 Demorest-rd: "Yes, I do. I think parents should take the responsibility and then penalize the child in their own way."

Mrs. Cecil J. Suver, 3495 Wicklow-rd: "To a certain extent. I think parents should be responsible if they know where the children are and what they are doing, and then the children get into trouble. However, if the child has not told his parents the truth about his whereabouts and gets into mischief, the parents should not be responsible."

Mrs. Donald Wylie, 312 Brinker-av: "Yes, it seems that parents should keep an eye on their children and supervise them more. With this sort of law, parents would be called to task for their children's misdoings and probably spend more time with them."

Build in Prairie Twp

A permit has been issued to Vernon and Grace Pairgin, 234 Fernhill-rd, to build a one room frame addition at Prairie Township. Harris Construction Co., 1712 Cleveland-av, is the contractor.

NOW KEL-MIN IS AVAILABLE FOR ECONOMICAL AND CONVENIENT USE

KEL-MIN IS NATURE'S MIRACLE OF THE SEA... yielding an amazing fertilizer and feed supplement.

As far back as 1952, Readers Digest printed an article about Kelp (Seaweed) being used successfully as a fertilizer and feed supplement for livestock and poultry.

Since that time, exhaustive comparisons have been made on seaweed treated and untreated soil. Endless variations have been carefully supervised using this wonder working product as a "free-choice" feed supplement for poultry, hogs, cattle, feeders—in fact all livestock and farm crops.

THE REPORTS ARE FANTASTIC—ALMOST UNBELIEVABLE!

But nature does perform miracles! Nature has a way of restoring that which belongs to itself. It is understandable that rains and floods wash away life producing soil which eventually ends in the sea. It is little wonder the sea now holds rich sources of soil life—waiting to be restored.

Now, ways have been found to gather seaweed, the wonder working product of nature, economically. KEL-MIN is a carefully selected variety of Kelp (Seaweed) cut fresh, dried and ground in quantity for economical and convenient use. Apply Kel-Min in the same manner as ordinary fertilizer and compare results on seed germination, economy, yield, quality, flavor, insect damage and soil moisture retention. Good Kel-Min free choice to all types of livestock and poultry and compare results on gain, breeding, health, flavor, quality, economy and longevity.

Get the complete story about KEL-MIN from your local Kel-Min dealer.

West Hill Scouting Trail

By Mrs. James W. Whalen

Leaders, co-leaders, and committee members of West Hill Neighborhood Girl Scouts, District 10, will meet at 9:30 a.m. Thursday, Mar. 21, at the Hilltop YMCA. Presiding will be Mrs. Robert Merrick, 172 S. Burgess-av, re-elected to serve as neighborhood chairman for 1957. Mrs. Bowman Turner, 135 N. Powell-av, is secretary-elect.

Mrs. Harry Richter, 306 S. Brinker-av, will serve as Girl Scout cookie chairman for this area this year and will be in charge of the cookie cupboard. Her telephone number is BR. 9-1779.

The annual Lazarus birthday party for Scouts will be held Saturday, Mar. 23, at the Veterans Memorial Auditorium. All Scouts are being asked to dress simply, if they do not have a uniform.

Of interest to the members of our local Scout troops will be the arrival of the Shrine Circus, 4 to 6 p.m., Apr. 1, 2, 4 and 5, at the Fairgrounds Coliseum. Special price — children 60c and adults $1.25.

How would you like to own a small piece of the Juliette Low home in Savannah, Georgia? You can feel as though you do if you give to the Juliette Low Birthday Fund. (This is not to be confused with the Juliette Low World Friendship Fund to which the Girl Scouts contribute.) The Juliette Low home is reportedly a lovely, tangible evidence of a proud heritage in which each of us can own a share. Girl Scout adults are being asked for a small donation so that restoration can be completed and a fund established for the permanent maintenance of the birthplace of Scouting in our country. During March donation cards will be distributed through the neighborhood meeting.

Thirty-one friendship kits were assembled by the troops in this area for the stricken families in the flooded areas of West Virginia and Kentucky. Mrs. Merrick was in charge of the delivery of these kits. This is another example of our neighborhood's contribution to world friendship.

Mrs. Wilbert Berlo, 88 S. Roys-av, enrolled in the nature-consultant course which began Monday, Mar. 11, at Blacklick.

Camping registrations for day camp must be in the central Scout office no later than Apr. 18. The full fee must accompany the registration. Registration for Ken-Jockety must be in the central Scouting office on Apr. 1 with a five-dollar deposit. Ken-Jockety is a two-week camp with the total cost for this period being $38.

Rainy days can be fun for tots if they have things to string. They might use buttons, spools, macaroni, and straws cut in short lengths to make pretty necklaces.

Rita Elliott Is Saturday Bride

Mrs. Lewis David Stethem
—J. Curtis Allen photo

The altar of Glenwood Methodist Church was decorated with emerald trees, vases of white snapdragons and pompons and four pairs of traditional seven-branch candelabra for the wedding of Miss Rita Jane Elliott and Mr. Lewis David Stethem on Mar. 16. Dr. Joseph B. Shellhaas read the marriage service at 7:30 p.m.

Escorted to the altar by her father, the bride is the daughter of Mr. and Mrs. Harold S. Elliott, 3049 Leeds-rd. The bridegroom's parents are Mr. and Mrs. Thurman D. Stethem, 606 S. Westgate-av.

The bridal gown of silk Cupioni over bridal tafeta and re-embroidered Alencon lace with sequins and pearls, was designed with an elongated basque bodice and a lace sabrina neckline. Matching gauntlets were worn with brief, tufted sleeves. The hooped skirt featured a hip yoke that formed an apron effect at the top of the chapel train.

Her fingertip veil of imported French illusion fell from a crown of sequins and pearls and she carried a prayer book mounted with lilies of the valley and a white orchid.

Miss Carol Elliott served as maid of honor for her sister, Mrs. Robert Cochran, Mrs. Edward Weisheimer, Mrs. James Powers as bridesmatrons and Miss Dolores Renko as bridesmaid.

Attendants were dressed identically in tile blue crystallette over taffeta. Empire bodices were topped with matching lace yokes and folds of crystallette with front bows. Full, hooped skirts were waltz length and each carried a shower arrangement of daffodils.

Mr. Robert Sheldon served as best man and guests were seated by Mr. Robert Cochran, Mr. Paul Bucy, Mrs. Gene Noggle and Mr. Kenneth Evans. Larry Elliott, brother of the bride, served as junior usher.

Mrs. Elliott chose for her daughter's wedding, a gown of frosted blue silk peau de soie with matching accessories and a pink cymbidium corsage. The mother of the bridegroom wore mink brown taffeta with matching accessories and a brown cymbidium corsage.

Hostesses for the reception held at the church following the ceremony were Mrs. Frank E. Beatty, Mrs. John Sammet, Mrs. Suzanne Redman, Mrs. Fred Laderer, Mrs. Thomas Metcalf and Miss Suzanne Richards.

After a short wedding trip the couple will be at home at 242 N. Warren-av.

The new Mrs. Stethem was graduated from West High School and will be a June graduate of Ohio State University. Her husband was also graduated from West High School and from Ohio State University. He is associated with Huber Construction Co.

Newspaperwomen Are Guests At New Governor's Mansion

By Betty Daft

It was my pleasure to accompany four other representatives of Hartley Newspapers to the tea and reception held Saturday afternoon at the Governor's mansion. Mrs. C. Carlton Hartley, wife of the publisher; Mrs. L. G. Mansfield, wife of the general manager; Mrs. Jean Sterling, staff member; Mrs. Peg Warren, columnist, and I were among the several hundred women of the press and newspapermen's wives who attended.

We were thrilled to find Mrs. C. William ONeill as friendly and charming as we had expected and even more attractive than her photographs picture her to be.

The mansion reflects the gracious hospitality of the state's first family. Spacious, beautifully decorated rooms, dignified and lovely but never ostentatious, have all the warmth of a well-loved home.

Mrs. Robert Leach, one of the many official hostesses of the day, conducted our party on a tour of the mansion. Most of the furniture was part of the house's original furnishings. The pieces were all refinished and the new pieces carefully chosen to harmonize with their rich, beauty. Comparatively little furniture from the old mansion was moved.

Original beauty of the stately house has been carefully preserved. Carving in the oak panelled walls of the first floor rooms has been accented by repeating the design in the scroll border pattern of turquoise carpeting.

Shades of powder blue with touches of Windsor rose and lavender are used in the drawing room and music room. Blue is also used in the ceiling and drapes of the panelled dining room. The completely new and ultra-modern kitchen is a model of gleaming efficiency.

A favorite room with the family is the garden room overlooking the formal gardens at the back of the house. Walls are of stone and floors covered with rush squares. Wrought iron furniture, many live plants and decor of beige, jade green and turquoise add warmth to the room.

An impressive open stairway leads from the stately center hall to the second floor. Nine upstairs rooms include studies of Gov. and Mrs. O'Neill, two guest rooms, family living room, three family bedrooms and their private kitchen. Each bedroom has an adjoining bath.

Nine rooms on the third floor include two more guest rooms, servants' quarters and several baths.

Lions Auxiliary Entertains, Assists Blind

Hilltop Lions Auxiliary will entertain the blind of Franklin County at Monett House Mar. 24. However, in contrast to Sunday's formal entertainment the Lady Lions entertain the blind informally all year round.

One life made brighter last year was that of a young 27-year-old woman, living at the Franklin County Home, who normally got away once or twice a year.

The blind committee made it possible for her to go shopping, joy-riding in the country, lunching out, to enjoy a new permanent and, most of all, to share the companionship of other young women of her age.

They have visited with many other patients at the County home. Two elderly gentlemen, blind, were remembered with gifts at Christmas time. The auxiliary also provides these people with needed toilet articles and tries to visit with them as often as possible.

Three blind families were made happy at Christmas time. One family has six children and the father is ill with multiple sclerosis. Lions Auxiliary provided gifts of clothing, toys food and a cash donation.

This mother had lost herself in the care of her family and Mrs. Edward Schulze and Mrs. Alan Dailey provided her with a change of pace. They took her to lunch and on a shopping excursion to buy her frist new dress in many years.

The auxiliary is keeping in close contact with this family as they will need their helping hand for some time to come.

Another family has three children and again, they were provided with the same services. In each instance, the blind committee visits with the family and determines the wants and needs and acts accordingly.

The auxiliary visited Mr. and Mrs. John Valachovic soon after the arrival of a small son, John Michael. Each auxiliary member donated as many of her own baby items as possible. They provided all the lotions, oils, diaper bag and sterilizer for the baby.

Mrs. Valachovic also received a three month diaper service, a Christmas food basket and cash donation.

A helping hand is offered many Columbus blind families by members of the Hilltop Lions Auxiliary. Mrs. Alan Dailey of the auxiliary is pictured above with young John Michael Valachovic, and, standing, Mr. and Mrs. John Valachovic.
Chuck Toth Photo

In addition to personal contact work, the auxiliary provides better sidewalk facilities for the blind at Monett House.

The Mar. 24 project will be co-chairmaned by Mrs. Edward Tonti and Mrs. Harry Haney. A half-hour musical program will be followed by dinner and fellowship

Bible Answers
I Peter 3:15 ". . . be ready always to give an answer . . ."

WHY DOES THE CHURCH OF CHRIST OBSERVE THE LORD'S SUPPER EVERY LORD'S DAY? The Church of Christ does things just as they were done in New Testament times. When Jesus instituted the Lord's supper in Matthew 26:26-30, he did not state when it was to be observed. His only statement was that he would drink it new with them in His Father's kingdom. This kingdom or church came into existence in 33 A.D., the account of this being given in Acts 2. After this time, the kingdom and/or church is spoken of as being in existence. In Acts 20:7, we are given divine example for the time the early church met to partake of the Lord's supper. "And upon the first day of the week, when the disciples came together to break bread, Paul preached unto them, ready to depart on the morrow; and continued his speech until midnight." We know that this could not have been a meeting for a common meal, for Paul reproves such action in I Corinthians 11:20-22. This was the meeting of the disciples to observe the solemn feast in memory of Christ's death, burial and resurrection and was observed each Lord's day. That was their primary purpose for meeting. There is no record of a monthly, quarterly or semi-annual observance of this feast. Thus, in keeping with the pattern set forth in the scriptures, the Church of the Lord Jesus Christ observes the Lord's supper upon the first day of the week whenever there is a first day.

Up in The Air This Week

This week's column is being written aboard a TWA plane heading west from New York returning from a four day visit to the big city where we attended the spring meeting of the National Editorial Association.

What's new from the convention?

Well, what's new from any convention? Not much. Like most of them we found it provided an opportunity to compare notes with other publishers.

And now, back at the old stand . . . with an even firmer conviction that "grass roots" journalism has a most important place in the life of Americans and happy we are for the opportunity to perform at our job in this section of the country.

Highlight of the trip was to be able to see Hilltopper Susan Johnson in "Most Happy Fella." The role suits her to a T and it makes you proud to know she is a product of Hilltop USA.

Following the Thursday evening performance and after a visit to her dressing room back stage we talked over old times on the Hilltop along with her husband, TV actor Robert Pastane, this at the Blue Angel.

Another pleasant high spot was a visit with the Willard Scotts, he being an OSU grad and now mayor of Scarsdale, and there to meet the Dick Darrows, they being former Hilltoppers while Dick was a Citizen writer.

In New York Moss and Mildred Williams had adjoining rooms in the Commodore Hotel. While the trip for them was something of a vacation they took occasion to have a big Friday night party of some 19 men who were aboard the USS Independence during the last war. The Williams remained in the big city and are scheduled to return tomorrow after Mose completes his shopping for rare old antiques!

Notes Around Home: This week marks the start of the third year for our Rural-Urban News . . . Highland Avenue Friends' Rev. Leonard Wines had top billing in the church "This Is Your Life" program this past week . . . Got your license tags yet? They are on sale of evenings this week by the Hilltop Kiwanis Club at Westgate Electric, 2685 W. Broad-st . . . Mr. and Mrs. Glenn Hamilton have moved into their new home at 4741 Hayden Falls-blvd, after living 35 years at 2304½ Sullivant av . . . Ted Stethem of Stethem Builders will start construction of a $40,000 home at 4040 Kioka-av, in Upper Arlington for Mr. and Mrs. Jack Hostetter, 706 Joyful-av . . . Betty and Arthur Kimes, 246 Maple-dr and daughter Nona Kimes Rex of Detroit will return this week from a Miami vacation . . . Betty was recently injured in an accident at Lincoln Village.

Local Adults To Get Free Chest X-Rays

Hilltoppers and Westsiders will be among the first to be served by the Christmas Seal X-ray cruiser as the Tuberculosis Society sets up its spring programs for the public.

On Apr. 1, free chest X-rays will be provided from 2 to 8 p. m. at the Kroger parking lot at 886 W. Broad-st. Fourteen Kroger Co. employees will be served at this time but the cruiser will also accomodate all adults over 18.

Apr. 2, the Christmas Seal X-ray cruiser moves to the Kroger store at 2776 Sullivant-av to X-ray personnel and the general public. Adults will be accomodated from 2 to 8 p. m.

Apr. 3, free chest checks will be provided 45 Kroger employees at 3412 North-blvd, Great Western shopping center, and the public will also be served. Time schedule is 2 to 9 p. m.

One West Side industry is also scheduled for Apr.3. It is Joyce Inc., 627 W. Mound-st, whose 320 employees will be served under the direction of Jerry Pease, plant manager. All X-rays are free, paid for through annual sale of Christmas seals.

WEST STUDENTS LEARN . . .

'Life's Work' Is Serious Business

Major General Kenneth Cooper emphasizes a point concerning life in the military service to West High seniors. General Cooper is commanding general of the 37th division and assistant adjutant general of the state of Ohio.

"Pros and cons" of nursing were presented by Mrs. Emi Osi of the Columbus Public Health Nursing Agency, during a career session at West High School Friday.

Career Day, an annual event designed to assist senior students in their choice of careers by providing them with expert vocational guidance, was held at West High School Friday. A committee of Hilltop Kiwanis Club members with James Henery, chairman, and vocational guidance counselors of West High co-operated in planning the event.

Thirty-eight professions were represented by speakers. Each conducted a separate counseling session with an informative lecture and a question and answer period.

Homer R. Cotterman, professor of education at Capital University gave the keynote address during senior high assembly in the auditorium. Each student then attended the conference of his choice.

'Tapping' Big Event At West

West High seniors did an "about-face" Tuesday morning when all were hoping they'd get tapped hard by stick - toting teachers!

Occasion was the traditional tapping ceremony at West when outstanding seniors are literally "tapped" for membership in the Otto H. Magly chapter of the National Honor Society.

The nominees are selected by faculty vote on the basis of scholastic record, character, leadership and service. The sole requirement is a grade point average of 3.5 or above from ninth grade until graduation.

Winners are unaware of their selection until the ceremonious "tap" relays their victory.

Great Western 'Crazy Daze' Features Ridiculous Prices

Four-cent coffee; a 45-cent coffee cake for nine cents and a chocolate sundae for 15 cents are samplings of the gustatorial offerings during the Great Western Shoppers' Mart "Crazy Daze" being held this Thursday, Friday and Saturday.

But the values don't stop at appetite-teasers. Wearing apparel, shoes, hosiery and household items are also being placed on sale during "Crazy Daze" at what is termed by Great Western Merchants as "fantastically ridiculous" prices. All are featured on pages 4 and 5 of this newspaper.

For instance, there are argyle sox for men at 17 cents a pair, an electric iron for $2.66, and for the gals who need spring and summer skirts, they can get two for $3. Children's pajamas are "sawed in two" to 66 cents a pair.

For those persons planning their annual spring cleanup, there's a nationally known mop with wringer for $1.19, which regularly sells for $3.29. To add scenic beauty to home exteriors, three-foot Cape Cod fence sections have been reduced to 15 cents—less than half their usual cost.

There are also many other "Crazy Daze" values too numerous to mention. However, it's first come, first served, as some merchandise is in limited quantities.

Clair Barnard Is Director Of Shrine Band

Clair V. Barnard

Clair V. Barnard, West High School band director, has accepted an offer to become director of the 125-piece Aladdin Shrine Band. Barnard, 36, is one of the youngest men in the country to direct a Shrine band.

He accepted the offer with the assurance that the new demands would not interfere with his duties at West High.

The Shrine Band post was vacated when Carl Robinson, director for the past nine years, resigned. He will continue to play in the band.

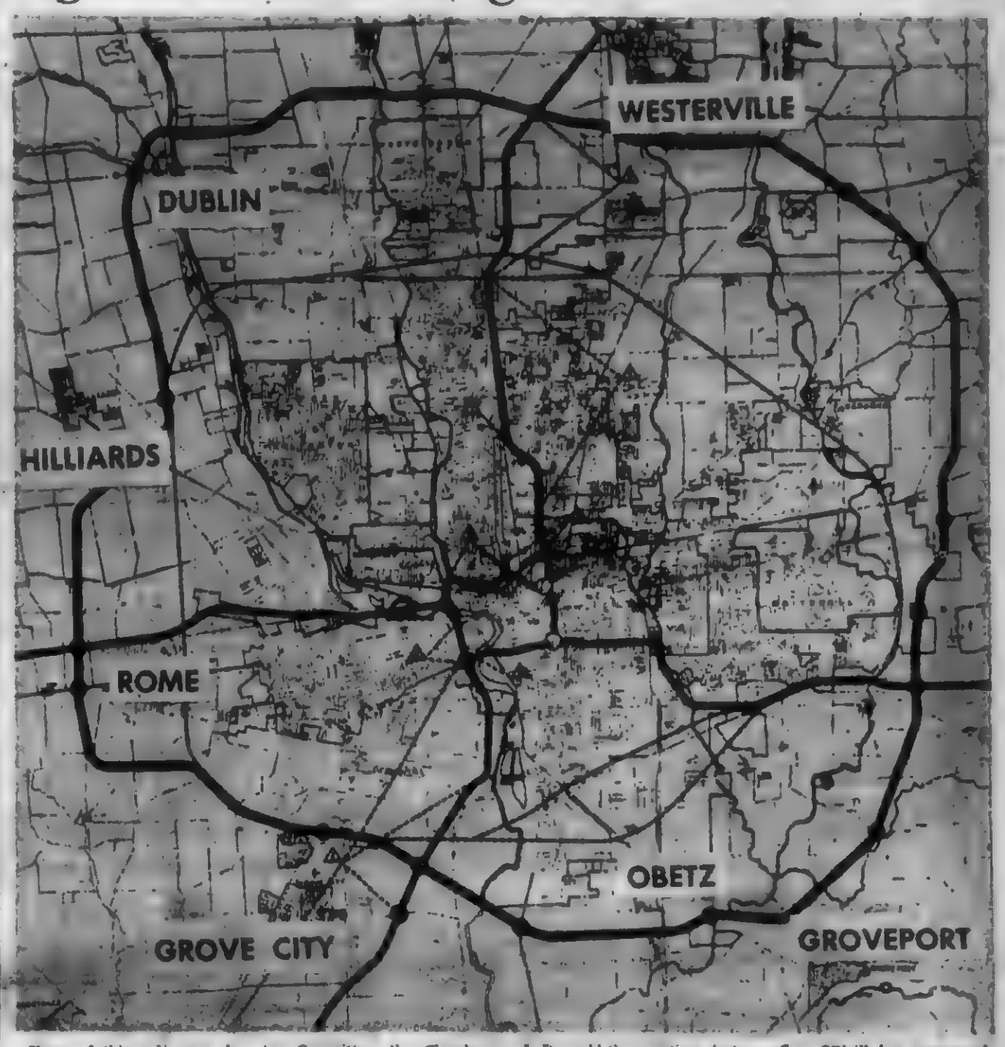
Barnard assumed his duties at West High School eight years ago. A graduate of Capital University, he received his master's degree in music at Ohio State University last summer. He was associated with the Army Band during his four years' service during World War II.

Barnard is also co-owner of the Tommy Dale Dance Band.

His wife, Phyllis, is secretary at John Burroughs School and the couple has two children, Suzanne and Stephen. The family lives at 2320 Fremont-st.

Five 'YM' Taffy Sales Boys Win Cleveland Trip

Hilltop YMCA boys recently proved their "sales superiority" over the weaker sex by winning all five of the grand prize "trips to Cleveland."



Top salesmen in the Hilltop 'Y' world service taffy sale are: David Line, John Neibler, Jim Von Ins, Deward Watts and Don [redacted].

The junior travelers will leave Columbus at 8 a.m. Saturday on Lake Central Airlines for Cleveland. Their day will include a swim at the Central YMCA, lunch, Cinerama, a tour of the town and dinner. The boys will return on a night flight via the American Airlines.

Accompanying the boys will be Bill Jones, assistant leader at the Hilltop 'Y' and Robert Schmidt, 'Y' secretary.

The winners sold from 252 to 351 pounds of taffy apiece of the 4,400 pounds sold throughout the Hilltop. Participating in the sale were 125 boys and girls. Proceeds will go to YMCA World Service.

Big Area Road Program Is Announced

Shape of things to come is outlined in the above map of the tentative outerbelt highway system around Columbus. This plan was presented to Gov. William O'Neill Tuesday morning by the Columbus Service Department with the plan being endorsed by the Metropolitan Committee, the Chamber of Commerce and the Committee for Development of Greater Columbus.

The large outside line shows the tentative route to come across the river just north of Dublin, proceeding east just beyond Hilliards, and beyond Rome just west of Dougherty-rd. It would then continue just north of Urbancrest, east through the edge of Reese and just south of Obetz, proceeding north between Whitehall and Reynoldsburg, south of Westerville and north of Worthington. An alternate route being discussed is shown in the light dotted line closer to Columbus.

Gov. O'Neill has announced three phases of the program costing $38 millions which include the segment of the northeast expressway from Maynard-av north to the city line, the Third-st viaduct and Goodale-st from Fourth to Sandusky-st. Part of this program will get underway this year.

One Copy Of This Week's Record Worth $125 Today

"For want of a nail, the shoe was lost; for want of a shoe, the horse was lost . . ." Remember the quotation?

For want of an observing eye, $120 in "Confederate" money was lost to some Hilltop Record subscriber last week. The big jackpot insignia and nine $1 insignia went begging.

Only one subscriber, Carl Shroyer of 804 S. Hague-av, spotted an insignia in his copy of last week's issue. He exchanged his newspaper for a crisp, new "Confederate" bill.

Misfortune of last week's subscribers, however, means the added good fortune of today's winner because the jackpot is now valued at $125. The usual 10 $1 insignia are also imprinted by hand on 10 other copies of the newspaper.

Any merchant advertising in the current issue of the Record will accept "Confederate" money at face value for any merchandise on his shelves.

All subscribers, whose names appear on our records as having paid in advance or on their carrier boys route book as paying customers are eligible to collect "Confederate" bills. Employes or carriers of the newspaper and members of their families are excepted.

Lucky newspapers containing "Confederate" money insignia may be redeemed at The Hilltop Record office, 2465 W. Broad-st before Saturday noon.

Look For This

Any subscriber who finds this insignia stamped on an ad in this copy of this newspaper should take it to the office of The Hilltop Record before Saturday at noon. It will be redeemed for $125 in Confederate currency which can be used to make purchases at any Hilltop business establishment advertising in this issue.

This insignia has a value of $1. Follow the same procedure for "cashing in" as outlined above.

No employe or carrier of The Hilltop Record nor any member of his family, is eligible.

In Passing

By Esther Weakley

LIFE

The room began to spin
And my heart to leap for joy
For I had heard the magic words:
"It's a bouncing baby boy."
I faintly heard a whisper:
"Here is a brand new Dad.
He has a case of son-itis
And he has it mighty bad."
It seems such a little while
Since I held him in my arms—
My son, the finest, and I was
A captive of his baby charms.

Time . . . Yesterday I watched a man—
A soldier—board an Army bus.
Each night I'll pray "Dear God,
Send him safely home to us."

Marie Chappelear Stemm.

Mrs. Stemm lives at 55 N. Oakley-av. My thanks to her for the poem and for her kind words about this column.

She is nine years old today. Her name is Linda Jean. When a lady is nine years old, things she had scarcely noticed when she was "little," suddenly become important — like pretty clothes and boys and reading good books and permanents and taking part in grown-up talk. Now she will leave her dolls at home when she goes visiting weekends. She will want to learn more about so many things—sunsets and stars and Abraham Lincoln and Florence Nightingale and old paintings and why we have had wars. And in the background there'll be love and security, shaped like Daddy and Mother and baby brother and grandparents. The world is rather wonderful when you're nine. Being nine is the sunny space between the ages.

Mail—From Mrs. Althea Jones AAnderson, 3014 Olive-st, Columbus: After being stricken with a light case of polio which caused embarrassing falls at times, my little Irish Godfather who had the heart of a pixie, the humor of a leprechaun and the soul of a saint, cheered me on with bits of philosophy which I have combined into a poem. I thought they might help another:

LISTEN, PLEASE!
If ye jest can see the flowers that bloom,
If ye jest can heed the birds that sing, and keep this world in tune,
If ye jest can whiff the sweet springtime air that blows,
If ye jest can speak the "Good Word" to all who "apest" your door goes,
If ye jest can run, walk without a limp, worry or care,
That look up and quietly whisper a bit of Thank You prayer.
For upon this earth, while we search for wealth, and happiness in jest gainin,
We don't realize these gifts alone, leave ye no room for complainin'.

Macpherson Family Has Led Globe-hopping Life Since 1950

DOLLS AND BABIES are all on the same schedule in the Macpherson household. While Mrs. Colin Macpherson, 591 Chestershire-rd, cares for four-month-old Janet, Shelagh (center) and Kate (right) follow suit with their own "make-believe" offspring. Natives of Aberdeen, Scotland, Dr. and Mrs. Macpherson arrived in Columbus in June, 1956, after five years in Capetown, South Africa. He is an assistant professor of pathology at University Hospital.

By Shirlee Monty

Dr. and Mrs. Colin Macpherson, 591 Chestershire-rd, have packed a lot of geography into seven short years of married life.

Their mailing addresses since 1950 read like a travelogue: Aberdeen, Scotland; Capetown, South Africa, 1950-55; London, England, 1955-56, and Columbus, Ohio, June, 1956.

Evacuated from Scotland in 1940 during the war, Dr. Macpherson entered Capetown Medical School in South Africa at 16 years of age. Seven years later, he returned to Aberdeen and met Margaret, whom he married two years later.

The threshhold over which Dr. Macpherson carried his wife of two weeks was the Atlantic Ocean. Home was a thatch-roofed cottage in Capetown, South Africa.

Mrs. Macpherson described their five years in Capetown, where her husband, a specialist in pathology, lectured at the Medical School.

"Even without TV," she laughed, "we always had lots to do. We had two oceans to swim in, mountains to climb, picnics and 'braaivleis,' an African barbeque."

Capetown is frequently called "Tavern of the Seas" because of its port location which brings Chinese, Malayans, Dutchmen, Germans and Frenchmen to its shores. "Consequently, they all bring their own 'foods' which gave us a lot of selection," she said.

A staple in their diet was corn, eaten as "samp" (like hominy) or "mealies" (like corn-on-cob). Fish was plentiful but "lacked the flavor of the northern fish," Mrs. Macpherson recalled.

Ostrich Egg On Menu

Mrs. Macpherson displayed a memento of their African diet, an ostrich egg about the size of a grapefruit. She explained that the ostrich egg is finer in texture and equivalent to 24 hen's eggs. An egg costs about 35 cents.

It takes a hammer and chisel to chip through the hard shell. The eggs are usually hard-boiled or holes are broken in both ends and the egg is scrambled.

The Macphersons had their fill of ostrich eggs one day in the country. "There we had no refrigeration," Mrs. Macpherson said, "and the eggs are good for only 12 hours. My husband and I had the equivalent of a dozen eggs apiece at one meal!"

Mrs. Macpherson explained that shopping is really "bargaining" in Africa — you pay what you think it's worth, not what they ask.

An embarrassing moment occurred in Columbus when Mrs. Macpherson impulsively began bargaining with the cleaners — about the price of the cleaning! However, she said she was more embarrassed when he agreed with her and offered to charge less.

Concerning the natives, the Macphersons saw a great deal of segregation. A great many were uneducated, uncivilized and heathen.

Paradoxically, many natives were Christianized, but retained their tribal customs and superstitions. Christian natives could be identified by their European dress while heathens retained their native dress and painted their faces.

Blonde Daughter Was Novelty

The natives in the reserves were quite fascinated with my daughter, Shelagh, who was born there," Mrs. Macpherson remarked. "When I went shopping they would crowd around the buggy and look at the blond hair and light skin in almost disbelief."

Another daughter, four-year-old Kate, was born in South Africa, and a third, Janet, was born in Columbus three months ago. Janet has a distinctive position in the family as the only American citizen.

Leaving South Africa in 1955, the Macphersons spent 14 months in London where Dr. Macpherson was engaged in medical research. An advertisement in a medical journal led them to Columbus in June, 1956, where Dr. Macpherson is presently an assistant professor of pathology at University Hospital.

Although South Africa sounds like the hottest spot on the planet, the Macphersons said that, in actuality, they found Columbus hotter and more uncomfortable than Capetown, due to the humidity.

However, Shelagh, with a five-year-old mind of her own, announced "Well, I like it better here because it's too hot for me in Africa!"

Goal Doubled In Nephrosis Walk, Mar. 20

The Mar. 20 Nephrosis Walk, first ever held, apparently started out on the right foot!

The county goal of $10,000 was doubled and all areas tallied generous and goal-breaking figures. Proceeds will be used primarily for research on the childhood disease and for the purchase of drugs for nephrotic children in Central Ohio. Fifteen per cent of the proceeds will go to the national Nephrosis Foundation.

Letter To The Editor

To the Editor:

Your columns have already reported that I and my colleagues on Capitol Hill are receiving unparalleled protests from the public against the size of the federal budget. Many of the letters coming to me urged that I vote to cut foreign spending and to reduce the Federal Government's intrusion into matters better left to the states and local governments. I have always so voted, but for the most part, have been on the losing side.

For many years vocal and effective segments of the public have been demanding more and more federal services. The Congress has adopted many of the requested programs, and the President's budget merely represents his estimate of the cost of carrying out the programs during the next fiscal year. What gives rise to so much protest now is that suddenly there is general public recognition that all of these programs have to be paid for through continued high taxes.

The cost of operating the Federal Government can come down significantly only if its programs are cut significantly. It would be helpful to me to know which of the programs Ohioans would like to see reduced or dispensed with. The difficulty, of course, is that even if Ohioans agree among themselves, the rest of the country may still want the programs continued.

In reviewing this whole situation, I have tried to think how I and my constituents can do something that turns out to be more than talk.

As viewed here in Washington, budget figures on paper look very much alike, whether they are sound or unsound. The best place to determine whether such figures are valid and proper is at the point where the spending takes place. The very vastness of the federal machine tends to obscure bad estimates and to perpetuate wasteful practices. Accordingly, through your columns, I want to ask for the help of Ohioans who either work for the Federal Government or have knowledge of some of the ways in which it spends its tax monies. I would like such people to write to me and tell me the ways they know in which money can be saved.

In making this request I am not asking for examples of past waste, nor am I seeking to catch anybody either in bad judgment or wrongdoing. What I am seeking now is to find holes we can plug up. Here are some examples of the kinds of things I would like to know:

(1) To your knowledge, is some federal department or agency engaged in projects that are not needed? If the answer is "yes," is such work directed by a law or by some regulation?

(2) Do you know of any federal department or agency having large groups of employees with too little to do?

(3) Can you give concrete examples of unnecessary paper work, extravagant spending, inefficiency, or duplication of effort on the part of federal departments and agencies?

I hope that the answers I receive will be factual and directed to the matters herein mentioned. It would be most helpful if they could be in such form that I can have copies made, snip the writers' names off at the bottom, and then forward the information to appropriate committees and departmental officers.

Thank you for your help. My address is 124 Senate Office Building, Washington 25, D.C.

Sincerely,
John W. Bricker

Realtors Begin Observance Of Realtor Week

Columbus Board of Realtors began its observance here this week of Realtor Week joining hundreds of similar boards across the country during this same period in presenting to the public the high aims and obligations of realtors, Larry N. Wade, board president, announced today.

Wade explained that realtors are those real estate brokers who have taken on the duty of providing individual and community services beyond the call of ordinary commerce.

These obligations — immensely important to the persons dealing with and through realtors—arise from the realtor's membership in the Columbus Board and in the National Association of Real Estate Boards, he said. And only by membership in these bodies may a broker use the term realtor.

Wade added: "In joining the local and national realtor organizations, the incoming broker member pledges himself to act in accord with the realtor's strict code of ethics which is based upon the Golden Rule and embodies these words 'Whatsoever ye would that men should do unto you, even so do ye also unto them.'

"The standards of this code are higher than those set forth in state license laws, and the local board is empowered to see, to it that its members live up to its provisions. Those cited for violation of the code's terms face loss of membership."

Dear Son

By Joseph Martell

Chittlin' Switch
Monday Noon

Dear Jason:

Well, I always said good things come in pairs. I got your letter the other day telling me that you were advanced to the high rank of seaman in the morning mail and in the afternoon we heard that your brother, Twill, was being released from the State Reformatory six months ahead of schedule because of his good behavior." A mother couldn't ask for much more!

A young doctor just out of college started a practice in town but the folks don't think he learned too much in medical school. He was treating a fellow three weeks for yellow jaundice before he found out he was a chinaman.

Your nephew, Waldo, was sent home from school the other day with a note from his teacher saying that not only was he the dumbest kid in the class but also the meanest. He's the only child in the third grade that hates George Washington.

At Sunday meeting I noticed old Clara Sludge would bow her head each time the name of the Devil was mentioned. After the meeting I asked her what the purpose of this was and she told me that politeness costs nothing and one can never be sure!

Your friend, Hallworth Tooker, that you used to go to school with decided he wanted to go in the Navy as he figured it was better than working but he didn't pass the physical examination on account of his eyes. It seems his seeing eye dog has flat feet.

I received a letter the other day from your sister Bessie-May from Todd's Corners. It would be three years come next green-up since they moved. I really must go down and pay her a visit, soon and see if I can help out. Evidently one of their children must be a freak. She writes: "You'd never know little Willie: he grew another foot." Maybe they can get him in a circus or something.

Well, I guess it's time for me to put the supper on. We're having your favorite dish tonight, hedge hog stew and turnip greens.

Old Grandmaw Gooch from Loon Junction had to go to the doctor the other day as she was all black and blue and suffering from dizziness. She bought herself one of those washing machines that run by electricity and Saturday night she got into it to take a bath. She said that the first 20 minutes or so while she was in it the machine acted fine and it gently moved her from left to right and the water was nice and sudsy but all of a sudden something went wrong with the contraption and it picked up speed and spun her around for 10 minutes before the thing came to a stop. The man that installed the thing came over and told her next time to set the dial on "damp dry." She had it on "spin."

Your father was on one of those radio quiz shows the other day while he was in the city and he failed on the first question. The announcer asked him what a "drydock" was. "A thirsty physician" is not the right answer.

Guess I'll close now as it's time to slop the hawgs.

Your Loving MOM.

Farm Bureau Reps Visit Assembly

On Mar. 19, nearly 100 county Farm Bureau representatives from 20 Southwestern Ohio counties took time out to travel to Columbus for a legislative tour to the General Assembly sponsored by the Ohio Farm Bureau Federation.

Harold Schacht, Canal Winchester; Robert Goodrich, New Albany; and John Durban, Hilliards; were present from Franklin County.

They had the privilege of lunching with Representatives John J. Chester Jr., Archer E. Really Jr., Kline L. Roberts, Lytle G. Zuber, and Senator David E. Morgan. Main items of discussion at the luncheon were House Bills 104, 166, 167, 168, 220, and 238 which deal with Brucellosis control, personal property tax on government loan grain, milk marketing, ditch drainage, and water and sewer line construction.

After lunch the group visited the General Assembly sessions to see the legislature in action.

Get To The Point

"Darling," sighed the enraptured young man, "when I think that tomorrow is your birthday and when I think that a year ago I didn't even know you . . ."

"Sweetheart," murmured his darling, "don't let's talk about our past. Let's talk about my present."

THE WAY OF NATURE
The divine Law of Nature, which gives us sunshine, warmth, flowers and trees decrees that all creatures and things come into existence, flourish, grow, decline and perish, with the physical form returning to its original elements.
The enlightened, beautiful way of easing for departed ones is cremation which accomplishes in two or three hours what Nature alone requires decades to complete.
Cremation memorials preserve the memories of loved ones in an atmosphere of peace protected from the ravages of time and weather. They are in keeping with the highest religious tradition; available in a range of prices to suit every family.
For reliable information on cremation memorials write or telephone for the booklet, "The Way of Nature". No cost or obligation.

Martha Jane Candy Samples Given At Opening

How chocolates are made, including the hand-dipping operation, will be demonstrated Mar. 31 at an open house from 1-5 p.m at Martha Jane Candies, 603 W. Town-st.

According to Glen Bringardner, who has operated the company for the past 13 years, the hand-dipping of chocolates is becoming a lost art and Martha Jane Candies is one of the few candy makers still using this method.

"We think there is a big difference in the way chocolates are made," Bringardner said, "and to prove the point, we're going to give away free samples to everyone who attends our open house."

This is America's Heartland where, last year, Columbia Gas System delivered more natural gas to more people than ever before. This year Columbia expects to spend about $87 million on construction . . . to keep up with growing demand!

You Live in a Very Special Part of America!

You live in the Heartland of American industry and commerce—one of the most dynamic, fastest-growing regions in the nation.

What makes this territory so special?

One reason is that America's Heartland is "natural gas country". . . with millions of people working at good jobs because industry here makes such excellent use of this flexible, uniform, low-cost fuel.

Natural gas was first discovered in this region. The techniques of gas distribution were developed here. Many of the great Appalachian fields now serve as natural underground storage reservoirs . . . assuring a nearby supply of natural gas for winter use.

Families here use more natural gas per household than in any other section of the country. And every year industry in America's Heartland requires more of this clean, efficient fuel.

Yes, it's a progressive, growing region, and your gas company's ability to serve continues to grow with it! Remember: gas does it better, for less.

Junior Jet Badge Campaign Benefits Lucky Area Youth

School-age baseball fans of Columbus are among the luckiest in the nation.

By purchasing a Junior Jet Badge for 50 cents, the youthful diamond sport lovers are entitled to see the only penny-per-game baseball in the country.

The single restriction of the use of the badges, which go on sale Apr. 1, is that the youngster be accompanied by an adult. Badges are good for all games except Sundays, holidays and special occasions. The insignia will be on sale until Apr. 17.

Sale of the badges is being handled by the Boy Scouts of Central Ohio, the Boys' Club and members of both the Catholic Youth Organization and the Jewish Center. Proceeds from the sale go to the respective organizations.

The Junior Jet Badge program was started in 1955 when 9,000 emblems were sold. Last year, 18,000 badge holders saw an average of 70 games for 50 cents.

The Badge Sales Committee is headed by David A. Davis, chairman. Committee members are Father Richard F. Dodd, John Compteas, Robert May, Harry Goldberg, Meyer Rosenfeld, Harold Cooper, Hank Gowdy, Fred Le Veque and Roy Newell.

Theodore W. Kheel, labor arbiter: "Arbitration is no automatic business in which you drop in certain facts and get a result."

New Look In Spectacles, Plastic Prescription Lens

Plastics have long been popular for use in spectacles; sturdy frames of this material are both attractive and practically indestructible. After years of research, plastics are also proving to be a strong contender with glass for use in lenses.

Howard Optical Co. can supply prescription lenses made from thermosetting CR 39 (allyl diglycol carbonate). The new lenses can withstand impacts which will shatter case-hardened safety glass, and CR 39 is said to be 40 times more scratch resistant than methacrylate, the first clear plastic considered for lens use. In addition, spectacles employing Armorlite lenses weigh less than half as much as those with glass lenses of equal thickness.

They are the perfect choice for rough-playing youngsters and athletes. Never before have there been lenses which combine so much durability, lightness and eye-safety.

Avondale EUB Is Setting For Martin-Stoll Marriage Rites

MRS. GLENN A. STOLL

Miss Phyllis Ann Martin and Mr. Glenn A. Stoll repeated their marriage vows Jan. 26 in Avondale Evangelical United Brethren Church. Rev. Carl L. Wilson read the service at 8:30 p.m. before an altar decorated with candelabra and baskets of white gladioli.

Given in marriage by her father, the bride is the daughter of Mr. and Mrs. Johnnie J. Martin, 625 Larcomb-av. Her husband's parents are Mr. and Mrs. Guy E. Stoll, 1304½ W. Broad-st.

The floor-length gown of Chantilly lace and tulle was styled with a lace bodice, sabrina neckline trimmed with rosettes and long lace sleeves. Tiers of lace and tulle over satin fashioned the bouffant skirt.

A lace pillbox trimmed with sequins and pearls held her fingertip veil and she carried a purple-throated white orchid and white carnations on a prayer book.

Miss Wilda Martin, sister of the bride, served as maid of honor; Mrs. Gary Stoll as bridesmatron, and Miss Ruth Buckley, bridesmaid. They were gowned in ballerina-length frocks of lavender and orchid, respectively, in embroidered nylon over taffeta with matching accessories and Colonial bouquets of roses and mums.

Little Debbie Johnston, flower girl, wore white nylon with a tiered skirt and carried a basket of red rose petals.

The basque bodice featured a sabrina neckline and long sleeves that tapered to points over her hands. The bouffant skirt was underscored by an old-fashioned hoop and bands of lace outlined the apron effect which revealed the gathered tulle skirt beneath.

Her fingertip veil of imported French illusion was caught to a cap of lace trimmed with iridescents and pearls. She carried a cascade of roses and stephanotis.

Mrs. Richard Hutchison served as matron of honor. Other attendents were Miss Carole Price, Miss Linda Jones, sister of the bridegroom, Mrs. Roger Meyer and Mrs. Lawrence Gossett.

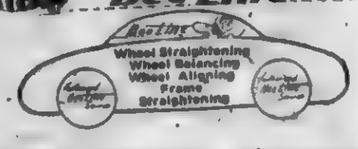
"Strength for These Days"

The Bible

For God hath not given us the spirit of fear; but of power, and of love, and of a sound mind.—(II Timothy 1,7.)



When we come to realize that our fears and anxieties cannot come from God but only from our lack of trust in Him and love of Him—that naught but good and power for good come from Him—then we will find His presence through Christ Jesus, and glory in new-found joy and strength.

Alfred M. Gruenther, General, U.S. Army, retired: "No nation, not even, the United States, can defend itself unaided."

SOMETHING NEW UNDER THE SUN
In response to the demand for a more comprehensive form of children's insurance, the Sun Life of Canada announces the new Junior Adjustable Assurance, a policy which:
1. Permits regular small payments which will be greatly to the child's advantage when he reaches 21.
2. Starts assurance coverage at the early ages when the premium is at minimum rates. Premium never increases.
3. Covers expenses incurred through death in childhood.
4. Is flexible, permits a wide choice of valuable options and a considerable increase in face value (actually to five times the original amount) at age 21, without medical examination.
5. Ensures protection should the child later become uninsurable.
Let me show you what this plan can do for your son.

Bible Answers

I Peter 3:15 ". . . be ready always to give an answer . . ."

DOES THE LORD APPROVE OF RELIGIOUS DIVISION? On the night that he was betrayed, our Savior prayed for the unity of those who should believe on Him. John 17:20,21: "Neither pray I for these alone, but for them also, which shall believe on me through their word; that they all may be one; as thou, Father, art in me, and I in thee, that they also may be one in us: that the world may believe that thou has sent me." That our Lord intended for this unity to be something that was visible is seen in that He stated: "that the world may believe that thou has sent me." Jesus prayed for visible unity. Paul had considerable to say concerning this subject. In I Corinthians 1:10-13 he said: "Now I beseech you, brethren, by the name of our Lord Jesus Christ, that ye all speak the same thing, and that there be no divisions among you; but that ye be perfectly joined together in the same mind and in the same judgment. For it hath been declared unto me of you, my brethren, by them which are of the house of Chloe that there are contentions among you. Now this I say, that every one of you saith, I am of Paul; and I of Apollos; and I of Cephas; and I of Christ. Is Christ divided? Was Paul crucified for you? or were ye baptized in the name of Paul?" Paul was reproving the divided condition of the church at Corinth. In I Corinthians 3:3, he shows that such a divided condition was sinful. It is just as sinful today. Our Lord does not approve of religious division. Next week we will answer a question pertaining to achieving unity.

Girl Scout Cookie Time Is Here Again!

Starting on Friday, Mar. 29 (after school hours) and continuing through Monday, Apr. 8, members of the community are asked to cooperate in this annual Girl Scout Cookie Sale.

There will be three types of cookies available this year for the same price of 40c per box, i.e., regular four-flavored sandwich creme, the ever-popular thin mint, and the new type being introduced this year – "Savannah," which is a peanut butter sandwich cookie.

Proceeds from this annual cookie sale will be used to balance the Girl Scout Budget. Each troop will earn 5c per box sold which will be used for their own troop programs.

Goal this year has been increased to 250,000 boxes due to the expansion of the Girl Scout program into three and one-half counties and increased enrollments.

Each girl is planning to sell twenty-five boxes, so when your "scouts" come to your door – cooperate and also treat your family to good cookies. Note to the thrifty – these cookies will keep perfectly in your freezer indefinitely, so buy for today and tomorrow, as well.

Police Rescue Wife Of Man Gone Berserk

Hilltop was the scene of a near tragedy early Tuesday morning when David J. Dupler, 55, of 222 Midland-av, went berserk, ran his son away and threatened to kill his wife, Mrs. Wilda Dupler, 49.

Police rescued Mrs. Dupler by using tear gas bombs and a "sickening" bomb after she had spent nearly three hours in a barricaded upstairs bedroom. Her husband had shot at her twice with a rifle.

About 1:30 a. m., Dupler ran his son, David F., out of the house. The son immediately raced to a telephone for help. Seven cruisers were dispatched to the scene.

Police urged Dupler to come out over a public address system. Lt. Tom Sawyer, leader of the rescue squad said he was given four or five opportunities to leave the house before the bombs were tossed through downstairs windows.

Mrs. Dupler was treated at Mt. Carmel Hospital and then released in care of her son.

Dupler was taken to City Prison and held for examination by a physician.

Neighbors, shocked by the near-tragedy, described the couple as highly respected in the neighborhood. Dupler was a lineforman for the Ohio Bell Telephone Co. For several years he had been in ill health.

Redick Threatens To Discontinue Garbage Service

Residents in the area west of Wheatland-av and north of Broad-st were given an ultimatum Thursday to comply with regulations regarding garbage containers or pick-up service will cease.

A city ordinance states that containers shall not be larger than 30 gallons. According to Service Director Floyd C. Redick, garbage and refuse crews will not make pick-ups after Apr. 15 if the law is not complied with.

Redick stated that the order does not apply to residents of Binns-blvd between Broad-st and Sullivant-av where the service has been recently expanded. These residents will be given ample time to obtain proper containers.

West's Custodian Is Long-Time Favorite With Students, Faculty

"Dusting off" familiar face of the 1956 June graduating class is a typical part of his day. Mr. Simmons has taken cloth in hand to dust graduation pictures in the hall for 25 years.

Mr. Simmons is pictured as he looked when he started working at West High School as custodian. Note the stylish button-down collar on his shirt, the square-edged knit tie, and the cap. These styles are popular again and are worn by well-dressed high school boys at West.

By Barbara Villelobos

A man who feels "you can learn something new every day" is a good man to have around a school. Reginald Simmons, custodian of West High School has been around a long time too—25 years to be exact.

Simmons, a modest warm-mannered man with a sunny smile, could retire if he wanted—but from the looks of things, he's going to stick around a while. "I'm not going to retire until I have to," he said firmly. "Why should I? I feel good and I'm happy here"!

The kindly custodian is a familiar sight in the halls at West with his gray and khaki shirt and pants—which are held up with thick elastic suspenders—and a dust rag in his hand. He wears suspenders because "a man my age gets a middle-age spread and a belt doesn't work." His pockets are always loaded down with odds and ends and he needs something substantial to hold them up.

Gray-haired and father of five, he's quite a modern man for his 62 years. He watches television ("I like the newscasts first, then the mysteries"), eats frozen food ("we fill up the freezer in the summer for all year long") and likes Elvis ("I give him credit—he did it all alone").

Students like Mr. Simmons. They respect him and tease him about his bald head. "The boys get a great kick out of calling me "shorty" or "curly"—which gives me as much of a kick as it does them" he chuckled.

Hard-working, but with a sense of humor, Mr. Simmons has seen a lot of students come and go. He feels nothing's changed except "the boys are smaller these days." He mentioned Jerry Spears whom he remembers as "a big boy and a good athlete."

Teenagers 'Same As Always'

He doesn't feel teenagers are any different than they were years ago—they still hold hands going down the hall "like the other one was going to get away." He maintains that school spirit is as strong as it was 25 years ago. As he put it "it was a big thing then and it's still a big thing."

Mr. Simmons, who says "I'm healthy because I listen to the doctor," used to ride a bicycle to the school every morning. "It was a hard pull on the way because I had to go uphill but going home was fun because I just coasted down the hill." He rides a bus now because "at my age I feel like riding."

His duties, which include everything from "keeping the place clean" to "keeping the kids straight," often goes beyond the call of duty.

Miss Gladys Bowen, journalism teacher at West, told how Mr. Simmons goes out of his way to help with the various drives going on at school. "He's the first with his little stack of papers for our paper drive and he always pays for the school paper. We all just love him" she smiled, "he really has been loyal to West."

Mr. Simmons said thoughtfully, "We're just one big happy family here." He motioned towards some students cutting up in a corner and chuckled "Retire? How could you get old 'round a bunch like this?" Maybe it's the other way around Mr. Simmons.

For Your Thoughts

Question: Do you think that 18-year-olds should be allowed to vote?

Mrs. William Rea, 527 Wrexham-av: "I think they should. After all, they are through high school by then and they should be well enough informed to vote."

Mrs. Richard E. Swedener, 1588 W. Broad-st: "I've heard both sides on "party line" and I really feel that you're a better judge at 21 years than at 18 years. The boys who fight in the service and a few 18-year-olds would use their heads but most of them would just follow along with everyone else."

Mrs. Charles P. Willis, 512 Larcomb-av: "Actually, I feel both ways about it. It does seem a shame that the boys who are fighting in the service can't vote, and yet so many 18-year-olds just don't have the sense to vote. It's a hard question to answer."

Mrs. John G. Carroll, 381 S. Ogden-av: "No, I really don't think 18-year-olds are mature enough to vote. I think they would do best to leave the voting age right where it is now."

Mrs. Elmer Lock, 574 S. Warren-av: "I don't think they should. I think 21 years is early enough. I don't think 18-year-olds realize enough to cast a vote wisely."

Mrs. Robert H. Rich, 3226 Race-st: "Yes, I do. I think at that age they know what they want and believe and they certainly learn enough about it in school to vote intelligently."

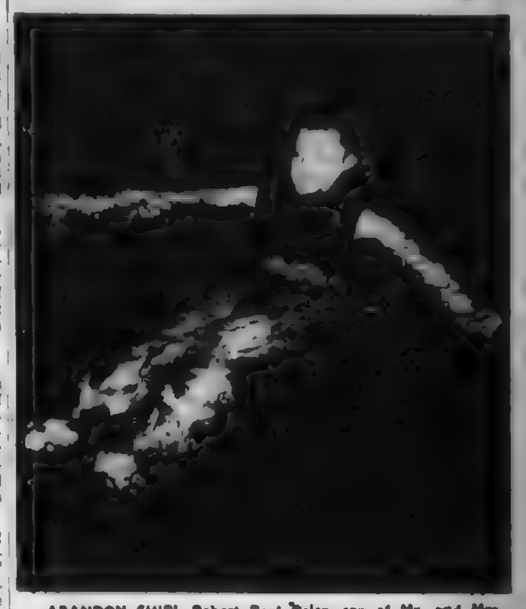
FIREHOUSE MASCOT

Soon There'll Be Three!

A male Dalmatian named "Spot" was given to firemen at Franklin County Township Fire Department, 4100 Sullivant-av the second one they've received since their own Dalmation mascot, "Dal" was poisoned a few weeks ago. A female, Tally-Ho was sent to the firemen the day after Dal died.

According to fireman Ed Lantz, the donor of "Spot" was a salesman, J. H. Harbold, of 106 Woodcliff-dr. He was talking to the chief and learned of the loss of "Dal" and said he felt the dog would have "a good home" with the firemen.

Knoxville Lad Writes



Seven-year-old Willard North of Knoxville, Tenn., learned of "Dal's" poisoning through a newspaper and penned a letter offering a thoroughbred pup to the firemen. His own dog is expecting pups May 10 and he offered to send one of the pups when it's six weeks old.

Lantz said "the chief is going to write him a letter and I imagine he'll accept the offer." Looks like the firemen at Franklin Township are going to have a lot of "doggone" good dogs at the firehouse.

REMODELS HOME

Burnice Thompson, 234 S. Warren-av., has a permit to remodel a frame dwelling. Clement Rees is the contractor.

Learns Life Jacket Technique

ABANDON SHIP! Robert Paul Osler, son of Mr. and Mrs. Paul Osler, 238 N. Ogden-av, is shown learning the proper usage of the life jacket. Although he may never use the jacket, this young recruit of the Scioto Company finds it a necessary procedure during his nine weeks of intensive basic training at the United States Naval Training Center, Bainbridge, Md. Osler is a recent graduate of West High School in Columbus.

HAS PERMIT

A permit to remodel a frame dwelling has been issued to Rebecca Steward, 240 S. Wayne-av, to remodel a frame dwelling. Slyh Roofing Co. is the contractor.

REMODELS HOUSE

John Houston, 2070 Sullivant-av, has a permit to remodel a brick dwelling at 1164-66 S. High-st. Richard Rodgers is the contractor.

Girls Study First Aid Together

COOPERATIVE TRAINING—Girl Scout Troop No. 446 and the Wikita Camp Fire Girls of the Hilltop have joined forces in a Junior First Aid Training Course. This consists of 15 hours classwork taught by Red Cross Instructor Mrs. John Carroll. Certificates will be given upon completion of this training which teaches how to prevent accidents as well as what first aid measures to take in an emergency. Girls representing the troops here are Sue Porter, left, and Debby Draper.

Ohio Farm Bureau Objects To Proposed Time Change

The Ohio Farm Bureau Federation has taken a stand against any change in the present governing Eastern Standard Time, according to D. R. Stanfield, executive secretary.

"Farm work is governed by natural forces," Stanfield said. "It is determined not only by the time the sun rises but by the temperature and the evaporation of the morning dew. Since the farmer provides the food and fiber we all use, he deserves great consideration on this issue."

The farm leader pointed to dairymen as a group who would be badly hurt. He said a change to Daylight Savings Time would mean the dairy farmer would have to begin work at an unreasonably early hour to meet the milk truck pick-up schedules.

Stanfield proposed that the time remain unchanged but if city people wanted an extra hour at the end of the day, their places of business should open an hour earlier.

"The state now is operating under Eastern Standard Time," Stanfield said. "The difficulty arises when cities and villages change the time for their own areas, creating time confusion over the state. There would be fewer problems if uniform time was observed and if individuals and companies would change their own schedules. When cities go on fast time, farmers in the surrounding areas are affected even though they have not had an opportunity to express their opposition."

To Benefit Fire Dept.

Over 1000 miscellaneous items will be offered at auction Saturday at 1 p.m. at the residence of John Kell, 7116 State Route 665, Darbydale, with the proceeds going to the Darbydale Fire Department for the purchase of equipment. The auctioneer will be Paul Rothwell.

Plant Peas Early

This weekend would be a good time to get started on the early garden, if you haven't already done so.

Peas are the backbone of many early gardens. Unfortunately, many gardeners don't get peas planted early enough, and consequently don't obtain the yields which they should. Peas are a cool season crop, and give best yields if they are planted early so that they have an opportunity to develop abundant vine growth before they bloom.

The time that peas bloom is governed by temperature units (number of hours above a certain temperature) which makes it important to get early growth during the cooler weather. This is the reason why some gardens have low yields of peas, a result of planting too late.

Varieties

Little Marvel is a good pea for fresh use, while Thomas Laxton, Freezonian or Laxton's Progress would be better suited for freezing in most instances. Your personal preference or past experiences with certain varieties will, of course, help you determine which to plant.

There are a number of other vegetables which can be included in your early garden. This week-end, if the weather permits, should find many gardeners also planting parsnips, salsify, swiss chard, red beets, carrots, onions, spinach, early cabbage, lettuce and radishes.

Tricks to Use—It is best to plant complete rows, putting quick maturing crops in the same row. Plant part of a row with lettuce, part with radishes. A few weeks later make a second planting which will supply you with fresh produce over a longer period of time.

Radish seed may be mixed with carrot seed and sowed together. This provides for double use of the row and since the radishes grow more quickly they will serve as a row marker. By the time the radishes are removed the carrots will be visible.

A list of recommended varieties is available in Extension Bulletin No. 287, "For a Good Home Garden in Ohio," and can be obtained from the county agricultural extension office.

Question—When should I spray my fruit trees, how often, and what kind of spray? The fruits are wormy and blemished.

Answer—An all purpose spray formula has been developed for home orchardists to use on all fruit trees except apples, which need special sprays.

Mix the formula just before spraying. Use:

1 tablespoon—Methoxychlor—50% powder
2 tablespoons — Malathion — 25% powder
1½ tablespoons—Captan
Mix in one gallon of water.

Apply the all-purpose formula four times during the year:

1. When petals have fallen
2. Ten days after first spray
3. Two weeks after second spray
4. Two weeks after third spray.

Apples should be sprayed with four tablespoons of dry lime sulfur or wettable sulfur when blossoms first show pink, and again just before bloom, to control apple scab. Other sprays needed will be mentioned in future "Garden Spot" articles.

Spring Fire Season Now In Force

Beginning Mar. 1 and continuing through May 31 Ohio's statutory forest fire season is in effect. During spring and fall, periods of greatest woods and grass fire danger, state law requires that anyone kindling a fire in the open air outside the limits of cities and villages must first obtain a free burning permit, unless such fire is more than 200 feet from grass or woodland.

These permits, which may be readily obtained from any forestry station or from any local deputy forest fire warden, serve to notify fire tower lookouts of locations of controlled burning. Permits are issued subject to compliance with fire safety measures outlined in them. Observance of fundamental rules such as kindling fires only when weather conditions are safe, and then only after surrounding inflammable material has been cleared away to a safe distance, and having on hand sufficient tools and help to control fire, will greatly reduce likelihood of flames escaping.

Watch 'Garry' Tomorrow For Contest Results

Don't miss Garry Moore's 10 a.m. program Thursday if you want to know how Thomas A. Murnane, 39, 242 N Burgess-av, rated as Garry's "double." The Hilltop man is among 20 finalists who will appear with the famous TV and radio comedian Thursday morning (WBNS-TV) for a shot at "Garry-Moore Look-Alike" title.

A possibility exists that he will also appear on tonight's "I've Got a Secret" program as he was told to arrive in time for the show. With all expenses paid, he left with his wife at 7 a.m. this morning for New York. They plan to return right after the show.

YMCA-YW Will Seek $2,520,000 For Extensive New Building Program

A campaign to raise $2,520,000 for new buildings for the YMCA and YWCA in Columbus was announced Tuesday evening at the 102nd annual dinner meeting of the Metropolitan Board of YMCA by Frederick B. Hill Jr., president of the board.

To inaugurate the campaign a committee of the associations' boards named C. Carlton Hartley, president of Hartley Printing and Publishing Co. and chairman of the board of the YMCA's Hilltop Branch, to head the campaign as general chairman. The campaign will be launched in November and will conclude in May, 1958.

C. C. Hartley

Associated with Hartley on the campaign executive committee, Hill said, are Edward L. Smith, works manager of Westinghouse Electric Corp., Preston Davis, former treasurer of the American Education Press, and Benjamin F. Hadley, vice president Columbus Mutual Life Insurance Co., who will serve as chairman of industrial, cornerstone, and major gifts committees.

Mrs. Herrick L. Johnson, president of the YWCA board, concurred in the announced plans which provide for the construction of three new YMCA branch buildings, a new residence hall for the YWCA, and alterations and modernization of portions of the central branches of both associations. Funds are also included for repairs and reorganization of facilities at the YMCA's Camp Alfred Wilson, near Bellefontaine.

The YMCA's share of the proposed joint fund will be $1,750,000, Hill said, with $770,000 going to the YWCA.

The YMCA has sought no expansion funds in 35 years, and the YWCA in 20 years, according to Hill, although both have paid off mortgages through the aid of generous friends.

Stresses Two Factors

He attributed current needs of the two organizations to these principal factors: growing obsolescence and high maintenance costs of old buildings, the migration of families away from branch locations, a large increase in the youth population, and increasing demands for extension service in growing suburban areas.

Hilltop Branch, at 2785 W. Broad-st has acquired a new ten acre site at the corner of Valley View-dr and Hague-av, on which a $350,000 building will be erected.

The old YMCA Spring Street Branch, erected nearly forty years ago, has had long and hard

You Can Be Sure It's Betty When You See Her At Westgate Electric

Betty Furness, CBS television star, who will participate in a live telecast emanating from the Hilltop Monday, and make personal appearances Tuesday at Westgate Electric.

Betty Furness of "Studio One" television fame, who has used the phrase, "You can be sure if it's Westinghouse" so adroitly that it has become synonymous with her name, will visit the Hilltop next week.

Her first appearance here will be Monday at the homes of two Hilltop housewives, Mrs. Fred Asay, 3176 Whitehead-rd, and Mrs. Michael Spangler, 3165 Whitehead-rd. From their homes will originate a nation-wide telecast by CBS, which claims 22 million viewers.

Hilltoppers, however, will have their best opportunity to meet Betty in person Tuesday, during her visit to Westgate Electric, 2655 W. Broad-st. She will be there from 11 a.m. to 12 noon and from 1:30 to 3:30 in the afternoon.

Arrangements for the visit here were made by Don Rice, owner of Westgate Electric, during a recent visit to New York. Westinghouse executives were interested in Rice's story of a difference of opinion concerning the company's "sand test" in demonstrating its product, the Laundromat, in competition with other automatic washers.

Monday's telecast will pit Mrs. Asay's Laundromat against Mrs. Spangler's machine of competitive origin. Using the split screen method, the "sand test" will emenate from both homes simultaneously.

The test has been telecast previously, but Mrs. Spangler had doubted the creditability of the demonstrations, declaring that it was possible they had been "rigged." Mrs. Asay, however, was positive tests had been on the "level," as she herself had made them on her Laundromat. Now she will attempt to prove her point over television.

The network's cameramen will set up their equipment Sunday at the homes of the two Hilltop housewives and work out preliminary technical details of the Monday telecast.

State Hospital Heads Give Views On 'Patient Boarding' Problem

By Barbara Villalobos

A lot of indignant feathers were ruffled last week with the "discovery" that patients from the Columbus State Hospital were being boarded in private residences. The "discovery" was made when two persons applied for rooming house permits which would enable them to board the patients.

The city moved to halt the operations which apparently violates an old zoning law. It's a hangover from the old days when people were fearful of mentally ill persons (cured or not) and were skeptical of their ability to recover. The law boils down to this: insane persons cannot be housed within city limits.

Legally, because they're still under court commitment, these adjusted and rehabilitated placements are termed "insane."

After They're Discharged—What?

The state provides homes for patients who have nowhere to go after they're discharged. The homes are a stepping stone from the hospital to financial independence. As Alvin Block, Director of Social Service put it "We just can't discharge them and put them on the street with no job, family, or home. They'd be right back where they started." The state pays $2.20 a day for board and room until they find employment and are on their own.

Months before patients are placed, they are screened physically and psychiatrically by experienced doctors. They are provided sufficient clothing and given a plan for obtaining a job, adjusting to community life, etc. The state also makes certain they have no financial resources of their own (like social security, pensions, etc.)

The hospital staff matches the personality, background, and character traits of the patient

(Continued on Page 7)

Alvin Block looks over his "bible", as he calls it, which contains a list of 350 rehabilitated patients he has boarded in private homes. The plan was started in 1948 for patients, who after their discharge, had no home to which they could return.

Calm but confuser over all the fuss is Dr. Martin Wedemeyer, Superintendent of the State Hospital, who said they were unaware three girls, wards of the state, were living in half a double which houses former medital patients on the other side.

Draper Ruling Fought By City

The city's request for revocation of the Broad-Ohio Rest Home's rooming house permit 3145 E. Broad-st., was turned down by Judge Robert Draper.

Despite the decision, the city will continue to fight the housing of Columbus State School patients in the home.

The city contends the home is a sanitarium and "violates city law". City Attorney Russell Leach said the decision will be appealed to the Tenth District Court of Appeals.

G. Western Expansion To Begin Soon

Further expansion of Great Western Shopping Mart was announced this week by Don M. Casto and Don M. Casto Jr, nationally known developers of shopping centers.

Plans call for expansion of the center into the 50 acres immediately to the north and adjoining the present center.

This expansion will represent an investment of about $5,000,000 and when completed will make Great Western the largest decentralized shopping center in the United States. It will cover more than 100 acres and provide parking space for more than 10,000 cars.

Leasing is now under way.

The Casto organization is presently in the process of building the Great Southern Shoppers City on the Hartman Farm on S. High-st, which is scheduled to open for business about September.

Smashup Victim Dies Tuesday

Hobart Lee Cundiff, 31, 2098 Sullivant-av, died late Tuesday afternoon in Mercy Hospital as a result of head and internal injuries suffered in an auto accident, Mar. 28, at Markinson-av and Lockbourne-rd.

Police said Cundiff's auto began skidding on slippery pavement as he was driving north on Lockbourne-rd. He slid through the Markison-av intersection and struck the stopped car of Samuel J. Smilan, who was not injured.

Cundiff suffered head injuries, fractures of the leg and shoulder plus internal injuries.

Burial arrangements are being made by Ewing Funeral Home, Pomeroy, O.

Wife Is Fined In Shooting Fracas

Mrs. Edna Reynolds, 42, of 870 Demorest-rd, was fined $10 and costs in Municipal Court Saturday, after pleading guilty to a charge of shooting a gun within the city limits. The fine was suspended.

She had been arrested after shooting her husband three times with a .22-caliber pistol early Friday, police reported.

According to police, Karl Edgar Reynolds, 46, refused to prosecute his wife so only the misdemeanor charge was filed.

The shooting occurred following an argument between the couple. Reynolds had gone outside to sleep in his car, and his wife insisted he return to the house, according to reports. When he refused she fired, wounding him in the arms and the back of his neck.

He was taken to Mt. Carmel Hospital.

Art League Has Exhibit At Library

Twenty-three paintings in watercolor, oil, and gouache will be exhibited at the Hilltop Branch Library, 2855 W. Broad-st, during April by members of the YMCA Art League. Three paintings are the work of a Hilltop artist, Allen F. Seipel, 826 S. Roys-av.

Seipel, instructor for the YMCA Informal School sketching and painting classes, also serves as advisor for the YMCA Art League. His paintings, all watercolors, are entitled "Angles and Planes," "Country Church," and "Low Tide at Rockport."

The exhibit may be viewed during library hours, from 1 p. m. to 9 p. m. Monday through Friday, and from 9 a. m. to 9 p. m. on Saturdays.

Landscapes, seascapes, and still life studies are included in the exhibit. The art organization was formed five years ago by students of the YMCA Informal School art classes. It offers an outlet for individual art expression through group participation in sketching and painting.

One of the group's outstanding activities is the Annual Art Exhibition which they present each spring in the auditorium of the Central YMCA, Long and Front-Sts. Their third annual exhibition preview and Open House was held during the past weekend. Paintings will remain on exhibit in the YMCA lobby throughout April.

Allen Seipel has four watercolor paintings in the YMCA lobby exhibit, and another Hilltop artist, Max Hall, 201 Wilson-rd, has two oil paintings and one watercolor.

In Passing

By Esther Weakley

AT SUCH AN HOUR

The tone of spring is but a hill away,
More promise than reality; the scent
Of lavender escapes a budding spray
On lilac bush; the river is content
To pulse its song, half-merriment, half-sigh,
For winter's grim tenacity is spent.
These days are wonder-woven as the cry
Of children tripping sunbeams in a glade—
Their rose-bright lips forever shaping "Why?"
And who can answer how a spring is made,
And why its touch will clothe a naked tree,
Or what far Shangri La its feet have strayed?
At such an hour it is enough to see
The earth resurge to April's alchemy.

En passant — where are all the teen-agers who were to be completely ruined by watching Elvis Pressley and by listening to his records? . . . And whatever happened to Liberace? . . . April is a fine time to take a cue from the housewife who cleans out the dark corners of her home. We might all do well to clean out the dark corners of our minds and throw out all of the negative winter thoughts that have accumulated . . . April means many things to many people — to the farmer it means plowing and fruit trees blossoming and the bright green of winter wheat; to the children it means shedding snow suits and heavy coats and roller skating and being younger than they were in the winter; to the abutin it means dreams of sunny days ahead to be spent outdoors, and to all of us it means new hope, and stones of doubt rolled away.

Mail — From Oregon: "The Portland Chamber of Commerce should love your weather men. When you said they reported that we were having fine weather, we were having the worst weather we've had in years!" . . . Humane Society Opposes Animal Seizure Measure

A bill has been introduced in Congress requiring public pounds, humane societies, and other animal welfare organizations to surrender unlicensed stray dogs to any non-profit organization, certified by the Ohio Public Health Council as being engaged in teaching or research.

The bill is opposed by the Columbus Humane Society, Ohio Federated Humane Societies and other animal welfare organizations.

Although not opposed to scientific medical research, the organizations are opposed to being compelled into a position of violating the principles, and precepts for which they are organized, namely the prevention of cruelty.

Lilies To Aid Crippled Children

THREE LITTLE HILLTOP cabin pals enjoy a good slide during their summer camping program, one of many services provided by the Franklin Society for crippled children and made possible through the purchase of Easter seals and Easter lilies. Sliders are, top to bottom: Gary Kulp, 734 S. Wayne-av; Stephen Koch, 296 S. Powell-av, and Jack Smith, 260 S. Harrison.

Easter lilies will make their annual spring appearance Apr. 13 for the benefit of the Society for Crippled Children.

School girls will be stationed at downtown corners and stores from 7:30 a.m. to 5:30 p.m. selling the familiar lilies. The shopping centers and banks will be covered Friday evening, Apr. 12.

Two Hilltop women have assisted in the Easter seal campaign which started May 14, and will end Apr. 21. Mrs. Carl Ausenheimer, 488 Wrexham-av, member of Brace 2, is location chairman of the drive. Mrs. Walter Greeninger, 494 Wrexham-av, member of Brace 2, is a member of the school committee and is in charge of West High School's participation in the campaign.

The Garden Spot

A Lawn Needs Care

Your lawn is similar to a garden when you stop to think about it. The main differences are that the plants are not in rows, and consequently cannot be cultivated. The many thousands of individual grass plants have the same basic needs as the garden plants. In too many lawns these grasses are, more or less "on their own."

There are a number of things you can do in early spring which will promote a better stand of grass in your lawn and enable it to better withstand the many tortures it will undergo during the

Rolling

A lawn should be rolled once a year, just after the frost has left the ground. Rolling will not make an uneven lawn level, but it will push bunches of grass into the soil and bring the surface to its original level so mowing will be easier. Do the rolling when the soil is moist and not muddy.

Fertilizing

This is one part of lawn care most often neglected or improperly done. In most cases the lawns should be fertilized in the fall (September or early October) for best results. If, however, the lawn was not fertilized last fall, an application of from 10 to 20 pounds of 5-10-10 or similar analysis fertilizer per 1000 square feet should be applied as soon as possible on a lawn which contains bluegrass, red fescue, and clover. The nitrogen in the fertilizer encourages the early growth of bluegrass which is the predominant lawn grass in most Franklin County lawns.

Watering Lawns

Lots of seed is wasted each spring by reseeding of thin lawns. In general, don't reseed unless there are bare areas of at least one square foot. Grass seedlings don't have much of a chance in old sod. Sow the bare spots like a new lawn and keep the edges of the old sod clipped so the new seeding won't be killed out by shading. Fertilizer and intelligent cutting will do more for a thin lawn than reseeding.

If you really want to do your lawn a favor now, take a little time to adjust your mower so that the grass will be cut one and one-half to two inches high. Low mowing hurts the lawn, so don't be satisfied to cut it less than one and one-half inches. If you mow high and frequently enough so that not over two inches is cut off at a time, your blue grass will be greener for a longer period of time this summer, and you will have fewer weed problems.

The Bible

For if ye forgive men their trespasses, your Heavenly Father will also forgive you. —(St. Matthew 6, 14.)

If we hold grudges, harbor resentment which builds up into bitter hatred, if we are constantly and destructively critical of those around us, we indeed build an insurmountable wall between ourselves and God and our prayers will be in vain. By our unforgiving, we create our own hell on earth.

(Continued from Page 1)

usage and maintenance costs are now exorbitant, Mr. Hill asserted. A new location, more convenient for its members, has now been secured on Woodland-av where a modern building will be erected at an estimated cost of $750,000.

The South Side Branch, at 884 S. Third-st, now occupying inadequate rented space, will move to a new community type building to be erected on a site at Jenkins-av and Sixth-st, where $350,000 will be spent.

"The birth rate," Mr. Hill commented, "is probably the most vital factor in our economy, but it also presents profound problems, especially to schools, churches, the YMCA and YWCA, which must find space for a growing army of young people.

"The largest percentage of our population in the Columbus metropolitan area," he continued, "is in the 3 to 14 age group. We cannot shirk the responsibility that rests on us as institutions particularly concerned with the wholesome development of youth."

In his summation of the YMCA's growth last year, Hill said that more than 27,000 different members were listed in the seven YMCA branches, an increase of 30% in the past three years. More than 1,500 program groups held 25,704 sessions and drew a total attendance of 467,861.

New trustees elected at last night's meeting were Edward L. Smith Westinghouse Electric Corp., Dr. Harold M. Kibling, superintendent of Columbus schools, and Dean Phillips, director of personnel and public relations at North American Aviation, Inc.

Girl Scouting In West Hill

By Mrs. James W. Whelen
Public Relations for District 10

Troops interested may visit the Hanby Junior Museum, Westerville, free of charge for the next two months. The program presented is entitled from "Wright to Rockets". (airplane material). Appointments must be made for visits through Mrs. Kenneth Priest, TU. 2-2848.

"Girl Scouting is a Family Affair" was the theme of the annual Birthday Parties for the Girl Scouts sponsored by Lazarus for the Brownie and Girl Scouts on Saturday, Mar. 23 at the Veterans Memorial Auditorium.

A highlight of the program was the appearance of the newly formed city-wide Girl Scout choir under the capable direction of the well-known Hilltopper Robert Johnson, 39 S. Ogden-av. The vocalists gave different musical selections for the three teas. At the conclusion of the choral presentations, a special recognition award was presented to Mr. Johnson by Mrs. Leon Mathews, president of the Ohio Trefoil Council, in recognition of his tireless efforts to make these musical programs for the teas possible.

Each Monday evening these scouts have been meeting at the Hilltop Lutheran Church and are now under the direction of Norman Geist, who presented a Lenton recital on Friday, Mar. 29.

Day Camp Memo—Day Camp sessions will last eight days. A fee of $5 with bus transportation or $4 without will be charged.

Troops of West Hill Neighborhood must have registrations in by Apr. 17 or 18 to the Girl Scout office.

It is Girl Scout cookie time. The cookie sale is the only council-wide fund raising project. It helps support troop and council activities and provides a vital experience for the girls in cooperation.

The following women are assisting the troops with their sales in West Hill neighborhood.

Mrs. Richard Logan, 2424 Steele-av, BR. 9-5961, Troop 127; Mrs. John Patton, 687 Chestershire, BR. 9-9533, Troop 744; Mrs. Richard Endsley, 3380 Mary-av, BR. 4-3012, Troop 609; Mrs. George Hiles, 3601 Plainview-dr, BR. 9-4940, Troop 600, Mrs Fred Moritz, 90 N. Junior High School Seamstresses Model Class-Made Skirts

Mother's deft fingers came in handy on these two ensembles. Sharon Decker, 640 Crescent-rd, left, and Rita Reis, 810 S. Richardson-av, made their skirts and then talked "Mom" into making matching blouses.

All set for the Easter parade are cool-looking Barbara Limcott, 304 Midland-av, (left) and Carolyne Williams, 843 Miriam-cr, W., proudly posing in skirts they made themselves in sewing class at Hilltonia.

Cool linen was the choice of Susan Neal, 844 S. Hague-av, seated, for her spring skirt. Shirley McClain, 376 S. Eureka-av, left, and Marilyn Hinsley, 397 Woodbury-av fashioned billowy cottons for their spring wardrobes.

Hilltonia junior high gals modeled their own handiwork at a style show Friday afternoon in the lunchroom. The eighth grade seamstresses made their spring skirts in clothing classes, under the direction of Mrs. Vivian Schmidt. All junior high girls were invited to view the "junior high fashions," worn by 21 young models. Here, Julia Robinson, 267 Whittetherne-av, (right) models her modern "rock and roll" skirt, bordered with platters, guitars, and Elvis. Her friend is Eunice Smith, 44 S. Wheatland-av, with a breezy, gored skirt.

State Hospital—

(Continued from Page 1)

with the person with whom he will live. The operator is obligated to call or come in at least twice a week to report on their adjustment or any difficulty that might arise. The placements are seen more frequently and are better supervised than those who returned to their own homes.

Block, who has placed 350 people in private homes, said, "These operators are warm and sympathetic—their motivation isn't financial gain." He also pointed out that "just because someone wants to take a placement in his home we just don't put them there. They are screened as carefully as the patients."

Plan Nine Years Old

This may come as a shock to some city officials and residents of Columbus, but according to State Hospital officials, they have been boarding patients since 1948 and without adverse effects.

During this time, the most serious offense was committed by a former patient who got a ticket for jaywalking. Dr. Martin Wedemeyer, Superintendent of the State Hospital said "believe me, if any crime has been committed, you'd have read about it."

"We have more homes than we can fill," Block said as he glanced at a list of names that have applied for placements. Since Mar. 1, 1956, 186 patients were placed in private homes, 66 of which are within city limits.

Why then all the fuss all of a sudden? Hospital officials claim they are as confused as anybody else. "We're just trying to save the state money," Block pointed out. "Each patient costs the state $3 a day at the hospital—multiply that by thousands and it adds up."

Some hospital officials think real estate owners are in back of all the uproar because "they feel their property values are lowered with patients living around there." The matter came to light last week when three girls, wards of the state, were found living next door to former patients at the hospital. These men have been living there since 1953.

"In their haste to get a 'story', some newspapers neglected to get all the facts and tell the full story," states Dr. Wedemeyer, who chastised reporters who call with a "chip on their shoulder" and demand information in three minutes. He thanked this reporter for taking the time to come over personally and get "our side of the story."

Block Waits For Answer

When asked what the outcome of all this will be, Block, who works with improved patients, sighed "I wish I knew." One official admitted "we're sitting tight."

One thing is clear—if the city wins the suit (which is pending in the court) the rooming house operators will have to evict the former patients and the hospital will have no choice but to supply and take them back.

"No one should be in a hospital if he can adjust to the outside, but because of a legal technicality, hundreds of well-adjusted individuals who have returned to useful community life will be returned to the state hospital, which means they're right back where they started—and so are the taxpayers," says Dr. Wedemeyer.

Four-Day Work Week Announced At Westinghouse

"General market conditions" have forced Westinghouse Electric Corp. employees into a four-day work week, starting next week.

The shorter week will last until "market conditions warrant a return to the five-day week," management stated.

The company also announced that 300 production workers will be furloughed from the Mansfield plant. A total of 968 workers have been laid off there since Mar. 4. None has been furloughed in Columbus.

Similar moves have been announced by other major appliance companies during the first quarter of the year.

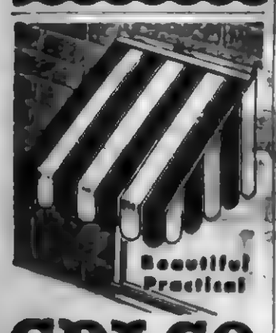
'Ohio Sentinel' Increases Rates

Effective Thursday, Apr. 4, The Ohio Sentinel, Columbus' only Negro Newspaper, will increase its newstand and newsboy price from 15 cents to 20 cents per copy.



Russell A. Jackson, editor, pointed out that the increase is necessary in view of the 'spiraling costs of producing the paper." He emphasized that newsboys, dealers and distributors would share in the increase. Mail subscription rates for the Sentinel will remain the same, Jackson added.

Allen's Funeral Home On The Hilltop For 28 Years

Noble L. Allen, whose job is trying to understand other's sorrows, has been in the funeral business 28 years at the 2456 W.

Noble L. Allen

Broad-st location. Allen, born in Jackson, O. and raised on the Hilltop, says every family presents "something new" in their bereavement over the loss of a loved one. He's found his relation to people is similar to that of a "minister or doctor".

The impressive colonial structure, the interior of which is being remodeled this Spring, is the oldest funeral establishment on the Hilltop. Allen pointed with pride to a faded photo showing the original landmark as it looked in 1904.

The amiable funeral director, who is on call 24 hours a day, seldom has time for a vacation but when he "takes" the time, he heads for Northern Michigan (lugging his pet gun, a Springfield 3006) to hunt deer.

His interests range from "dabbling" in photography to raising race horses (his "Cotton Jinner" was a world champion trophy winner in 1949). He keeps the horse on a stud farm in Michigan because they're building a school on his old farm site at 2961 Valleyview-rd.

Allen's office is filled with trophies his horses have won (165 to date).

His 30-year-old son, Noble Allen Jr., is active in business with him and goes to school in Cleveland every summer because "there's something new all the time in this business".

Allen, obviously proud of his son who graduated cum laude from the Cincinnati School of Embalming, pointed to his own diploma and laughed "I didn't bother to have that put on mine"

A graduate of West High and the Cincinnati School of Embalming, he teaches the Men's Bible class at Glenwood Methodist Church and is chairman of the Board of Trustees.

Civic-minded, he was secretary of Hilltop Kiwanis Club for ten years and is kept busy attending weekly meetings at Ft. Hayes as Commander of Second Area of Army State Guards.

He lives in a six-room apartment above the funeral home with his son and wife, Annouise, who is also a licensed funeral director.

Funeral Service Held For Victim Of Electrocution

Funeral services were held on Tuesday in the Feil Funeral Home for Arthur Searls, 21, 1987 Fairmont-av, who was electrocuted Saturday afternoon while testing a model airplane.

Searls, father of two small children, with two companions, was flying the plane in front of 1154 Kinnear-rd, when either it or its control wires became entangled in power lines which snapped. Searls was pronounced dead on arrival at University Hospital where he was taken by his two friends.

Formerly an attendant at Bill's Gulf Station, Northwest-blvd at King-av, Searls was hired Friday at the Sunflash Service Station, Fifth-av and Olentangy River-rd.

Surviving are his wife, Carolyn; a daughter, Marilyn, 2; a son, Donald, three months; two sisters, Mrs. Bessie Tobin and Elizabeth Searls; his father, Clevace Searls of West Virginia, and his mother, Mrs. Joseph Gary of Columbus. He was buried in Union Cemetery.

Life's Never Dull For Dashing Danish 'Career Gal' Living Here

Whoever's on the other end of that telephone, conversation would have difficulty detecting any trace of an accent from attractive Ebbie Andersen, recently "imported" from Denmark. She's shown working in her plush mirrored office, complete with white telephone.

By Barbara Villalobez

Ebba Andersen, tall and slim with red (natural) hair and a black mole on her left cheek (that's her's too) is a Danish import who likes America and "wouldn't live anywhere else".

Isn't that refreshing—a foreigner who doesn't yearn for the shores from whence he came? Ebba has no trace of an accent (English is compulsory in Denmark schools) except possibly her English is clearer than the average American's. She doesn't understand people who are overly sentimental about their homeland. "If they get homesick, why don't they go home?" she says bluntly. "Besides, if I didn't think I'd like it here, I wouldn't have come over in the first place—nor would I stay," she said, tossing her head.

Hilltop Booster Already

Manager of the Slenderella salon downtown, she "loves" the Hilltop where she has an apartment at 3125 W. Broad. "I certainly picked the right part of town — when you're new, you don't know the difference between west, east—you know, you just take a chance." She's delighted with her choice and brags about the Hilltop like any seasoned Hilltopper.

Ebba says her family isn't particularly close-knit so she doesn't miss the home-fires. She has no plans to return to Denmark. Her brother, an artist, "flies all over the place and I never know where he is." She guessed he is in Paris now. "Well, that figures—Paris in the spring and artists sort of go together," we offered. Her two sisters are married, with active careers. One is an indoor architect whose hobby is foreign languages and the other is a doctor. "We're all aggressive," she explained. As for her parents, her mother passed away and her father is "somewhere" in Denmark.

Ebba's enthusiastic about her air-conditioned apartment here, with wall-to-wall carpeting (even in the bathroom) and a patio. It's a perfect setting for her small dinner parties which are no larger than three or four friends, because "I don't have the space."

Meatballs Her Specialty

She serves, buffet style, Danish meatballs (friends hound her for them all the time) with melted butter and vegetables. She finishes with black "espresso" coffee served in narrow, white cups. All this is accompanied by Strauss waltzes playing in the background. She listens to "piped-in" music at the office all day and the waltzes are a soothing change for the versatile Ebba who likes good music. She's a member of the Westgate Unit of Columbus Little Symphony Orchestra and exclaimed "by the way, they're really something!"

Her first glimpse of the U.S. was of New York in 1947. "It did something to me," he remembered, "Everything was faster, livelier, and I decided this was the one place in the world where you could make a name for yourself as a woman."

She decided then and there she would return, but discovered it wasn't so easy. Denmark is a comparatively small country and the immigration quota is less than for other countries, so she had to wait three years for a visa.

While waiting, she moved to Ottawa, Canada, "to be close to the U.S." where she had a plushy-type job as social secretary to the Danish ambassador. "I worked awfully hard — arranging and attending parties," she laughed.

In Detroit she modeled five months before training for her present position. She found people "cool and distant in the Motor City. "It's amazing how friendly Columbus is," she compared. "People are much nicer." Puzzled, she asked "what is it, the climate or something?"

Ebba has been particularly busy the past few weeks selecting and training personnel for the new Slenderella salon at Great Western shopping Center. She finds her job "satisfying and rewarding". This is due in part to the women whose lives and attitudes are happier after shedding a few pounds." Posture training is the first corrective step taken in shaping the figure back to a shape instead of a blob.

Notes Posture Weakness Here

She expressed a distaste for the "horrible posture slump" that everyone seems to have these days. She's observed this in men and women on buses, in stores, and watching crowds downtown.

She practices what she preaches, too—she sits and walks erect and holds her almost-six-foot frame (take note you beanpoles) with grace and ease. Because of her height, she buys her clothes only in New York, where she goes three times a year. Ebba, who was on Fern Sharp's TV show Mar. 11, knows her stuff when it comes to clothes. She prefers simple sheaths (which is understandable with her slim figure she doesn't need any camouflage) and would rather have a few expensive clothes than a lot of cheap ones.

Unlike most career girls who use a career only as a substitute until a man comes along to waltz them down the aisle, Ebba displays no such notions. Her career isn't a waiting period; it's her life.

When and if marriage comes, it will revolve around her job. She wouldn't give up her career for marriage because "once you've had a career, you're not content to sit at home."

Asked if she'd like to get married, she replied, "yes, I certainly would," but added philosophically, "if it comes — OK; if it doesn't — O.K."

Letter To The Editor

Editor:
Hilltop Record
MR. EDITOR:

"As one of the largest property owners, paying one of the highest taxes in what is known as Rea-Beau Addition, we are watching the actions of the county commissioners and the city administration, with keen interest on the subject of annexation of this addition to the City of Columbus.

"A petition of annexation has been presented. Knowing from long bitter experience that this City of Columbus has for many year selected just the Choice sections of this community for annexation, leaving the tax poor in the county, we will watch this one with particular interest.

"Here is one of the oldest small communities bordering the city. It should have been annexed long before many of the new additions were even built and annexed to the city But, being a tax-poor community we will bet "all the tea in China" that both the commissioners and the City Dads will find more reasons why they should NOT annex this particular addition to the city each and every time that it comes up for annexation. P.S. I hate tea.

"At the present time the streets in this small community your life in your hands, and the are so full of holes that you take life of your car, when you are forced to drive over them.

"Parts of this community are within one square of a city sanitary sewer, but the city refuses to let us tap on to it, the county refuses to fix the streets, and furnish sanitary sewers, forcing residents to put in unsanitary septic tanks right at the edge of a great city.

"The county consistently refuses to cut through streets from the present city paved streets, so that residents of this old addition must waller through mud and chuck holes big enough to bury a dog in, to get to and from their homes.

"The City of Columbus now completely surrounds this small, old addition, they have annexed to the right and left of it, to the North and South of it, up, down and crosswise, but have avoided annexing it like it was poison Yes, you guessed it, our Post Home is there, down one of those hog wallowing, mud and chuck holed mud trails that pass as streets in that addition. You can get in by mud sled, or bounce in by car, if you make it at all."

BOW DAY

By Connie Conard, Marilyn Howells, Dianne Kearns

First day of spring was welcomed by Starling girls with their annual Bow Day. As the March Lion roared, brave little lambs of Starling, ventured forth as heralds of spring.

Shivering students withstood winter's icy blast in an effort to let every one know that "Spring is just around the corner." Girls bedecked in big bows, little bows and middle-sized bows of all hues and shades made a colorful parade through the corridors and class rooms.

Connie Conard and Dianne Kearns sported bows 17 inches in length. Joan Bussard, Angie Forrest, and Linda Miller expressed great originality in their array of bows.

Practically every girl at Starling participated in the greeting of spring.

Float Trips Have Appeal For Anglers

Float trips are not new in some sections of the country such as the Ozarks and others but to Ohioans they are something of an innovation and are just beginning to gain favor among some Buckeye State fishermen.

Within the past week three Columbus fishermen, Ros Veth, Lloyd Rinear and Dr. N. S. Brandes took a float fishing trip down Big Darby Creek. Due to lack of recent rains the creek was below normal and the men had to portage four times during the eight-mile trip.

The men placed their boat in the stream at Gantz bridge, just below Harrisburg, and floated the trip to Darbyville. Although the water temperature was a frigid 48 degrees, much too low for good bass fishing, several smallmouths were taken and many more short strikers not hooked.

A trotline fisherman was encountered on the way downstream. Having just run his trotline he was rewarded with a five-pound shovelhead catfish and a six-and-a-half pound blue catfish.

The Ohio Division of Wildlife has shown considerable interest in the development of launching sites and parking areas on a number of streams in Ohio in order to create more interest in float fishing. Preliminary plans for such a program are now underway.

Spring Courses To Start In April At Senior Center

Several new spring courses will be offered at the Senior Citizens Recreation Center during April and May.

Most significant is a course in ilpreading, which will be held at 1 p.m. every Tuesday, starting Apr. 2. A ceramics course will feature costume accessories and small bric-a-brac and a drawing and painting class will be conducted on Wednesday afternoons.

The "conversation" group will take occasional trips of exploration about town to add interest to their discussions. Knitting and crocheting, senior chorus, contract bridge, canasta instruction and social dancing will be carried over from the winter program.

Penny For Your Thoughts

Question: Do you feel that the pigeons at the Statehouse should be exterminated?

Clarence S. Shaw Jr., 1795 Harrisburg-pk: "Yes, I think they're a nuisance and we should get rid of them. They're messy and carry disease, which is certainly harmful."

Mrs. Walter Frankenberg, 169 N. Terrace-av: "As a child, I always loved them, but they are a nuisance and messy, although I don't know if they're actually unsanitary. I wouldn't like them around my own yard so I suppose they shouldn't be there either."

Mrs. Warren Jennings, 178 Selwitz-av: "I like them just the way they are. My children love to watch them, and feed them when we go downtown and I don't think they're too dirty."

Herbert Marshall, 168 Columbian-av: "I think the Statehouse would be much better looking if they'd get rid of them. Also I don't think the parking lot behind the Statehouse adds much to its attraction, either."

Mrs. T. T. McQuoon, 2662 Olivet: "Yes, I think they take away more from the beauty of the Statehouse then they add to it because of the trash connected with them. I have nothing against the birds and would like to see them taken away by humane methods, such as trapping them and releasing them in the country."

These Hilltop Druggists Ask You To—

TAKE YOUR CHOICE

NEW DRUGS SOON GET CHEAPER . . . mass production and free competition soon drive the price down. For example, in 1942 a single 100,000-unit shot of penicillin cost about $22. Today, it's within the reach of everyone.

WITH NEW DRUGS HUNDREDS OF DOLLARS IN BILLS AND LOST TIME ARE SAVED. Here is the heart of the miracle—In 1931 a case of lober pneumonia might well have cost $400, plus 8 weeks loss of work — even if the patient lived.

TODAY the use of antibiotics costing $15 to $25 with only 8 days' loss of work, is sufficient to cure most cases.

WITH NEW DRUGS MANY PRODUCTIVE LIVES ARE SAVED . . . Fewer productive careers are now nipped in the bud — think of the earning and productive capacity of the 500,000 pneumonia patients whose lives have been saved in the past 10 years.

$350.00
For a serious mastoid operation involving $100 for the actual operation — $200 for two weeks' hospitalization — $50 for doctor's visits — plus a nip-and-tuck gamble with death.

$15.00
For the quantity of penicillin necessary to control a middle ear infection quickly and easily, without undue suffering, and with little discomfort to the patient.

Bible Answers

I Peter 3:15 ". . . be ready always to give an answer . . ."

IS THERE ANY PRACTICAL WAY TO ACHIEVE UNITY IN CHRISTIANITY? Yes, very definitely there is. Religious unity can be achieved by following God's divine plan for unity. This is a sevenfold plan and is set forth by the inspired Paul in Ephesians 4:3-6. This passage reads: "Endeavouring to keep the unity of the Spirit in the bond of peace. There is one body, and one Spirit, even as ye are called in one hope of your calling; One Lord, one faith, one baptism, one God and Father of all, who is above all, and through all, and in you all." Most religious people in our nation are willing to accept the fact that there is one God, one Lord, one Spirit and one hope. However, very few religious bodies will accept the fact that there is only one body. This they cannot do and be consistent. Paul tells us that there is but one God, one Lord, one Spirit and one hope. Just the same, he tells us that there is one body, one faith and one baptism. Just as there cannot be more than one Lord so there cannot be more than one body, one faith and one baptism. In our nation there are over 250 religious bodies with just as many faiths. One could as consistently preach that there are 250 Gods or Lords as he could preach that there are 250 bodies and faiths. Neither can be done in accord with the scriptures.

Religious people must return to the basis of authority in religion, the Bible. When all of us are willing to do this and unite upon these seven points, we will be helping to bring about the unity our Savior desired and prayed for. To do this we must give up all creeds of men, manuals, confessions of faith, prejudices, etc. and return to the "old paths" of God's work. The Church of Christ is working toward this end and invites all honest souls to accept the simple teachings of Gods' word and work to the same end.

Spring means many things—Robins, flowers, budding trees, Forsythia—but, above all, it usually makes us feel young at heart. Believe me, that's the way I felt the day I visited the 34 stores at Central Point. The weather was ideal and the center electrified — a hub of activity with everyone in the center busy as bees in a molasses barrel, unpacking Spring Surprises.

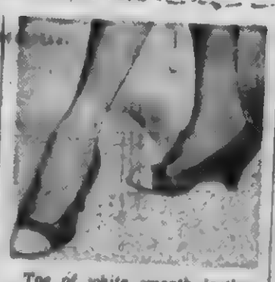
If you're ready to take a tour, let's go — Fashions are my weakness too. There are so many breath-taking fashions for women and children in a complete range of sizes and colors such as the high fashion shades—Wisteria, pink cloud, heavenly blues, yellow fluff, surf green, muted gray and those in ever popular blacks and navys. Matching accessories and shoes were also spotlighted. You'll find many of these fashions which are advertised in national magazines for the career girl or home-maker at Central Point.

If your talent is designing or dressmaking, you'll find all the items you need to complete an ensemble, plus sewing equipment.

Fashion is a man's world, too — That's what I observed behind the scenes. Everything the well-groomed man or boy wears can be found at Central Point.

Now let's turn our thoughts to outdoor living. If you are itching to work in your garden, as I am, you will find the very latest equipment, from those ever-popular green thumb gloves to high powered lawn mowers.

If you wish to pursue your hobby, be it home decorating, fishing, tennis, baseball, golf, swimming, playing hi-fi records, or perhaps you are planning to buy new household or garden furniture, then shop Central Point — they have anticipated your every need.



Mom, I'm hungry, are certainly familiar words, hope you won't mind but we just have to stop at one of the two very fine restaurants at Central Point. While waiting for our order to be served, I checked over the number of stores I had visited and did you know Central Point has everything for everybody. Yes, there's a Beauty Shop, Laundromat, Shoe Repair, Savings & Loan Company, Insurance Company, Post Office, Optometrist, Dry Cleaner, Bakery, Poultry Store, Wine Store, Carry Out, Accountant, 5 & 10, Jeweler, Drugs, Junior Department Store and a Bank.

We're ready to wind up the tour; before we do, let's do our marketing. There are two very fine Super Markets at Central Point and a shop that specializes in meats. These stores make meal planning easy. You'll find nationally advertised brands of canned and frozen foods, top quality meats and the freshest produce on the market plus many Gourmet items for those special parties.

Now it's time to go home. Although I had a very busy day, I enjoyed shopping at Central Point. No need to dress up, I wore casual clothes and flats. The children enjoyed the trip, (no baby-sitting fees!) and next time we will bring Daddy because all stores are open every nite, Monday through Saturday, until 9:00 P.M. and there is free parking for 2500 cars.

Why don't you make it a point to shop at the "Point"?

Cordially,
Jerry Kaye

Fabrics Look Airy, Feature Easy Care

The fragile appearance of so many of this spring's fashions is delightfully deceptive because, more often than not, they are as easy to care for as they are good to look at.

This is mainly due to the development of many new blends of natural fibers with synthetics and to new processing for natural fibers such as cotton.

Notable are cottons processed for easy washing and minimum ironing and blends of Dacron-and-cotton. Novelty sheers, such as nylon chiffon, look as airy as spun sugar but can be washed easily, thanks to the use of synthetic yarns.

Blends of silk and synthetics give the high-fashion look of silk plus easy care.

Wallpaper Is Fresh In Color

New fashions in wallpapers are beautifully vital.

Colors are clear and fresh. There are more light backgrounds with two or more pastel colors brought into focus by the addition of a sharp accent color, used sparingly.

Textures show an international flavor. Some look like finely woven grass cloths; others, such as an Oriental Shoji screen effect, have a see-through quality; while still others give a woven wood effect or simulate silk-like weaves of the Far East.

Scenic-type wallpapers have a wider range of subjects — among them, Oriental effects, French Provincial cafe scenes, hunting scenes, seascapes, Pennsylvania Dutch and New England scenes. All are widely spaced on light backgrounds.

Florals have a livelier, more imaginative look than in the past.

Stripes in varying widths, often in one color and white or tone-on tone, make beautiful backgrounds for pictures and are so versatile they can be used with modern or traditional furnishings.

Small all-over wallpaper patterns, such as geometrics or neatly-spaced flowers and fruits, are liked.

CAPS GOING STRONG

Caps continue to show an upsurge in sales. Smartly styled in worsteds, flannels and tweeds, they reflect the Ivy influence with back buckles, belted with either leather or matching material. Wide and narrow stripes and solid colors predominate.

Lengths Are News In Daytime Gloves

Longer lengths for daytime wear come to the fore in new gloves although the classic shortie continues important. The longer gloves are liked to accent slim lines and to wear with capes or bracelet length sleeves.

Included are gloves which reach midway between wrist and elbow, eight-button elbow lengths and 12-button above-elbow styles, the latter often daintily shirred, jeweled or embroidered.

Newsmaking, too, is the wide range of color in washable Launder-Leather gloves. These gloves, in washable kidskin, pigskin or suede, display variations on every color of the rainbow, plus neutral tones.

Brother and sister dress up for spring. Brother's suit features contrasting jacket, trousers, while sister wears a print dress and solid-color coat with high-placed back bow. Both of linen-weave rayon.

Outer Styles Are Inspiration For Spring Under-Fashions

With the basically narrow, eased silhouette in fashion prominence, new foundation garments are designed to make all the many variations of slender styles wearable and becoming to the majority of figures.

Long brassieres, high girdles and one-piece garments are the leading contenders for under-fashion honors.

The long brassieres, more often than not, fasten in front. Thus they're easy to put on, and afford the smooth back line required by many slim dresses and skirts.

The pegged skirt, seen in Flemish or Dutch Boy styles, observes this back slimness and eases softly in front. Since it starts from a flat midriff and tapers narrowly over the thighs, midriff and thigh control may be indicated.

Foundations meet the need, molding the midriff by extending two to three inches above the waist, and slimming the thighs by fitting long on the body.

Some girdles take special note of thigh control with panels of rigid fabric or doubled elastic from the fullest curve of the hip to the base of the garment.

The corselet, a new-found favorite of the slender woman and the old standby of the mature figure, is seen more often in all-elastic versions.

Starting with sheer cup sections to lift the bosom, it molds midriff, waist, hips and thighs with one unbroken sheath of light yet persuasive stretch fabric. Backs are low and straps are detachable, to suit the dress neckline as well as the dress line.

A low backline marks many of the newest foundations, for both sheath and bouffant sugar fashions now frequently have low-cut backs. These low back foundations are available with or without straps, in white, black or a pastel, and in the form of bandeaux, long line brassieres, bra-lettes and corselets.

Brassieres and corselets with rounded cups lift the bosom and shape it gently, for a definitive line under cocoon capes and other fashions that fit close to the figure. Lace, satin and embroidered fabrics make new brassieres pretty and feminine as well as functional.

Color also figures in foundations, with pastels favored.

Benua, Features Latest In Ivy League Styles

The newest creations in Ivy League styling for Spring are now available at Tom Benua, Men's Furnishing Center at Central Point. Sport coats, jackets, trousers and shirts in long and short sleeves, all feature the latest in styling.

And for those warm Summer days ahead, there's suits by Northcool. Benua also features nationally known Jarman Footwear and Mallory Hats.

Soft Hues Cue New Stockings For Accessory Role

Taking their cue from spring fashion and color preferences, hosiery stylists have designed new stockings as costume accessories in soft pale hues and color blends.

To harmonize with navy costumes, there are nylons in Wedgewood grays and smoky blue grays.

For the beige family, hose take a new color slant. Hosiery beiges have been blended with warm color tones—rosy beige, cream, gold or apricot beige, and — very new — gray beige.

Nylons in gray tones have also been color warmed. They range from misty pearl grays through pink, blue and mauve grays and grays with a touch of violet or newly-tinged opalescence.

For the high-fashion violet family, nylons show a variety of delicate, fresh-looking mauve beige, mauve taupe, rose and pink mauves, lavender and violet shadings.

Seven athletes were presented awards for competing in three sports by St. Aloysius Coach Willie Manicho. They were Mike Brown, Mike Close, Leo Genereux, Bob Grogan, Bill Quinn, Mike Culbertson and Mike Spires.

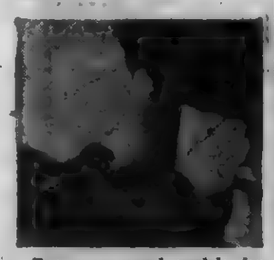
Guest speakers at the affair were Hank Gowdy, director of youth activities for the Columbus Jets; Jack Ryan, varsity coach at St. Charles; and Ken Neville, former coach at St. Mary's. Bill Brown was the master of ceremonies.

Other honored guests were Rev. William F. Maloney, pastor at St. Aloysius; Rev. Charles Follet, assistant pastor at St. Aloysius; and Mr. and Mrs. W. E. Poly, PTA president.



New Style Afoot

For casual wear (at left) a butter-soft glove leather moccasin; for dress and informal wear (at right) a tapered-toe, two eyelet blucher in embossed broadtail kid leather.

Brown and white shoe (at left) is highly polished smooth brown leather and white buck; (at right) a low-cut, high-tongue slip-on in the continental manner, in grained and smooth leather.

Two new casual models for spring: (at left) a combination smooth and textured leather slip-on; (at right) a Kiltie wing tip in brushed leather.

Ivy League look for boys appears in oxford cloth dress shirts, teamed with narrow, solid-color knit ties and pants with back strap. Shirts display trend to short, button-down collar with back button. Box-pleated back is another Ivy League touch.

Little boy fashions this spring are junior chips off the Ivy League block.

For jackets, slim stripes in such rich color combinations as red and gray, brown and black and yellow and brown dominate the little boy scene. Close seconds are glen and madras plaids and manly houndstooth checks.

Whatever the pattern, jackets are Ivy-League-styled.

Teamed with the jackets are solid-color coordinated pants in short or long lengths, and often with back straps and buckles.

Bermuda shorts are popular, while striped knickers provide a new note.

A three-piece set, consisting of sports coat, gabardine slacks and a bulky pullover with continental collar trimmed to match the slacks, makes a particularly good-looking outfit.

Tweed is a favored fabric for little boys. Besides lightweight wools, many of the tweeds are cotton, silk or synthetic blends.

Gray pin-striped flannel and rayon flannel are two other handsome spring suitings.

Highlighting many garments is the silky look. Silk or rayon threads are woven through woolen, blended and cotton fabrics, giving a smooth, decorative appearance to little boys' spring clothes.

SCIENCE SCORES AGAIN

Scientists have now developed processes which permit woolen sweaters and sport shirts to be washed with a minimum of matting or shrinking. Just be sure to read washing directions carefully and never use boiling water.

Medium Tones Seen In Hats

Men's hats this spring will be mainly in medium shades. Grey and brown colors will be dominant although shades of green are due to enjoy more popularity than in many a year. Mixtures will challenge solid colors for the favor of buyers.

Many novelties have come into the hat fabric picture, including a "crushable" fur-nylon blend felt number, but felts will not be budged out of their Number One spot.

The recent highly favored "flattop" model, however, may have passed its zenith and may be replaced this spring by the variation of the pork-pie model with the pre-blocked crown known as the "tight telescope" and the new drop-tip felts.

Hat shapes are growing narrower and narrower, with brims no wider than 1¾ inches no longer considered a rarity.

COAT CUES

Back interest details make this season's crop of young coats especially attractive.

MEDFORD MAIL TRIBUNE—Wednesday, Apr. 3, 1957—SEC. 2

Handbags Are Good Matches For Costumes

Handbags are perfect costume coordinates this season. They're flat, for becoming wear with full capes and cape-like fashions, and soft in look, for harmony with softly pleated, tucked or draped costumes.

Shapes are simple, with the elongated square or elongated rectangle predominating.

Trim is planned to emphasize the shape. This means a simple frame in gold, silver or leather, and a simple closing. Small tabs, bands or insets of contrasting leather texture and trapurto work are also in order.

The range of leather textures for daytime handbags is wider than ever. There are deep-grained broadtail (especially new in spring colors), soft-grained or pebbly calf, fine fibered and petal-smooth calf with a high sheen and, for casual wear, an extra plushy reverse calf.

Pale beiges and grays are leading colors.

Easy Curves, Tapered Line Now Appear

It's a wonderful spring for suits, with many styles to choose from. Ease is the prevailing theme as the slim-line suit gives way to a softer, more fluid silhouette.

Jackets make use of rounded shoulder lines as they gently taper to waist length, giving only the merest hint of fitted curves to the silhouette. To carry out the balance, skirts make use of open pegged pleating, creating the rounded hip effect with gentle tapering to reed-slimness at the bottom.

Detachable capelets, a new and important role in spring suit fashions, add to the rounded grace of the silhouette. The influence of Diors magnet or "Dutch Boy" look combining top and bottom symmetry, is in evidence throughout the spring line of suits.

While the pegged, pleated or "Dutch Boy" skirt is one of this spring's most important suit-skirt fashions, the eased slim line in skirts is also obtained by the side draped skirt, the tunic skirt, and the panel back skirt.

On the fuller side, all-around knife or pressed box pleats, and the bell skirt featuring open, unpressed pleats play a significant role.

The emphasis on eased skirts calls most naturally for the short and — to retain the fluid grace of the silhouette — the oh, so lightly fitted jacket.

Other jacket lengths range from waist to hip-bone length. Styles include the bloused back, belted or tied at the waist, and the box jacket, as well as the semi-fitted silhouette.

Hinted at in fall fashions and now reaching fashion's forepoint are the suit capes, three-quarter length oval capes which replace the jacket, detachable elbow length capes which complement the jacket, and hip length cocoon and full

Shapes, Trims Give Distinction To Belts

Narrow belts in unusual shapes and wider ones with decorative accents add drama to spring outfits.

In the first category are belts with scalloped edges and belts dipping from high in front to low in back. Others are interwoven bands of leather.

Girdle-like belts in suede or kid, for evening, are often draped, tucked or pleated, and usually have giant jeweled buckles.

OFFER BEAUTY

Purse size containers of perfume now offer beauty of design as well as convenience.

Spring suburban living accents the importance of the sport jacket. Shown here, at left, is a soft brown and white wool tweed with side vents and slanted pockets; at right, an olive green, tan and white jacket in soft wool shetland, with four-button closing and tan suede trim on the flapped pockets.

APPLYING MURALS

"Do-it-yourself" wall murals are hand-painted on washable canvas. They're pre-pasted in back and ready to sponge and apply quickly.

PRETTY PINNINGS

Bar pins with pendants and floral-bouquet pins, set with pearls and pastel stones, look pretty for spring.

Men's Spring Shoes Show A Soft Glow

Men's shoes this spring are going to shine—but with a soft glow that comes from the leather itself rather than from polish applied to it. The gleaming leathers will harmonize with the luster in suits of silk and man-made fibers.

Lightness and trim lines in shoes will be highlighted in tropical leathers. These leathers which cut the weight of shoes by a third, made their first appearance last spring and their popularity reached landslide proportions by summer.

This year, since they fit in with the fashion trend by making possible a dressier, finer looking as well as more comfortable shoe, the are expected to be a practically unanimous choice in all types of men's shoes.

The gleam in the season's shoes will mean an emphasis on high-polished smooth leathers with a natural gloss accentuated by hand-rubbing. It doesn't mean, however, that textured leathers, which have won a deserved popularity, will now take a back seat. They'll be seen more than ever, both alone and in combination with smooth leathers, but they'll be soft-grained and will have a bright finish.

Tropical suedes, too, will continue in prominence. The suede and smooth leather combination for town may be rich and glossy or dull-finished for contrast.

All-suede casual and dress-casual shoes, on the contrary, will be rough-textured with a long, plushy nap.

In shoes for town, leading colors will be black, medium tan, teak brown, London tan, cardeo and dark maple. The mid-low oxford of three-to-four-eyelet height with a medium-broad toe will prevail.

Teener Shoes Go Elegant for Spring

Teen-age feet are going elegant for spring.

Flats and casuals, long favored as teen footwear, are newly shapely, and elegantly trimmed with all the finesse of an evening slipper.

Chief colors are the beige to brown range, with brilliant orange and green shades as well as black and white, alone or combined.

Softer leathers are featured, and leather linings are a part of the color effect. Often, the linings are brighter than the shoes.

Leathers range from punched pigskin, pebbly grained leather and suede for sportier types to glove-tanned leather, polished and slashed calf and patent—both smooth and newly textured.

Shiny black patent with white broadtail-grained leather looks particularly effective.

Toe shapes range from the slightly rounded to the longer "sharpened" toes to the squared-off one. There are flared demi-tongues, fringed kiltie tongues and fingered ones. Many flats have huge pilgrim buckles.

Wedges, too, have gone dressy, appearing in printed leather and white smooth or crushed leather with gold trim.

'Wash-Wear' Togs Bigger Than Ever

Wash-and-wear togs are expected to be bigger than ever in men's wear this spring and summer. Made in cords, seersuckers and suits resembling tropical worsteds, they will come in a wide range of light, medium and dark shades. Construction has been improved, and some blends weighing as little as 6½ ounces a yard are being used.

Newly introduced in this field are the "automatic wash-and-wear" suits for which it is said that the only effort needed to keep one trimly pressed and fresh is the energy it takes to place it in the automatic washer and modern tumble dryer. These suits are reported ready to slip on, neatly pressed, when they emerge from the dryer.

Attractive patio serves as family's outdoor living room. Smart, comfortable furniture, like this innerspring folding chaise lounge, and barbecue equipment, such as a portable smoke grill, are both important. Patio meals can be facilitated by preparing food in advance and storing it in freezer or refrigerator, in waxboard containers.

Outdoor living is easy and elegant, too, when it centers around a well-planned, thoughtfully-furnished patio. An enclosed court, a terrace or a corner of the lawn can serve as a patio, and the choice of furniture is equally flexible.

Styles range from classic to modern, with emphasis on comfort. Every type of outdoor furniture has its special advantages.

Spun aluminum tubular furniture, with plastic covered innerspring cushions or plastic webbing, offers the benefits of light weight and easy care.

Wrought iron furniture makes a more formal arrangement, and is also adaptable for indoor use. Wood furniture blends well with an outdoor setting. Tubular steel furniture is liked for its durability and contemporary design.

Furniture with enameled steel frames tends to modern design and usually has the added advantage of economical price.

Since barbecue equipment is equally varied, the type of cooking to be done should determine the choice. A simple rack over a charcoal bed is sufficient for hamburger and hot dogs.

Off-scrap such pieces spring fashion's favored. high-waisted look in this youthful, full-skirted shirtdress with pretty bow at collar. The cotton fabric, with attractive print-striped pattern, is processed for easy care, requires little or no ironing.

For good sports to mix and match are spring separates of cotton madras. Solid color sleeveless blouse and slim skirt can be worn together, are shown here teamed with full 'skirt' and scoop-necked blouse in a multi-color stripe—another good twosome.

Imported handbag fashion, handcrafted in Valencia, Spain, is of reverse calf with 18 carat gold-plated trim, full leather lining.

FOR TEEN-AGERS

For an "extra" hat, teens' spring favorite is a hat of printed silk, pique or organdy with a matching fabric scarf.

Length Is Varied For Junior Formals

Formals for juniors display variety in length as well as style this spring. There's new emphasis on floor lengths and in-between lengths.

Juniors like the new look of slim-shirted formals ending about eight inches from the floor. There's interest, too, in irregular hemlines, high waistlines marked with bands, roses and floating panels, and the back-moving overskirt treatment for slender formals.

Soft, lady-like styling in such light, airy fabrics as chiffon, silk organza lace, eyelet are favored.

Neater Necktie Due For Spring

The trend in neckwear toward more restrained patterns becomes more pronounced for spring, reflecting the renewed interest in patterned fabrics for men's suits and shirts.

Many light ground colors will be seen in new neckwear and there will be more interest in whites and silvers.

Reps and foulards will remain favorites with Ivy League partisans. Some bolder patterns will be available to complement some of the new dark suits.

Bow ties will enjoy their usual warm weather revival. The narrow shape will continue to lead the field with little or no indication of any widening.

Fabric interest will be in typical summer silks and cottons, and there should be more interest in blends of silk and cotton.

Westinghouse 12 cu. ft. Refrigerator

Double-duty beauty plus comfort is theme of this handsome bedroom. Bookcase bed, double size, can conceal a sizable library behind its tambour doors. Dresser-desk provides storage, desk and vanity space. The group is available in mahogany with soft beige finish.

Contemporary living room reflects design inspiration from India. Subtly striped, gold-touched carpet combines with elegant, arched lines of furniture.

Perennial appeal of early American design is captured here in a chair and sofa styled for a warm, friendly look. Both feature gently curved, heart-shaped backs and softly rounded arms. Foam rubber cushions provide comfortable seating.

Kitchen fashion note is a built-in snack bar. It's ideal for family breakfasts or late evening snacks. Good planning allows plenty of space for serving food, for small electric appliances — and for errant elbows.

Fabrics For Home Display Richness In Wide Variety

Home fabrics display spring's look of elegance, with new fibers, blends and synthetics adding both to their richness and quality of service.

Accent is on color and texture. Light, clear tones, beautiful flower shades and iridescent colors are the most popular.

Gleaming metallic threads add interest to an almost endless variety fo fabrics — linens, laces, ribbons, strawcloths, silks, burlaps, tweeds, cottons, sheers, blends and many more.

Floral prints are favored with new emphasis on fernery and leaves. There is a wide variety of contemporary patterns and provincials and many inspired by the splendor of the Orient.

Using fabrics as wall-covering is attracting new interest. There is also an increased use of matching wallpapers and fabrics, syn chronizing fabrics with carpets, and companion cloths for "mix-match" decorating.

DECORATE SHADES

Many window shades now have rich textures and decorative cord ings for both room and street sides. Those in multi-color weaves harmonize easily with a variety of room settings and drapery colors.

SLEEVES 'SO SOFT' IN NEWEST STYLES

Sleeves have "gone soft" this spring in keeping with the generally softer dress silhouette of the season. One favored treatment is the bloused or balloon effect, achieved through lantern shapes with fullness starting directly at the shoulder line.

FAVORED FASHION

Juniors favor Tyrolean separates in coordinated colors.

Simplicity Keynotes Headgear For Teens

Simplicity stars in teen hats for spring.

Lightweight straws, felts and synthetics flatter young heads in pastels, white or natural shades, and are seldom trimmed with more than a grosgrain band ending in a bow or streamer.

For dress-up, teen hats sometimes take a flower wreath or nosegay.

Sheath Lines Are Seen In Spring Shoes

The shoe sheath — newest fashion trend in women's shoes since high buttons went out of style—dominates the passing scene below the ankle this spring.

It's an artfully designed pump, closed up front and back, with tapered toes for a slender look, and it's crafted in every leather imaginable — smooth, suede, grain, patent.

Shoe colors are light neutrals such as dove gray, sandbark and nougat beiges; new pastels such as primrose yellow and bubble blue; or strong rich shades such as flight blue, orange and turquoise.

Touches of white add a special freshness.

Textures show brightness, for grainy as well as smooth shoe leathers come in lustered or highly polished finishes, and suedes are short-napped with a rich gloss.

Guild patent, newly grained or familiarly smooth, is much in evidence, in black or color, alone or in combination with shiny calf or kid, or colored suede.

Casual shoes and spectators have taken to leather linings in checkered, striped, swirled, floral and lace-like web designs of many colors brighter than the shoe itself.

Toes are pointed in many different manners. Flats may have a blunted point or a point like a wide "V."

Most daytime shoes have moderately pointed toes of varying length, while late day and evening shoes come to a long, elegant, sharpened point.

Shape of the toe helps determine that of the heels, with points of varying degrees taking the sharp stilette, the delicately rounded mid-heel or the low Louis.

Even stacked leather heels on flats are related to the elongated shape of the toe.

The classic pump silhouette is varied by such devices as tongues in petal shapes, laced "weskits," straps over the instep lower than last year), spat effects and the new low-cut designs on the toe.

Delicate To Elegant Is Range Of Jewelry For Spring Season

Jewelry displays two distinct spring looks, one light and delicate, the other bulky and elegant in the Edwardian manner.

Pastel colors are an important part of the delicate look. Mauve tints are popular, along with such flower shades as soft blue, pink, yellow and green.

Spring flowers inspire many new jewelry designs as well as colors, even to the use of more green foliage effects.

Also contributing to the delicate look are the increased use of crystals, frosty shimmering beads in iridescent tones, jet iris and aurora stones. White and gold combinations continue in popularity.

Rope necklaces are enjoying a revival and look especially new in crystals of varying sizes and combinations of clear and pastels.

Among the leading bulky and elegant styles are enamel bracelets shaped like wide cuffs, gold Edwardian-type chain bracelets and neckwear with pendant balls of flowers, chunky stones set in burnished gold and bead necklaces with center pendants and gold filigree.

COMPACT NEWS

Unusual design for compacts and cigarette cases features free-hanging stones that look light and airy and tinkle delicately in motion.

The new "silken look" is featured in this black-studded gray suit, in spring tropical weight blend of "Dacron" polyester and wool.

Just right for cool spring days is this lightweight, tailored topcoat in black and white wool herringbone. By Westbury.

Costume Comes Into Its Own As Important Spring Fashion

The costume has really come into its own as a top fashion this spring, and costumes with capes are the newest and most important of all. Short jackets of all types and full-length coats, often with short sleeves or sleeveless, offer other popular variations of the ensemble look.

Capes for costumes range from the very brief to seven-eighths three-quarter and full lengths. Of special interest are the cocoon shapes, narrower at the bottom than the top.

One of the most popular costumes is that of the semi-fitted jacket that just hits the top of the hipbone over a pegged-skirt dress. Another is the Eton or bolero jacket over a dress with printed bodice and cummerbund. The "complete look" through coordination of fabrics is highly favored.

In general, semi-fitted, short jackets over softened sheath dresses are the rule. Blouson jackets of all types are big favorites. Popular back treatments include tape backs and mock boleros. An interesting variation is the "capelero," a cross between the cape and the bolero. Other boxy jackets come just down to the waistline or flare out above it.

Many of the companion dresses feature empire bodices of silk or chiffon in colors or prints to match the linings of capes or jackets worn over them. This idea also extends to woolen coats lined in chiffon to match companion chiffon dresses. Another favorite combination is pastel chiffon shirtwaist dresses under coats of matching pastel tweed.

The influence of capes is seen in ensembles with jackets that look like capes, little capelets or cape-back jackets and cocoon-like wrap coats. Capes add a costume look to suits and companion skirts and blouses, as well as dresses. Blouse-back boleros and seven-eighth tunics are further interesting new versions of the costume.

Tom Murnane, Garry Moore Meet Their Match

THE MOORE THE MERRIER — That's our boy, Tom Murnane pictured with the 20 finalists in the Garry Moore Look-A-Like contest. Can you find Garry? No, he's not the guy in the third row, left end—that's Tom. Our boy saw double for three days and kept bumping into carbon copies of himself sporting bow ties and crew hair cuts.

Hilltopper Tom Murnane, 243 N. Burgess-av, competing against 3000 entries, was chosen winner of Garry Moore's Look-Alike contest last week.

Tom, who "looks more like Garry Moore than Garry Moore," compared notes with the TV comedian backstage and discovered they're exactly the same weight and height too.

Although Garry had thought another guy would win, Garry's wife chose Tom after viewing the 20 finalists on his morning show.

As winner, Tom was told to charge — if he could get by with it — $50 worth of merchandise at six stores at which Garry had charge accounts. Fast-spending Murnane charged $302.67 worth of expensive clothes which included a $67 sport jacket and a $27 pair of shoes.

Although trailed by a CBS public relations man and two photographers, no one detected the guise which had Tom busy signing autographs—in Garry's name—and thrilling one young sales clerk to the point of blurting out "You're Garry Moore aren't you?" Tom just grinned. With that she thrust her autograph book under his Moore-like nose and babbled "I watch you on TV every day!"

Mrs. Murnane said Tom liked Garry "very much." She admitted she was surprised when Tom won the "doubles" contest. "All the wives chose about five men they thought would win but I didn't

$135 Can Finance Nice Trip

Peter Cottontail's jaunt down the bunny trail means a lot of fun for the family . . . but it also means added bills for pop. Jelly beans and Easter bonnets don't come for free these days.

An unexpected $135 could finance the bunny's trip in fine style this year.

One lucky subscriber has just such an opportunity this week, for that big lucky jackpot insignia printed on an ad in one copy of today's Record, is worth $135 in "Confederate" money.

Ten $1 insignia, each worth one "Confederate" bill are also printed on ads in ten other copies of the newspaper.

"Confederate" money may be spent at face value with any merchant advertising in the current issue of the Record.

Any subscriber whose name appears on our records as having paid in advance or his carrier boy's route book as a paying customer is eligible to collect "Confederate" money. Employees or carriers of the newspaper and members of their family are excepted.

Newspapers containing lucky insignia may be redeemed at the Record office 2465 W. Broad-st before Saturday noon.

Vocal Students Plan Festival

West Junior High School's vocal department will present its annual spring music festival Apr. 12, 8 p.m. in the auditorium. Mrs. C. L. Blankenship, junior high vocal teacher, will be the director.

Two hundred and twenty-five students will participate in the program of folk music, Easter songs and a few popular numbers.

Program will include three girls' glee clubs, one boys' glee club, a junior choir, two girls' ensembles and one mixed ensemble. Terry Briggs will sing the only solo.

The public is invited. There will be no admission charged; a free will offering will be taken.

Fritsche Bid For Rezoning Turned Down

Application for rezoning of several acres just east of Joan Heights on Valleyview-dr, for housing under the 221 FHA program has been rejected by the city planning commission.

The request was made by Ernest G. Fritsche, developer.

Basis of the rejection was the fact that the lot sizes did not meet city specifications.

Homes to be built under this plan would be sold for not more than $10,000. It is anticipated that such a program would aid in the relocation of several families who must find homes due to the expressway program. The housing would be non-segregated.

It is believed that a reapplication for such zoning may be made to the commission soon.

This project would be east of the new Valleyview school.

Scout Leadership Certificates Presented To 65 Persons At District Training Session

LET'S SEE—Looking over some film they'll soon make use of, these scoutmasters appear happy over the gifts donated by the Hilltop Lions Club. Left to right: Lynn Fisher, Scoutmaster of Troop 136, Grove City; Richard Reser, neighborhood commissioner of the West Side; Loren West, assistant scoutmaster of Troop 29, West Park Methodist; Carol Johnson, Scoutmaster of Troop 131, New Rome; Harold Arnold, assistant district commissioner of Southwest District.

Sixty-five men and women were awarded leadership certificates following an all-day training session Apr. 6 under the Southwest District Training committee.

Including staff members, more than 75 persons attended the eight-hour session at Westgate Methodist Church. A 6:30 p.m. dinner was served by the Hilltop Church of Christ.

Through a program of lectures, literature, demonstrations, films, slides and other training aids, "leadership students" received basic training in either Cubbing, Scouting or Exploring.

Instruction is performed by the district training committee, one of seven volunteer district operating committees. The training committee comprises a chairman, appointed by the district committee chairman, and instructors, chosen from the ranks of unit leaders, commissioners and other volunteer scouters with experience and previous training.

Southwest district officers are: district committee chairman, Vernon Sanford; leadership training chairman, Robert Cassell; vice-president, Scouting, Joe Hutt; vice-president, Cubbing, Paul Schofield, and vice-president, Exploring, Bob Hickenbotham.

Although the training sessions are now being held only twice yearly, spring and fall, training teams are being organized to present complete basic training to leaders, committeemen and parents of each new unit at the time of its organization.

Training for new Cub Scout parents is offered on the first Monday evening of each month at Hillcrest Baptist Church.

In need of a filmstrip projector for some time, the committee was pleasantly surprised to receive one at Saturday's session. Donor was Jim Ford, chairman of the boys and girls committee of the local Lions Club, who presented the committee with a new 500-watt projector and a 30 by 30 portable screen.

District Scout membership includes 1700 boys, with 400 to 500 additional members joining each year.

SHOWING OFF—Hebert Cassell, right, leadership training chairman, seems pleased as he inspects the new 500-watt slide projector and 30x30 portable screen given to the Boy Scout training group. Jim Ford, left, representing the Hilltop Lions Club which donated the gifts, smiles his approval.

Armory To Be Built This Year

Work should get under way early this summer on the new Ohio National Guard Armory on Sullivant-av, it was indicated this week.

Word has been released to Gen. Leo M. Kreber from Congressman John Vorys that federal funds for the project have been approved.

The building, estimated to cost $400,000, will be financed with 75 per cent of the money coming from the federal government and 25 per cent from the state.

Bids on the project will be received in the very near future.

Earlier Copy Deadline Set

Earlier deadline dates for all church copy and pictures will be observed for the next week because of the larger volume of church news during the Easter season.

All news of church programs, cantatas or seasonal services, as well as pictures, must be received in our office by Saturday morning before our publication date

Two Westside Women Named To Head Local UA Campaign

Mrs. George Headley, 3872 Sullivant-av, has been named West area chairman for the 1957 United Appeal campaign, according to Mrs. Jack N. Taylor, chairman of the newly formed "residential division."

Serving with Mrs. Headley as vice-chairman will be Mrs. M. E. Sensenbrenner, 335 Guernsey-av.

Both women have worked with the United Appeal campaign before, Mrs. Taylor said. Mrs. Headley has been a worker for the past four years and Mrs. Sensenbrenner is a former worker and captain.

Formerly called the "women's division," the area of solicitation has been expanded to include the entire county area, rather than just within the city limitations. Solicitation in county areas has been covered in previous campaigns by the "county division," which was recently disbanded. Mrs. Taylor said she expects to have more than 7000 women recruited to cover the entire Franklin County area.

"The job of the women in this important campaign is certainly a challenge because of this change. However, it is a challenge that we feel sure we can meet more effectively than in the past," Mrs. Taylor said. In

Mrs. M. E. Sensenbrenner

th 1956 campaign, the "women's division" was one of three divisions going over its quota with a total of 101%.

Mrs. Headley has been active in parent teacher associations and is district vice president of the Columbus and Franklin County Council of Parents and Teachers.

Mrs. Sensenbrenner is closely associated with several United Appeal - supported services, among them the Camp Fire Girls, Goodwill Industries, and YMCA. She is also a member of the Federated Democratic Women, Columbus Symphony and Blue Star Mothers.

Women who want to work in this area on the campaign can contact either Mrs. Headley at BR. 4-8888, or Mrs Sensenbrenner at BR. 4-2060.

COMMITTEE HEADS NAMED FOR BEAN FESTIVAL

Despite the snow and sleet last Monday night, members of the Hilltop Business Association met for discussion of a summertime topic. It was planning time for the annual bean dinner scheduled this year for July 30 and 31.

Preparations for an even larger crowd than last year's record-breaking attendance included more rides, more concessions, more fun and most important of all—more beans! The 2000 pounds served free last year fell far short of the crowd's appetite.

Planned and staged by the 245 members of Hilltop Business Association as a "thank you" gesture for Hilltoppers' patronage of their businesses, the event is the community's annual festival.

P. A. Jackson of Hilltop Motors is chairman of this year's event and Clarence Story, vice-chairman.

Chairmen and member of committees are: advertising, E. H. LeFever, chairman, with George Eagle, Harry Graham and Adrian Bryant; bean tent, Chester Herbert, chairman., Hazel Roberts, George Painter; hot dog stand, Clark Biddle, chairman, Ed Ongaro, Walter Krueger, George Georgiton; ice cream and drinks, Al Stephens, chairman, Charles Weaver, Jr.

Group Sponsors Five Teams

BASEBALL BOOSTERS, Officers of the St. Agnes Athletic Association are completing plans to sponsor five ball teams this summer which will carry a total roster of approximately 75 area boys. The club has purchased uniforms for the teams and expects work to be completed by the middle of May on a new ball diamond. From left to right are George Dalton, secretary-treasurer; Charles Culp, athletic director; Jack McAndrews, president; and Jack Muir, vice president.

An active St. Agnes Athletic Association plans to enter five teams in district baseball leagues this summer.

The association kicked off the season last Sunday at the St. Agnes Social Hall where films of last year's All-Star game were shown and Hank Gowdy, youth director of the Columbus Jets, delivered a short speech.

Also on display at the jamboree were uniforms which have recently been purchased for the teams. Present plans of the group are to enter two teams in both the Mosquito and Junior Knothole League and one squad in the Babe Ruth loop.

Boys from eight to ten years of age are eligible to compete in the Mosquito circuit while the Junior Knothole division is limited to lads between ten and 13. The Babe Ruth League is open to youngsters between 13 and 15.

Approximately 75 boys are expected to try out for the teams according to Jack McAndrews, president of the association. "We have about 60 uniforms now," McAndrews stated, "And we would like to provide uniforms for the rest as soon as possible."

All the funds used to purchase equipment comes from money raised at dances which the club stages on the last Saturday of each month at the St. Agnes Social Hall.

Participation on the ball squads is open to any area boy. Any parent who has children interested in the league is invited to join the association. "This is not restricted to members of St. Agnes, "McAndrews added, "But is open to anyone interested in helping the youth."

To Entertain At Glenwood

Featured at the April Showers Dance at Glenwood Recreation Center, will be the Mello-Tones included in this talented quartet are: Pete Caborn, Terry Briggs, Bob Blackburn, and Jim McAndrews, who will sing popular tunes.

The dance will be on Apr. 12, from 7:30 to 10:30. All teenage and pre-teenage boys and girls are invited. Admission will be 15 cents per person.

Chairman of the affair is Sarah DeVore. Co - chairman is Elaine Newland. The dance is sponsored by the Teen Club of Glenwood. The proceeds of the dance will be used to buy Easter eggs for an orphanage.

Holy Land Visitors To Show Slides At Church

The last hours from Gethsemane to Calvary will be portrayed with slides by Clark and Laura Riker, 144 E. Kelso-rd, on Palm Sunday, 6:30 p.m., at West Park Methodist Church during Methodist Youth Fellowship.

Slides will be shown which the Rikers obtained last fall from the Sisters of Zion in Jerusalem. They are of excavations which reveal the actual floor of the Praetorium on which Jesus was tried before Pilate. There will be slides of famous paintings depicting the crucifixion along with others of the traditional crucifixion site and the Holy Sepulcher.

Mr. and Mrs. Riker spent four and a half months in the Middle East just before the Israeli drive on the Sufez Canal.

Their kodak was confiscated in Damascus, they lost a package of travelers checks in Cairo, had a wild ride on an Egyptian train, a shepherd in Judea rushed at them with a drawn dagger for taking his picture, cannons boomed all day before they crossed from Jordan into Israeli, a British soldier was killed a short distance from their hotel on Cyprus and they were stranded in Turkey four days without funds.

The Rikers spent two weeks in Jerusalem taking pictures and studying scenes of the crucifixion.

To Play Recital

Mrs. Clyde E. Moore, will play the last Lenten recital this Friday at 12:15. at Hilltop Lutheran Church. There is no formal service, and all are invited. Worshipers may come and go at any time during the service. Mrs. Moore is organist at Glenwood Methodist Church.

In Passing

By Esther Weakley

Spring's just around the corner;
I saw her yesterday
For such a fleeting moment
I could not bid her stay.

Her coat was bright and shining
And I heard her sing—
She looked just like a robin
But I know that it was Spring!

UNSOLVED MYSTERY

A boy with freckle-dotted cheeks and arms
Grins back at me from out the misted past.
His knickers (new or old) then brought me woes—
The buckle on one leg alone, held fast!
What magic did that small boy's pantaloons
Contain, that one leg always seemed to be
In place? (I have not thought, for many moons,
Of that unanswerable childhood mystery.)
What let the other leg escape the straps
Of tightened buckle? How I used to scold
His negligence, but he would purse his lips
And whistle off-key tunes, quite gay and bold.
Today I smile, remembering my frowns
As I recall that aggravating lad
Who wore one up; the other down.
And chuckle at annoyances I once had.

Thelma Allinder. Reprinted.

Miss Allinder, who lives in Nebraska, has endured floods, snow storms, droughts, et al., but composing room gremlins (another paper) added insult to injury recently, by mangling her poem. It is reprinted above as she wrote it (I hope!).

Mail—From a friend who lived in Chicago most of her life and recently moved to Washington: "May I brief you on why we wanted to live in this great West? We felt the daily pace was taking too much from us. Out here where we can look at mountains and the far expanse of space, we have a feeling of permanence. My husband and I stand and just look at the Rockies. We know they have endured for ages and ages and that the whims and wars of the world cannot change them. There is a nearness to God here that we never experienced before" . . . From a reader: "I read about your granddaughter's being nine. My granddaughters (twins) are nine too and I often wonder what this old world will be like when they are our age. I'm sure it will be a better place because these youngsters of ours are going to demand a settlement of some of these trifling squabbles, domestic and international. I believe in the youth of today and I believe they will solve their problems in a wiser manner than we have tried to solve ours—by war" . . . From my favorite shut-in: "We could hear reverberations from the Mardi Gras clear over here (Mobile, Alabama.) and it must have been a grand affair. The nurses here say that by next year I should be able to attend in person and not get my accounts second-hand. That is probably wishful thinking for they want to get rid of me. Or maybe it's spring hope springing from their hearts for me. I don't know. Speaking of spring, of course, we have gotten used to it down here—we have had it quite a while now."

Hold Teacher Career Week Program At Starling Jr. High

By Connie Conard

Mar. 27, the Future Teachers of America Club presented a program in recognition of the one hundredth anniversary of the National Education Association and in recognition of Teacher Career Week.

The assembly program featured a play concerning the educational and social work of Miss Jane Sullivant for whom the Starling Club is named. The play was written by the president of Starling's Future Teachers of America Club, Sue Maurey, with the assistance of Mary Ellen Richmond and the guidance of the club's advisor, Mrs. Helen Bauer. Mrs. Rothenbush and Mr Marsh directed the play. The role of Jane Sullivant was capably portrayed by Phyllis Carter. Others in the play were: Frank Kearney, Susie Switzer, Fred Strickler, and Connie Conard.

A quartet of girls under the direction of Mrs. Dunham sang two FTA songs entitled, "FTA Will Lead the Way" and "Our Inspiration."

The guest speaker was Mr. Don Harper, an assistant in Superintendent Eibling's office and a former pupil of Starling Junior High School. Mr. Harper gave a talk on "Opportunities of Education."

In conjunction with the program an exhibit of fiction books about teachers was assembled by Sandra Skinner. Sandra Burns prepared an appropriate bulletin board for the occasion.

A MEMORIAL SERVICE
Reported by Shirley Riddle and Barbara Grimm

A memorial service for Miss Helen Krumm, who died suddenly Mar. 20, was held in the auditorium Mar. 28. Phyllis Carter read the Scripture, John 24, verses 1 to 7. A poem, "We Shall Know," was read by Mr. Cheadle. Sue Maurey read a portion of "Thanatopsis." The Twenty-Third Psalm was recited by Miss Moler. Mr. Trinter made some statements on the valuable service Miss Krumm had given to the school. There were a few moments of silent prayer before dismissal.

As a memorial to Miss Krumm the teachers and students are contributing a sum to the Heart Fund.

"Columbus showed the nation the greatest thing in washing! Your neighbors starred with Betty Furness while conducting the famous Sand Test in their own homes for live telecasting by remote control. They showed the dramatic difference between Revolving Agitator and old-fashioned center-post agitator washing. There was no sand left in the Laundromat or the towels — but the center-post agitator machine left sand in the towels and in the machine."

Boosters Fete Falcon Cagers

LOOKING AHEAD—Franklin Heights Mentor Neal Howard gazes at the "crystal" basketball hoping to gain some insight on how his charges will do next season. Although his basketeers chalked up 17 straight defeats this season, the spunky Heights coach predicts better things are ahead next year. Standing around Howard (from left to right) are Jack Leffel, Ron Bellisari and Bob Pearse.

By Bill Rush

Something happened Friday evening at Franklin Heights High School which will never again occur at the school.

Awards were presented for the first time to varsity, reserve and eighth grade basketball letter winners. And the eighth grade basketball squad presented the school its first trophy.

Speaker at the event, sponsored by the Franklin Heights Booster Club, was Dick Otte, Columbus sports writer. He pointed out the bases of athletics — direction, desire and discipline. He concluded by saying:

"By combining all three, you're headed for some fine and great things here at Franklin Heights."

V. J. Ullman, executive head of the district, described the athletic facilities of the school which will soon be completed. They include a basketball gym, baseball diamond and a football stadium with facilities for outdoor track.

CONSOLATION CHAMPIONS — Co-captains Gary Gabriel (right) and Roger Carper admire the first trophy won by a Franklin Heights Athletic team which Coach Claude Mills holds. Heights won the consolation game of the Franklin County Eighth grade tournament to cop the award.

Varsity Awards

Varsity Coach Neal Howard presented letters to Larry Abbott, Robert Bapst, Ron Bellisari, Wesley Crockett, William Johnson, Rex Lamb, Richard Norris, Robert Pearse, James Shipley and Gary Watkinson. Harry Coulson and David Frost were given managerial awards.

All these lads were sophomores. Since this marks the first year for the new school there are no eleventh or twelfth grade classes.

Reserve letters were won by Robert Ames, Wendell Barker, Frank Cunningham, Howard Garverick, Eugene Hershey, Bob Johnson, Robert Kaderly, Leroy Schmidt, Ron Leach, Ron Leady, Jack Leffel, James McCarty, Edgel McClelland, Ray McDaniels and Terry Pugh. These awards were presented by Coach Ron Barnes.

Wins Trophy

The eighth grade team, which won the consolation game of the Franklin County Eighth Grade Tournament, was presented letters by Coach Claude Mills. Those who won awards were:

Roger Carper, Gene Chatman, Jim Coleman, Stanley Dawkins, Gary Gabriel, Larry Goodrich, Ken Green, Dennis Diebert, Bill Neff, Howdy Smith, Bill Hankison, Leroy Malone, Jim Matheny, Bob Moe, Don Smith, Ron Sopha and David Ullman.

Cheerleader awards, presented by Miss Elaine Daniels, went to Elena Fergison, Patty Graves, Carol Moore, Judy Murray, Nancy Schneider and Sue Stockham. Betsy Tichener, statistician, was presented a special award.

Two Teams Tie For Top In Pin Loop

Glenwood Recreation Center's Junior Bowling League was won by the Fearless Five and the Hill-toppers, both with 21-17 season records.

There was also a two-way tie for second place between the Headpins and Poodles. Each team had a 19-19 won-lost record.

Weekly honors for both the high team game and high team series were won by the Fearless Five with scores of 1361 and 720.

Don Creed rolled the high game for the week with a 200 score. The high series score of 554 was turned in by Gus Rose.

Achievement certificates for attendance, good sportsmanship, and bowling courtesy were awarded to Harold Pennington, Jim Blackburn, Gus Rose, Bill Hart, Jim Harrison, and Jack Harrison.

Construct Building

A permit has been issued to Nora Flint, 187 Eureka-av, to construct a one-story concrete block accessory building. Ernest Lucas is the contractor.

West Side Center Offers New Start For 'Forgotten Men'

Formerly the Toledo and Ohio Central railroad station, this 75-year-old building was occupied by the Volunteers in 1931, after being vacated for five years. "We had to literally shovel out coal and dirt when we moved in," sighed Major McDonald. "Moving in certainly involved a lot of hard work."

By Shirlee Monty

"A shoe is no good without ties. Neither is an individual much good without ties."

So spoke Major Harriet McDonald, director of the Volunteers of America, 379 W. Broad-st, who, for 20 years has been trying to help migrants, transients and alcoholics stop long enough to make those "ties."

At present, 45 men have stopped long enough to be classified as "relief workers," volunteers who work for low wages at jobs that help keep the organization functioning.

As permanent boarders and lodgers of the Volunteers, these men upholster, repair and paint furniture, bale papers, rags, books and magazines, drive trucks, cook, wait tables, clean, and clerk at the "opportunity shop" next door.

Recreation and relaxation consist of TV, a lounge, library, pool table, Saturday night movies, a monthly musical program and parties. The men still remember last year's gala Christmas party when long tables were set up in the lobby, candles and white cloths were rented, and more than 300 men in two shifts had a real old-fashioned Christmas dinner with all the trimmings.

"We even started collecting clothing months ahead of time so that every man who came to us for Christmas dinner could sit down to his meal in a clean suit of clothes," recalled Major McDonald.

Probably one of the most coveted positions the men strive for is assignment to the honor dormitory. Eligibility requires 45 days of sobriety and obedience to the rules of gentlemanly conduct at all times and 11 p.m. week night hours and 1 a.m. Saturday night hours.

In addition to room accommodations for 50 relief workers, the volunteers are able to handle 50 "guests," migrants, transients, alcoholics, under-privileged and parolees, who have found their way to this "helping hand."

Some Find Success

"We hope, of course, to keep them here, to get them established and then to place them in private industry," Major McDonald said. "And some of our 'graduates' have turned into successful businessmen in the city. That sort of success is what keeps you going and makes you feel it's worth it."

When a man first arrives at the Volunteers, he is interviewed by a social worker and his name is placed on file. If he has a family, his wife is lodged at the Salvation Army Women's Lodge.

The Volunteers is open 24 hours a day, with two watchmen on night duty. Other outside help includes two seamstresses, social workers, housekeeping and clerical help.

Many areas share in the support of the organization. Self-help comes from the "opportunity shop," opened in 1942 to sell renovated furnishings, clothing and other household articles, and the salvage collections, baled and sold by the men.

Low cost federal commodities, which keep the food budget down, are described by Major McDonald as a "godsend." Contributing agencies are the Community Chest, Council of Social Agencies and Franklin County Welfare.

Director Since July

Major McDonald, who became executive director on July 1, 1956, has brought imagination as well as a great deal of patience and understanding, to her post.

Her imagination is evidenced by the innovation a few weeks ago of a mimeographed Volunteers news sheet and by her plans for a Volunteer barbershop.

"So many men who come here need a haircut and we've been giving them money to get one. We've actually had men come to us with hair to their shoulders," the major remarked. "We already have a barber's chair that the men are fixing up and I'm sure I can always find a good barber among the men."

Her patience and understanding are in evidence, too, by her conviction that perhaps you can rebuild a man's body in two months but you can't rebuild his thinking in that time. But Major McDonald has faith that it can be rebuilt—that's why she's there.

Deskwork is always involved in directorship as evidenced in the busy office of Major Harriet McDonald, executive director of the Volunteers of America. With her is bookkeeper Joseph Jolsvay, Hungarian refugee who joined the Volunteer staff in July, only a week after arriving here. He was referred by the First Presbyterian Church.

A 1600-pound bale of papers is no easy lab to move around, even for three men. Transporting the bale to be "weighed in" are George Michael (left), foreman John Crommes (right) and Harry Covey (rear). At 6 cents per pound, one bale is worth $9.60. In terms of daily care for the men, a bale would provide for more than four figured at $2.20 per day.

Proving that women aren't the only ones with talent in the kitchen are cooks, (left to right): Luther Grimsley, Robert Barry, Tom Straight and Clyde Nagley.

Painting and repairing furniture is a major activity of the "rehabilitation program." Putting finishing touches on a barber chair to be used in a Volunteer barbershop are Lee Rockwell (rear) and Ariand Parks.

'Never Underestimate A Woman's Power' —

Viewers from all over the country . . . 22,000,000 of them . . . watched with interest Monday night as two Hilltop housewives teamed up with Betty Furness in the presentation of a Westinghouse Studio One commercial, direct from their homes. Using the split-screen technique, simultaneous pictures of Mr. Fred Asay and Betty Furness in the Asay home, and of Mrs. Michael Spangler in her home across the street, appeared on TV screens throughout the nation. An army of technicians, all specialists in their field, descended on the Hilltop days in advance of the show. Each detail from wiring and fuses to the installation of extra telephones was checked out. The 15-foot tower being inspected above by the Asay family, supports a micro-wave antenna which transmitted the picture to Lincoln-Leveque tower, where it was picked up and relayed. Sound was transmitted via telephone.

Look What Two Hilltop Housewives Started

Because two women claimed their ages-old right to challenge the credibility of a statement the Hilltop was the scene of a nation-wide television "first" Monday. Mrs. Michael Spangler, 3165 Whitehead-rd, wife of the Hilltop dentist, challenged the truth of Westinghouse's sand test commercial. Pictured above with her daughter, Becky, one of her four children, she discussed her doubts with neighbor, Mrs. Fred Asay.

Mrs. Fred Asay, shown above, right, with her husband, proprietor of Westhill Drugs, and daughter, Susie, had already resolved her own doubts about the honesty of the sand test claims by proving the test in her own washer. She talked to her Westinghouse dealer, Don Rice of Westgate Electric about the test. From that beginning events led to the appearance of Betty Furness in Columbus and the actual demonstration from their homes. The Asays live at 3176 Whitehead-rd.

Stevens To Mark 45th Anniversary

Mr. and Mrs. James Stevens 92 Central-av, will celebrate 45 years of married life Apr. 18 with a dinner at Grandview Inn as guests of the Columbus Jets Baseball Team.

Although blind for 24 years, Mr. Stevens has conducted a thriving real estate business at 1434 W. State-st for 38 years. As he put it, "I'm the oldest realtor this side of the river."

Sports-minded, he also maintains an active interest in baseball and football activities around the city.

Born and raised at 906 Bellows-av, he attended Avondale and West High Schools. He later played shortstop with several baseball clubs around the country.

Speaking from experience, Mr. Stevens believes in order to have a good marriage you should "both give in a bit." He added "some women should keep still—then there would be nothing to argue about."

He and his wife are members of the Indianola Methodist Church.

Bible Answers

1 Peter 3:15 ". . . be ready always to give an answer . . ."

ARE THE SCRIPTURES SUFFICIENT TO GUIDE US IN MATTERS RELIGIOUS? The scriptures give us the answer to this question. II Timothy 3:16, 17, "Every scripture inspired of God is profitable for doctrine, for reproof, for correction, for instruction in righteousness: That the man of God may be perfect, thoroughly furnished unto all good works." From this passage we learn the following: (1) The scriptures provide us with doctrine; (2) Reprove us; (3) Correct us; (4) Instruct us in righteousness; (5) Perfect us; (6) Furnish us completely unto every good work. Nothing besides the scriptures are needed. They are capable of making us perfect before God. From John 20:30, 31, we learn that the things written were capable of bringing to us eternal life. Since the scriptures are capable of bring all of this to us, we must then conclude that they alone are sufficient to guide us in matters religious.

When we come to this conclusion, we will naturally want to cast aside all creeds, disciplines, manuals, etc., which have been written by men. To follow the traditions of men is to worship in vain. (Matt. 15:9). You are invited to worship with the Church of Christ where the only thing taught is the Word of God.

Hear NEW TESTAMENT CHRISTIANITY ON THE AIR OVER WCOL, 1230 kc., 1:30 each Sunday afternoon. A free Bible Correspondence Course will be sent to you upon request. Your Bible questions for this column are invited.

Fluhart's Insurance Agency Shows Rapid 3-Year Growth

Mel Fluhart, a former musician with his own dance band, decided to go into the insurance business because "I was tired of being a martyr." He referred to the long hours of toiling on a bandstand

Mel Fluhart

with very little financial reimbursement.

It appears he made a wise move. Although a comparatively new agency, led by sedate but ambitious Fluhart, it has become one of the most successful insurance agencies on the Hilltop.

Sleek-appearing with a moustache, Mel graduated from West High where he sang lead roles in several operattas and musicals.

He attended Capital University for one year where he majored in music. He played the violin and viola in the Capital's concert band and played in the Columbus Junior Philharmonic orchestra.

After his discharge from the Navy, he formed his own dance band but didn't like it because of the "late hours" (although now he works some evenings until midnight). He decided to go into the insurance business which he's been interested in since a teenager. "When I was a kid in high school, I used to corner the insurance men and ask them questions," he recalled.

Mel's busy agency employs Russ Morgan (another Hilltopper) and Mary Cox as full-time agents. He has several solicitors working for him part-time.

Mel, who's been in the insurance business since 1949, admits it takes "quite a few years to know even part of it." His agency represents 20 insurance companies. "You've got to have all types and forms to provide something for everyone" he explained.

He's in favor of the new "package policies" now being offered and feels the public is more insurance-conscious because of the extensive public relations work being done by several insurance companies.

Mel never takes a vacation because he doesn't "like" them. He says they are a waste of time because "you can't build an agency sitting back and taking it easy."

Mel's agency is unique because the office stays open until 9 p.m. every night for the convenience of policy holders. He feels in order to compete with the shopping centers you must offer the same advantages they do.

Spring decorating plans call for black-topping the parking lot and enclosing the front porch with a modern glass front to add more space. He wants to stay in the same location at 2542 W. Broad-st because "I have room for expansion."

Mel is devoted to the Hilltop where he was born and raised. He describes it as a "sort of town in itself." He attributes this to the attitudes and loyalty of the people living there.

Mel's a member of the Hilltop Business Men's Association but admits he doesn't have the time to be as active as he'd like.

He lives in a second-floor apartment above the agency with his dog "Betz," a boxer who was the first dog he ever owned.

At one time he raised and bred 18 dogs but had to sell them because he lacked the time and space to care for them.

NEWS of WEST HIGH

SUCCESS STORY . . .

Mrs. Vinton McVicker, West High Grad, Realizes Ambition

(This is the second of a series of articles about successful West High graduates, written by the editor, Vera Jean Minicks.)

Meet Mrs. Vinton McVicker of Bad Godesberg, West Germany! It's quite a pleasure, for her vivid and interesting personality is revealed even in a letter sent from across the ocean.

Mrs. McVicker and her foreign correspondent husband, now residing in Germany, are associated with the Wall Street Journal. She has written several hundred children's stories, several hundred short stories, stories in McCall, Woman's Home Companion, and Cosmo.

"It didn't just happen. I was born that way," was her answer to the question as to how she entered the field of writing. Mrs. McVickers had planned to be an author from the time she was a child of four, lying on her stomach reading a book.

Mrs. McVicker was married while she was in college and "had three children as fast as I could," as she phrased it. She has a married son, living in Chicago; a married daughter living in Connecticut, and a married daughter living in Buffalo.

Mrs. McVicker is very proud of her family. Her first child was somewhat of a prodigy in a nice way, graduating from University High School at 14 and entering Smith that year, having a degree with honors at 17 and a master's at 18.

She speaks of her other daughter as a glamour girl and is quite proud of her son. Mrs. McVickers is learning to speak and read the German language, which involves a great deal of her time. She reads nearly everything published, especially historical books.

She believes that West High was very important in preparing her for her work. She was there during Otto Magly's time, and knowing him and dealing with him gave her qualities that she needed.

She also mentions the names of Alma Wirth, English instructor and Miss Flowers, French instructor, as being instrumental in encouragement for a career in writing. She made friends at West which she still has and cherishes.

Mrs. McVickers was associated with the Occident from its birth and held the position of assistant editor for some time. (Girls were just not allowed to hold the position of editor at that time). She held some class offices, participated in theatricals and played the piano.

All prospective writers should be inspired by this bit of advice. "Read—read—read. Work hard. Write all the time, if it's writing you're after."

Varsity Baseball Squad In Shape

After a month's practice, the Varsity Baseball Squad has begun to shape into a team (with no help from the weather.)

This year's team has four letterwmen returning from last year. They are Parker Brigner, OF; Dennis McDonald, OF; Steve Byerly, 2B; and Kenny Clapsaddle, OF-P.

Pitching staff will have Kenny Clapsaddle as a first rate starter along with Don Furry. Larry Goodin, Norm Reisman, Dick Ronchovsky, Paul Hosler, and Don Aldricks. Clapsaddle, Ronchovsky, and Reisman are all seniors. Don Aldricks is a sophomore and the rest of the staff are juniors.

The outfield will have Parker Brigner, Dennis McDonald, Bill Ingle, Gary Link, Bob Thornton, and Don Alder. Brigner, McDonald, and Link all played last year.

The infield, weakened by the loss of Ray Williams and Dave Randall, will be one of Coach Schmitter's problems. Fighting for the third base slot is Bob Dean, Larry Price and Mike Ingle. Fred Ash and Don Barnes are working hard for shortstop. Steve Byerly and Vaughn Kmmon (Captain) are competing for the Keystone sack. Dave Mack and Tom Armentrout are working out at the first base slot.

Gene Brobeck will probably be the starting catcher with Cliff Shoemaker and Dave Brady backing him up.

"Thanks to my husband's thoughtfulness...

"I will never leave to make life's hardest decision alone. Today my husband and I made it together when we selected indoor memorial space at Sunset Cemetery and Crematory.

"This way we know the expenditure is within our means. We have what we both want, and neither of us will ever be driven into a hasty selection when it can no longer be postponed. Nor do we or our children have to worry about the burden falling on them. Having settled this matter, both of us will be happier for the rest of our lives."

Mr. Home Owner!
The far-seeing investment of your savings in providing a roof for your family does not ensure full protection unless you have safeguarded it against the contingency of your untimely death.
At very little additional cost to your present mortgage payments, a Sun Life Mortgage Protection policy will, when you die, free the home of all indebtedness, thus assuring the family of that peaceful and secure possession you so carefully planned for them.

Eggs—Hundreds Of 'Em—To Fill Parks Saturday Morning

An anticipated 4,000 Hilltop youngsters, ranging in age from four years through third grade, will take part in the annual Hilltop Easter Egg Hunt and Party at 9 a.m. Saturday at both Glenwood and Westgate Parks. Hidden eggs will net prizes, ranging from five cents to five dollars, for the lucky finders.

This marks the 12th Easter Egg Hunt under the auspices of the Hilltop Community Council and the seventh in cooperation with the Ohio State Journal. The Hilltop Kiwanis Club has again adopted Glenwood Park as its special project under the direction of Roy Von Ins, chairman of the club's youth committee. Westgate Park is again a project of the Hilltop Lions Club, with participating Lions working under the direction of the boys and girls committee, chairmaned by Jim Ford.

Parents and children alike were asked by Wayne Bruner, HCC general chairman of the proceedings at both parks, to note that the age limit has been drastically reduced from past years. Youngsters beyond the third grade will not be admitted to either park as participants.

Programs of children's movies will be presented at both parks in addition to the hunts.

To Hide 610 Eggs

At each park, 610 [illegible] eggs will be hidden in the early post-dawn morning by the Kiwanis and Lions Clubs. Coffee and doughnuts will be served to these volunteers by PTA women's committees from surrounding schools. Coffee will be furnished by the PTA's and doughnuts by the Hilltop Community Council. The women will also assist in the program, maintaining discipline and coducting the hunts.

Two hundred and fifty of the eggs at each park will be furnished by the Journal. One of these will be a gold-dyed egg and will bring $5 to its lucky finder. Ten silver eggs will be redeemed at $1 each; 30 red eggs at 50 cents each; 90 blue eggs at 25 cents each, and 150 green eggs at 10 cents each. Cash for these redemptions will be supplied by the Journal.

In addition, both the Lions and the Kiwanis will supply 300 hard-boiled eggs dyed pink and furnish the funds for redeeming them at five cents each.

The Hilltop Kiwanis Club will

Mrs. Belle Boucher, 89, formerly of 37 Pasadena-av, died in her sleep Apr. 17, at the home of a granddaughter, Mrs. Joseph Smith, 591 Townsend-av. Mrs. Boucher had been a resident of New Rome since 1922 until two years ago, when she moved to the Townsend-av address.

During her lifetime, Mrs. Boucher had been a correspondent for The Hilltop Record, Madison Press, Hilliards News, West Jefferson Star and at the time of her death, was still collecting and submitting news each week to the Grove City Record and Columbus Citizen.

She is survived by two daughters, Mrs. Eva Sager of the Townsend-av address and Mrs. Mildred Pracht of Binns-blvd; five grandchildren; 11 great-grandchildren and two great-great-grandchildren.

Neighbors and friends contributed to a flower and tree fund as a memorial to Mrs. [illegible].

Funeral services were held Saturday, 10:30 a.m. in Norris Funeral Home, Grove City, with burial in Pleasant Cemetery, Mt. Sterling.

New members are especially invited to attend in order that they may become acquainted.

Two Hilltoppers Bitten By Dogs Last Week

Police are still searching for the dog that bit 46-year-old Thomas E. Hartshorn, of 165 Binns-blvd. He was bitten on the left leg by a white pointer on the corner of Olive-st and Powhatan-av. Mr. Hartshorn was one of four who were bitten by dogs last week.

Seven-year-old Gary Anderson, of 377 S. Harris-av, was also the victim of a dog bite. He was bitten on his right thumb at 1 p.m., near his home.

Although police are still looking for the dog that bit Gary, the owners were to have been notified Saturday of the attack.

County health authorities warned of a possible dog quarantine if the attacks persist.

Acoustics To Be Sharpened At Westgate Shelter House

Teen-agers who step on their partners' toes at this summer's youth dances at Westgate Shelter House will not be able to use the old excuse that they couldn't hear the music. Thanks to the Hilltop Lions Club, the poor acoustics in the shelter house will be a thing of the past.

The boys and girls committee of Hilltop Lions Club has ordered a complete sound and public address system which will be presented to the Youth Services Council, according to chairman Jim Ford. It includes a microphone outfit, amplifier, turntable and two public address speakers.

The Youth Services Council is an affiliate of Hilltop Community Council and is comprised of 14 teen-age clubs from West High School and local churches. Its adult advisors include representatives from Girl and Boy Scouts, Campfire Girls, YMCA, YWCA, and the city recreation department. It is managed and governed, however, by the youths themselves, according to Mrs. H. C. Booth, chairman of the adult advisors.

Twelve Friday night "round" dances and 12 Tuesday night square dances have been scheduled for the coming summer vacation. Fabrics Give Feminine Air To Millinery

Softness of line and texture are the keynote of spring '57 hats. Even the most symmetrically balanced hats often have a flattering lift above the brow, a softly cushioned edge or an unrolled brim. The toque shape, with its prominent crown, is prettily rounded, tapered, dimpled or draped.

The profile hat, with a dashing tilt of crown or a deep side dip of brim recalls the glamourous styles of the 30's.

Look Feminine

Fabrics contribute a feminine, milliner-made look. Chiffon, georgettes, organdy and "souffle straw (a silky, sheer, ribbony braid) are intricately tucked, pleated, puffed and draped to make both small and larger hats look light and lovely as clouds.

Fine felts, supple as fabric, vie with real and artificial silks. Straws have a spongy softness and transparancy in designs that interweave flossy souffle with yarn, ribbon, beads and braids.

Transparent hairbraid combined with straw has a frothy depth, while basketweave straws are often latticed with light. Balibuntals and linen-straws are intricately tucked and shirred, and even fine-sewn straw has a delicate three-dimensional air.

Add to Flattery

Spring flowers of fine silk and sheers further the light and feminine look, and the complexion-smoothing softness of lacy veiling often adds the finishing touch to flattering spring hats.

Trimmings are intricate, yet inconspicuous. Velvet ribbon, novelty ribbons striped with straw or satin, tiny tufts of feathers, touches of embroidery and jewelled motifs appear in matching or contrasting hues.

Hat colors are carefully coordinated with spring fashions.

Caution is a most valuable asset in fishing especially if you're the fish.

Slender, But Soft, Is Theme Of New Spring Fashions

Fashion relaxes and glorifies the slim line for spring '57. Attractive shaping and softened slenderness characterize the newest styles, pointing up the importance of a look that's sometimes called "pretty," sometimes "lady-like" and then again, "feminine." By any name, the look is flattering, and this season it's the height of fashion.

Many significant trends emerge as ways of expressing this look. Outstanding — and charming — is the cape, which has just about taken over the fashion world. Dresses, costumes, separates, suits, coats and toppers display the cape influence in many forms.

There are cape-like flounces at the shoulder line—flirtatious as the flutter of a fan — cape collars, detachable capelets, cape jackets, and of course, three-quarter and full-length capes. Cocoon shapes look newsiest.

Pretty evidence of the trend to gently feminine fashions is seen in the spring liking for shirtwaist dresses. News here is the softening of classic styles—through the use of lantern-shaped sleeves, for example.

Appearing as another major trend is the softened skirt. Usually somewhat longer this spring, skirts move away from severe sheath lines to the pegged, pleated, draped or paneled silhouette.

In the "Dutch Boy" of Flemish skirt for suits and dresses, pleats or gathers provide easy roundness just below the waistline and taper in at the hem.

Empire Line Lowered

Other attractive ways of developing skirt interest are tunics, harem hemlines, back or front fullness and attached, curving panels.

New interpretations of the basically-slim line provide a variety of bodice treatments. Rounding the top of the silhouette, for symmetry with easier skirts, is frequently achieved by the use of dolman sleeves.

The blouson, or bloused top, looks refreshing in combination with bloused sleeves, and bloused or pleated backs continue important.

The high empire line is now lowered, placing the "artificial" waist at a point two or three inches above the natural waistline. Sometimes both the modified-empire and the normal waist are defined.

Waistlines are marked by belts, cummerbunds or draping.

Necklines Softened

Necklines, too, get soft treatment. Scoops and beaus are gentled by gathers, draping or bows. The high-in-front, low-in-back neckline often has a bow or streamer as a finishing touch.

Spring's varied styles are interpreted in a wealth of fabrics and colors. Significantly for the femininity of fashion, silk exercises a great influence, appearing in many textures and many blends.

Soft and drapable, too, are wools and knits in tissue weights. Tweeds often have an open, almost lacy weave, and even the boldest of tweeds take the lady-like touch of demure pastel colors.

GO NAUTICAL

Nautical themes are liked in junior spring fashions. Examples are middy blouses, much use of navy and white, braid trimmings and sailor shoulder bows.

A dull person is one with too much polish.

Hey . . . Doc! You can buy me and my Brother and Sister Bunnies . . . ALIVE . . . for the youngster's Easter present!

This marks the 12th Easter Egg Hunt under the auspices of the Hilltop Community Council and the seventh in cooperation with the Ohio State Journal. The Hilltop Kiwanis Club has again adopted Glenwood Park as its special project under the direction of Roy Von Ins, chairman of the club's youth committee. Westgate Park is again a project of the Hilltop Lions Club, with participating Lions working under the direction of the boys and girls committee, chairmaned by Jim Ford.

Parents and children alike were asked by Wayne Bruner, HCC general chairman of the proceedings at both parks, to note that the age limit has been drastically reduced from past years. Youngsters beyond the third grade will not be admitted to either park as participants.

Programs of children's movies will be presented at both parks in addition to the hunts.

Acoustics To Be Sharpened At Westgate Shelter House

Teen-agers who step on their partners' toes at this summer's youth dances at Westgate Shelter House will not be able to use the old excuse that they couldn't hear the music. Thanks to the Hilltop Lions Club, the poor acoustics in the shelter house will be a thing of the past.

The boys and girls committee of Hilltop Lions Club has ordered a complete sound and public address system which will be presented to the Youth Services Council, according to chairman Jim Ford. It includes a microphone outfit, amplifier, turntable and two public address speakers.

The Youth Services Council is an affiliate of Hilltop Community Council and is comprised of 14 teen-age clubs from West High School and local churches. Its adult advisors include representatives from Girl and Boy Scouts, Campfire Girls, YMCA, YWCA, and the city recreation department. It is managed and governed, however, by the youths themselves, according to Mrs. H. C. Booth, chairman of the adult advisors.

Twelve Friday night "round" dances and 12 Tuesday night square dances have been scheduled for the coming summer vacation. Teen-agers from throughout the city are welcome at the dances which are chaperoned by adult advisors and are the only organized teen-age dances held during the summer on the Hilltop. Small admission fees defray the costs of orchestral groups and other expenses. The dances have been held annually since 1954.

Light Ideas Lead In New Luggage, Travel Fashions

Both travel wear and travel gear take to the heights of fashion this season, with the feminine traveler finding that her luggage as well as her apparel is "light in weight, light in looks."

Fashions that are light in color go along with the spring preference for pastels, and are newly practical for travel because of the ever-increasing number of easy-care cottons, synthetics and blends.

Lightweight fabrics find their place in travel wear, too, for his is a season when silks, silk-look materials and tissue-weight woolens have great popularity.

Packable knits, separates, suits and ensembles all are important in the travel picture.

As for luggage, designers in this field have thought in terms of light-looking, streamlined bags for travelers. Corners have been rounded off and heavy reinforcements replaced by newer body materials.

For a well-coordinated look, luggage coverings are in keeping with current fashions and colors.

The garment carrier, long a favorite for light weight and easy packability, shows many new features. For example, carriers are now equipped with stand-up frames which prevent the bag from slumping over when it stands alone. And the frames usually fold down to small size for storing.

Matching cases without the fold-down feature are often constructed so that each successive size fits inside its larger companion, to save storage space.

In addition, outside accessory pockets eliminate fumbling through the entire bag to find a wanted blouse or a pair of shoes.

Fabrics for garment carriers run a full range, including those which match automobile upholstery coverings.

Hardside luggage is establishing itself as a fashion accessory. An almost unlimited selection of colors is now possible in leather, plastic or treated materials which can take a travel beating and show no scars.

Luggage of every type from train case through trunk size, has been designed for lighter weight in many materials.

Lingerie Follows Eased, Full Lines

In keeping with fashion's eased slim line and fuller silhouette, spring lingerie features both slim slips and bouffant petticoats, and in both cases, fabric emphasis is clearly on softness.

Lightweight crepes and tricots are favored for their ability to adapt to the smooth flow of the over-all silhouette.

Cotton blends and silk blends, both shape-holding and non-clinging, play an important spring role for under-suit wear.

With fashions getting longer, lingerie too is turning its way downward. Under-cover ideas include snip-off hemlines and tucks that can be let out.

Soft violet tones and pearl grays, both beiges, whites and pinks are spring lingerie colors.

Sleepwear runs the gamut from the feminine and frilly, with eyelet embroidered bodices and pretty jabot ruffles, to the classic, with Ivy League influences evident in stripes and button-down collars.

Robes range in length from short to long, with the shortie duster heading the list.

TRAVEL WELL

Especially good for travelers are the many colognes and toilet waters now available in aerosol containers which are unbreakable and easy to use.

Influence Of Cape Seen In Spring Coats

Whatever the color of fabric, and whether the style be slim, or full, coats generally are cut on easier lines, for more wearability over spring's newly rounded dresses and suits.

Most importantly, this is a season when a coat is often a cape—or at least, cape-conscious in design. The full, full coat comes into its own, either as a real cape, sleeveless and with armhole slits in its graceful folds, or as a pyramid shape with cape sleeves or back.

The real cape appears in straight flowing or cocoon designs, in topper to full lengths.

Slim coats, too, show the pretty and prevalent influence of the cape. Wrap or clutch styles look relaxed but regal with cape-effect dropped shoulder lines or cape-like dolman sleeves and full backs.

Make Collar News

Betwixt-and-between coats, neither slim nor full, get new impetus from the cape. These coats have flat, slim fronts, often with little neckline ties, and cape fullness in the back.

Then, of course there's the cape-collar, topping a full coat or lending width to many an otherwise slender silhouette. Conversely, full-flaring capes sometimes have only the daintiest and tiniest of collars.

Continuing in the news is the coat with high-placed detail, front or back. Generally, the back of the coat gets the softening detail, while the front stays slender.

Noted for Daring

Blousing, panels, martingales, pleats, yokes and V seams all help to provide back interest and ease.

Coat fabrics and colors are notable for the way they combine a demure look with a dash of daring—for instance, icy tweeds, pale pastel in hue but boldly plaid in pattern.

It's a cape; it's a coat—it's a delightful combination of both. This version of spring's cape story, in lovely lilac Scottish tweed, is adapted from the original Lord Inverness style of the 19th century. Under the full cape, the coat follows a slim line to the side-slit hemline.

Colors Make Spring News In Carpeting

The sense of elegance comes from the way a room looks at first glance, and then from how comfortable it is to live in. New carpets seem to be designed with both thoughts in mind.

New colors and patterns give the handsome first impression. Softer, richer texture provides the deep comfort. Behind-the-scenes practicality is also built in, for continuing good looks.

Color is the big carpet news. Brilliant jewel tones — sapphire, topaz, aquamarine and pearly white — provide exciting color on the floor.

More subtle, but lending a sophisticated decorating air, are muted tones such as olive green, nutria, a new rose hue and sandalwood.

Just as interesting are color mixtures in tweeds or, bolder combinations. Usually, two neutral tones are sparked with a bright accent color, so that the carpet can serve as a coordinator for the room decorating scheme.

For even easier color-planning, many fabric and carpet manufacturers have planned their new products together, so that the colors naturally go with each other.

In texture, the trend is toward a hand-loomed look.

Numerous new tweeds, sturdy textures and tight weaves resist signs of traffic and soil.

SOAP AND SUITCASE

A sure way to keep your clothes from developing a musty smell when you are traveling is to place an unwrapped bar of soap in your suitcase.

NEWS IN PLASTIC

Vinyl plastic molded to resemble a brick or stone wall can be used as wallcovering or on room dividers, indoor planters and fireplace areas.

Rainy Day Wear Is Bright, Fashionable

It's easy to look fashionable in spring showers this year, with practically every fabric from silk to worsted jersey getting the waterproof treatment. Colors for raincoats, look new and fresh, especially in pretty pastel tones.

The very popular full-length cape styles are a natural for rainwear, and many have hoods for extra fashion plus extra protection.

Another favorite new style, which looks just as good when the sun is shining, is a deep-pocketed town coat variation of the Chesterfield silhouette.

FOR PACKING

Practical packing material is transparent, self-adhering plastic film. It keeps articles separate and easily visible.

Acoustics To Be Sharpened At Westgate Shelter House

Teen-agers who step on their partners' toes at this summer's youth dances at Westgate Shelter House will not be able to use the old excuse that they couldn't hear the music. Thanks to the Hilltop Lions Club, the poor acoustics in the shelter house will be a thing of the past.

The boys and girls committee of Hilltop Lions Club has ordered a complete sound and public address system which will be presented to the Youth Services Council, according to chairman Jim Ford. It includes a microphone outfit, amplifier, turntable and two public address speakers.

The Youth Services Council is an affiliate of Hilltop Community Council and is comprised of 14 teen-age clubs from West High School and local churches. Its adult advisors include representatives from Girl and Boy Scouts, Campfire Girls, YMCA, YWCA, and the city recreation department. It is managed and governed, however, by the youths themselves, according to Mrs. H. C. Booth, chairman of the adult advisors.

Twelve Friday night "round" dances and 12 Tuesday night square dances have been scheduled for the coming summer vacation. Teen-agers from throughout the city are welcome at the dances which are chaperoned by adult advisors and are the only organized teen-age dances held during the summer on the Hilltop. Small admission fees defray the costs of orchestral groups and other expenses. The dances have been held annually since 1954.

Leather Plays Important Role In Spring Style Scene

Softer and lighter, artfully draped, tucked and pleated, leather appears prominently on the spring fashion scene.

Full length coats, short jackets and car coats are crafted in a variety of ingenious fashions from both suede and grain leathers.

Brand new this spring are smart leather capes, as well as a cape-like appearance for coats, achieved by gentle fullness falling in gathers from a yoke, slant pockets and scarf-like ties.

Soft, velvety suede and smooth capeskin and cabretta shard popularity as well as versatility. Suede is no longer exclusively a country leather, nor are smooth leathers confined to the city. Both are designed for either city or country wear.

New leather shades in the beige to brown range are in the lead, and make effective tone-on-tone combinations with knit, silk and linen.

There's interest, too, in bright colors such as hyacinth, peacock, bayberry and jasmine, in suave black and snowy white and in black leather with white leather piping.

Black and white contrasts, however, are usually achieved in large areas rather than by trim. For instance, a white cabretta jacket is lined with black tweed and has matching tweed skirt.

The "half-and-half" idea appears in leather coats, with front of smooth leather and back of suede in the same or another color.

Leather jackets fill more functions than ever. One new model, copied from the Italian motorcycle jacket, is teamed with Jamaica shorts. Others, for after-five wear, are trimmed with mink, fox or rhinestones.

'Angel Air' Wins Favor Among Season's Brides

The girls who marry this spring can look as ethereal as angels in airy gowns with full skirts, short sleeves and many pretty trims and back details.

The windswept back look and the domed silhouette with back and side fullness are the most popular. While the empire line is still a favorite, many of the new gowns feature peaked or basque bodices with gently rounded V lines.

Back interest details include intricate cuts of material that unfold like huge petals, cartridge pleated back folds, perky butterfly bows, trailing panels, ruffles, drapery and sashes.

Adding to the airy look are a wide range of lightweight, fragile fabrics such as, filmy organdies, chiffon, lace, silk bombazine and taffeta. One of the newest is a sheer tulle completely reembroidered to resemble an allover lace.

Reminiscent of the romantic Old South are gowns of organdie and eyelet batiste with delicate floral embroidery. Scattered lace appliques and set in bands of chiffon or satin are other favored trims.

A very romantic look is achieved through such fashions as gowns with wide tiers, pleated satin midriffs, floral sprays, delicate beading and shirred or smocked chiffon empire bodices.

Pleats, Drapes To Round Out Spring Dresses

Gently does it for dresses this spring. The slim sheath silhouette is still a favorite, but now it is softer and rounder with a new look of ease in the waist-through mid-riff area.

One of the biggest influences on this look is the "Dutch Boy" or peg-top skirt. Most often achieved by darts or tucks at the waist, it is sometimes carried through to full scale pleats.

Draping offers another highly favored way to ease the slim skirt. Skirts are draped to side or back, eased with harem hemlines or panels, draped with swags or modified versions of the bobble hemline treatment.

For more tailored dresses, pleats are preferred to drapery. There are many variations including pegged pleats, straight-up-and-down pleats, released pleats in sections and wrap-arounds.

There are also many pretty full or skirted styles, such as dresses with darts, pleating and back fullness.

Many empire-mood dresses have self-bands or pleated cummer bands that circle the waist and lower part of the midriff. Often a high waistline is suggested by tabs or bows.

Bloused-top dresses, with belts at the normal waistline, and shirt-waist styles both contribute to the increasing importance of belts in spring fashion.

The women will also assist in the program, maintaining discipline and coducting the hunts.

Two hundred and fifty of the eggs at each park will be furnished by the Journal. One of these will be a gold-dyed egg and will bring $5 to its lucky finder. Ten silver eggs will be redeemed at $1 each; 30 red eggs at 50 cents each; 90 blue eggs at 25 cents each, and 150 green eggs at 10 cents each. Cash for these redemptions will be supplied by the Journal.

In addition, both the Lions and the Kiwanis will supply 300 hard-boiled eggs dyed pink and furnish the funds for redeeming them at five cents each.

Hall Ridge Club Dance Date Set

Hall Ridge ladies and Hall Ridge men's social clubs will share in making the next monthly social affair a big event. The affair will be a round and square dance to be held Apr. 27, 9 p.m. at K of C Hall, W. Broad-st at Burgess-av.

New members are especially invited to attend in order that they may become acquainted.

Two Hilltoppers Bitten By Dogs Last Week

Police are still searching for the dog that bit 46-year-old Thomas E. Hartshorn, of 165 Binns-blvd. He was bitten on the left leg by a white pointer on the corner of Olive-st and Powhatan-av. Mr. Hartshorn was one of four who were bitten by dogs last week.

Seven-year-old Gary Anderson, of 377 S. Harris-av, was also the victim of a dog bite. He was bitten on his right thumb at 1 p.m., near his home.

Although police are still looking for the dog that bit Gary, the owners were to have been notified Saturday of the attack.

County health authorities warned of a possible dog quarantine if the attacks persist.

State School, Orphanage Kids To Enjoy Egg Hunt

Children at St. Vincent's Orphanage and Columbus State School will enjoy an Easter egg hunt, thanks to Communications Workers Local 4310.

A Saturday hunt will be held for more than 300 State School children, while the 70 youngsters at St. Vincent's will hunt their eggs on Easter Sunday morning. Prizes will be stuffed toys and pen and pencil sets.

Acoustics To Be Sharpened At Westgate Shelter House

Teen-agers who step on their partners' toes at this summer's youth dances at Westgate Shelter House will not be able to use the old excuse that they couldn't hear the music. Thanks to the Hilltop Lions Club, the poor acoustics in the shelter house will be a thing of the past.

The boys and girls committee of Hilltop Lions Club has ordered a complete sound and public address system which will be presented to the Youth Services Council, according to chairman Jim Ford. It includes a microphone outfit, amplifier, turntable and two public address speakers.

The Youth Services Council is an affiliate of Hilltop Community Council and is comprised of 14 teen-age clubs from West High School and local churches.

Its adult advisors include representatives from Girl and Boy Scouts, Campfire Girls, YMCA, YWCA, and the city recreation department. It is managed and governed, however, by the youths themselves, according to Mrs. H. C. Booth, chairman of the adult advisors.

Twelve Friday night "round" dances and 12 Tuesday night square dances have been scheduled for the coming summer vacation. Teen-agers from throughout the city are welcome at the dances which are chaperoned by adult advisors and are the only organized teen-age dances held during the summer on the Hilltop. Small admission fees defray the costs of orchestral groups and other expenses. The dances have been held annually since 1954.

Opulent Materials, Graceful Designs Assure Look Of Charm, Luxury In Home

Elegance themes spring's array of fashions for the home—and appropriately so. Today, people of every age are dressing up more, for casual as well as party occasions; hence, modern life practically demands that homes, too, should be dressed up, for family living as well as company entertaining.

Happily, "elegant" doesn't mean "ornate" or "elaborately adorned." Spring's elegant — and charming —home fashions are basically simple. A richer, more luxurious look is achieved not by fussy details but by opulent fabrics and colors, fine woods and graceful designs.

The luxury look, incidentally, isn't a matter of price. Increasingly, medium and low priced furnishings offer quality materials, good construction and design.

In furniture, the Provincials, both European and Early American, lead the trend to elegance. Modern joins in with such home fashions as the long, long sofa and sectionals in many new versions.

Have More Comfort

Even the practical convertible sofa takes to elegance, in modern or Provincial styling and lovely upholstery fabrics. Design-wise, the newest convertibles now look more graceful and "sit" more comfortably, because awkward high-off-the-floor construction has been abolished.

Constant improvement goes on in with the development of stuffing materials, so that sofas, easy and occasional chairs have a luxury feel as well as a luxury look.

Decorative fruitwoods and warm, rich mahogany and walnut are notable among the woods used for new spring furniture.

Touched with Gold

A feeling of elegance prevails, too, in curtains and draperies, carpets, linens and tableware. Evidence of this is the popularity-gain of lace curtains and tablecloths, and the frequent use of metallic threads for an opulent touch of gold or silver in carpets and upholstery.

The home that's decorated according to this spring's ideas will not only look as if it's made for leisurely living, it will provide leisure, too, because it will be easier to keep clean and attractive.

"Dust catchers" are out. Contemporary furniture, though softened in appearance, retains its clean-cut lines, while the decorative details of traditional furniture have been modified in favor of elegant simplicity.

Elegance plus easy care also applies to home fabrics. Upholstery treated for stain resistance and quick spot removal is one important example.

Patterns To Star In New Shirts

Patterned shirts will enjoy a big push this spring, according to the American Institute of Men's and Boys' Wear.

Included in this group that will help men to be dressed up and dressed right will be some stripes —many with a bold, bold look — and checks and neat printed patterns such as pin dots.

Interest in the more elegant shirts will be confined chiefly to evening wear, not so much in the pleated bosoms as in the ruffled variety.

Although white will keep its high standing, the heavy promotion of patterned shirts should give a lift to solid colors, primarily light blue.

There will be a few new collar styles, but there should be enough variety to satisfy any man or woman shopper in the short point spreads, button-downs, Ivy button-downs, round pin types and several Continental ideas. A new collar idea is one with built-in stays.

Short-sleeved business shirts will account for neater and more comfortable men around conference tables during the warm weather months.

Spring shirt fabrics will include broadcloths, oxfords, skip dents, leno weaves, scrim meshes and voiles, plus some end-and-end madrases and chambrays.

ACCESSORIES TO STYLE

Spring accessories for men, generally smaller and neater, include many reproductions of links, clips and tie bars that were the classics of Grandpa's day. Designs will be more intricate and keyed to specific themes.

SURPLICE STYLED

Graceful newcomer among cashmere sweaters is a surplice style which buttons just at the waist, with three large pearl buttons. Cross-over front closing is outlined in a wide band of self cashmere.

Eggs—Hundreds Of 'Em—To Fill Parks Saturday Morning

An anticipated 4,000 Hilltop youngsters, ranging in age from four years through third grade, will take part in the annual Hilltop Easter Egg Hunt and Party at 9 a.m. Saturday at both Glenwood and Westgate Parks. Hidden eggs will net prizes, ranging from five cents to five dollars, for the lucky finders.

This marks the 12th Easter Egg Hunt under the auspices of the Hilltop Community Council and the seventh in cooperation with the Ohio State Journal. The Hilltop Kiwanis Club has again adopted Glenwood Park as its special project under the direction of Roy Von Ins, chairman of the club's youth committee. Westgate Park is again a project of the Hilltop Lions Club, with participating Lions working under the direction of the boys and girls committee, chairmaned by Jim Ford.

Parents and children alike were asked by Wayne Bruner, HCC general chairman of the proceedings at both parks, to note that the age limit has been drastically reduced from past years. Youngsters beyond the third grade will not be admitted to either park as participants.

Programs of children's movies will be presented at both parks in addition to the hunts.

To Hide 610 Eggs

At each park, 610 hard-boiled eggs will be hidden in the early post-dawn morning by the Kiwanis and Lions Clubs. Coffee and doughnuts will be served, to these volunteers by PTA women's committees from surrounding schools. Coffee will be furnished by the PTA's and doughnuts by the Hilltop Community Council. The women will also assist in the program, maintaining discipline and coducting the hunts.

Two hundred and fifty of the eggs at each park will be furnished by the Journal. One of these will be a gold-dyed egg and will bring $5 to its lucky finder. Ten silver eggs will be redeemed at $1 each; 30 red eggs at 50 cents each; 50 blue eggs at 25 cents each, and 120 green eggs at 10 cents each. Cash for these redemptions will be supplied by the Journal.

In addition, both the Lions and the Kiwanis will supply 300 hard-boiled eggs dyed pink and furnish the funds for redeeming them at five cents each.

Softly draped cape exemplifies a leading spring fashion. Shown in seven-eighths length, this cape is of imported wool tweed in subtle pastels. Note flowing lines, face-flattering little collar and bow tie.

There's news in the tall crown and dashing tilted brim of this big and beautiful spring bonnet. It's fashionably romantic and feminine in beige straw, with a side-cluster of yellow silk violets.

IN SPRING'S ARDEN OF COLOR
IN SPRING'S GARDEN OF COLOR

From vivid peony pinks to delicate lilacs, spring fashion is a garden of color. Purples are blooming in profusion — not only lilac, but violet, iris, lavender, wisteria, mauve. New-leaf greens, geranium, larkspur, tiger lily, blues and pinks with a mauvy cast all add to fashions flower-like look.

There are fruits in the fashion garden, too — luscious shades of melon, orange, peach, pear, lemon, apricot and lime ready for the picking. And, as in every garden, there are the hardy perennials — navy and black, both important this spring, both branching out in an important variety of ways.

Lighter-than-traditional navies are news, and so is navy that has a rich, almost royal-blue cast. Black, lifted alone or touched with white, looks especially fresh in black-and-white patterns that give a gray effect.

Gray blossoms as the newest of neutrals, in pale, pearly shades that are a delight to the eye.

There's a good crop of off-white to brown tones.

Among the vivid colors, red reaps a lot of interest.

Prints continue the garden theme.

You should not need to repaint the outside of the house more often than every six years.

Little Furs Take New Shapes For Spring, In Exciting Hues

There's nothing small about the selection of "little furs" available this spring. They appear in a greater-than-ever variety, in many styles and shades.

The cape, important everywhere this spring, is equally so in fur. There are elegant fur capes with slim lines that taper from rounding shoulders, straight-hanging capes and countless other versions.

Cropped jackets, another fashion signature of spring '57, also appear in many young and versatile variations, with white mink the most luxurous looking. Some are waist-length with decorative button accents, others are hip-length and bowed with a touch of satin or velvet.

Little fur briefs and boleros, in both casual and dressy styles, are highly favored for wear over the new softened skirts.

Coming into renewed prominence is the fur stole, sometimes reflecting a Spanish-shawl influence, or displaying the same tapered cocoon shape that capes make much of.

The color story is an exciting one, with a wide range of new shades, including such delicate spring pastels as pale pink and green, as well as the more traditional hues.

"Flat, not fluffy" continues as the theme for fur surfaces, and the emphasis is on light weight.

Ensembles Get Subteen Favor

Fashions for subteens this spring feature slim lines, a well-coordinated look and the influence of such adult styles as capes and blousons.

There is an almost endless variety of ensembles. One new-looking combination is that of a sheath jumper teamed with a matching cotton blouse and blending checked jacket. Many costumes consist of a duster coat with several coordinating dresses.

Coats are slim, but not too straight. Neutral tweeds and worsted flannels that can be worn straight through early fall are favored. Many have detachable capes. Bulky knitted coats, especially in red, are also popular.

Newsworthy in subteen suits is a poncho cape suit.

Persian lamb, for example, is processed to be lighter, softer, more lustrous and drapable.

Goble said the Westinghouse donation brings to $3,242,000 the total raised to date toward the $4,800,000 campaign goal.

Eggs—Hundreds Of 'Em—To Fill Parks Saturday Morning

An anticipated 4,000 Hilltop youngsters, ranging in age from four years through third grade, will take part in the annual Hilltop Easter Egg Hunt and Party at 9 a.m. Saturday at both Glenwood and Westgate Parks. Hidden eggs will net prizes, ranging from five cents to five dollars, for the lucky finders.

This marks the 12th Easter Egg Hunt under the auspices of the Hilltop Community Council and the seventh in cooperation with the Ohio State Journal. The Hilltop Kiwanis Club has again adopted Glenwood Park as its special project under the direction of Roy Von Ins, chairman of the club's youth committee. Westgate Park is again a project of the Hilltop Lions Club, with participating Lions working under the direction of the boys and girls committee, chairmaned by Jim Ford.

Parents and children alike were asked by Wayne Bruner, HCC general chairman of the proceedings at both parks, to note that the age limit has been drastically reduced from past years. Youngsters beyond the third grade will not be admitted to either park as participants.

Programs of children's movies will be presented at both parks in addition to the hunts.

To Hide 610 Eggs

At each park, 610 hard-boiled eggs will be hidden in the early post-dawn morning by the Kiwanis and Lions Clubs. Coffee and doughnuts will be served to these volunteers by PTA women's committees from surrounding schools. Coffee will be furnished by the PTA's and doughnuts by the Hilltop Community Council. The women will also assist in the program, maintaining discipline and coducting the hunts.

Two hundred and fifty of the eggs at each park will be furnished by the Journal. One of these will be a gold-dyed egg and will bring $5 to its lucky finder. Ten silver eggs will be redeemed at $1 each; 30 red eggs at 50 cents each; 50 blue eggs at 25 cents each, and 150 green eggs at 10 cents each. Cash for these redemptions will be supplied by the [illegible].

In addition, both the Lions and the Kiwanis will supply 360 hard-boiled eggs dyed pink and furnish the funds for redeeming them at five cents each.

Man Interested In Youth Lauds Y

Hank Gowdy, well known for his major league baseball career, addressing the annual meeting of the Hilltop Y's Men's Club Monday evening, was loud in his praise of the good work the YMCA does for youth all over the world.

"Any group affiliated with the Y is to be congratulated," he stated. "The YMCA is a wonderful builder of youth."

On such an occasion it was fitting that a group of fine young men that make up the local Y's Men's Club should be so complimented.

The local club has had a very fine record in its first three years and we predict an even brighter future for it. Here is a service club that has a wonderful opportunity ahead. They deserve the plaudits of the community.

Look Out For The Brickbats

Four city officials, Service Director Floyd Redick, Utilities Director Ferd Pickens, Mayor's Assistant M. D. Portman and Council[illegible]an Ralston Westlake, made up a panel to discuss city problems at the meeting of the Hilltop Business Association last Wednesday.

Following their brief reports the group present were allowed to ask questions. And as sometimes happens to public officials, a few brickbats were tossed their way.

All in all the meeting was a healthy one though and served to show how much we demand of our men who run city government.

Likewise it served to show that we are trying to run the big 1957 model machine called Columbus with a 1914 model motor, the old outmoded city charter.

We have said it often and we repeat: It is a crime to ask Columbus city officials to do the job they are expected to do under the old charter and at the very low pay they receive. Certainly here is no inducement for good businessmen to give of their time and energies to the building of good government.

We often are inclined to criticize and rightfully so but let's determine it is time to remodel our city charter and then ask for and get a much better job of government.

In the meantime it is nice to hear a public official complimented. It was especially interesting to have a staunch and loyal Hilltopper like Ed Melvin stand up and say he believes we have a fine set of city officials who are doing a good job "and Floyd Redick is the best service director Columbus has ever had".

Valleyview School Bid Accepted

Columbus Board of Education on Tuesday awarded contracts for the construction of the new Valleyview School to be built on Valleyview-dr, just west of Hague-av. The eight class room building is scheduled to be occupied this September. Total cost will be $139,116. The general and electric contract went to D. E. Gardner Co. for $112,332 and the plumbing, heating and ventilating contract to Grif M. Lewis, 3102 Ellis Pl. for $26,784.

The administrative staff of schools submitted new school districts for 1957 and 1958 school year. There will be new boundaries set for three Hilltop schools, Hilltonia Junior High School, Binns Boulevard Elementary and Valleyview.

Underpass Discussed

The board was told last Saturday that it can cooperate in the construction of an underpass for pedestrians who must cross railroad tracks at the Valleyview-dr and Hague-av site. In addition to school benefits the underpass would provide safe access to the new YMCA, Glenwood Methodist Church and city recreation plot slated for the area. School officials are studying their financial limitations before deciding about the underpass.

Residents Ask For Extension Of Gas Line

Representatives of the Ohio Fuel Gas Co. will appear at a meeting with residents of Mon-E-Bac Monday, Apr. 22, to discuss extension of natural gas lines to the addition, located just off Wilson-rd.

Details will be outlined at a 7 p.m. meeting in Dover Chapel, Dover-rd.

Each prospective customer must sign an application and deposit $10. The deposit will be refunded if the gas is installed in a home within 60 days after it is made available, the comany said.

Kiwanians Extend Entry Date In Speech Contest

The final entry date of the West Franklin Kiwanis Club Fourth Annual Public Speaking Contest has been extended from April 16 to April 19, according to Robert Denman, chairman of the Boys and Girls Committee, in charge of the affair.

The change was made, he said, in order to accommodate three new 4-H clubs, which are in the process of being organized.

Preliminary contests will be held at Prairie, Brown and Dublin schools, with the finals slated for Prairie school on May 2.

Awards will be given in the finals in three divisions—juniors, intermediates and seniors.

'April Showers' Is Forecast

"April Showers" dance, sponsored by West Senior Hi-Y will be held Apr. 26, 8:30 to 11:30 p.m.

First dance to be sponsored by the Hi-Y, it will be semi-formal and no corsages are necessary.

The "Bluenotes," under the direction of Ray Thomen, will provide music for dancing. Tickets at $1.50 per couple or stag may be purchased from any Senior Hi-Y member.

'Clean Up City' Campaigner Asks Assistance Of Council

Mrs. Earl W. Skidmore, 805 S. Burgess-av, who is spearheading a "one-woman" campaign to clean up Columbus, asked Hilltop Community Council for the assistance of its 32 member organizations at council's monthly meeting, Apr. 11 at the Hilltop YMCA.

Council members agreed that they would take the story of "Columbus' dirty face" back to their organizations. Mrs. Skidmore stressed that cleanup would begin with an individual effort on the part of every Columbus citizen, a renewal of civic pride, and all-out pressure on municipal authorities to make cleaning of city streets more than a once a year "maybe yes—maybe no" affair.

'Hoodlumism' Discussed

Cleo Dumaree, assistant city schools superintendent in charge of administration, and Robert Darrow, principal of West High School, spoke at the meeting. They related factors in school discipline with especial reference to high school age students.

Both Dumaree and Darrow declared that the chief disciplinary problem at West is created by parents and other adult associates of the students. During the question and answer session that followed, it was agreed that it is the responsibility of every citizen to report vandalism or juvenile "hoodlumism" of any sort to authorities immediately. "The fear of reprisal is baseless and not in keeping with the basic principles of adult citizenship," Dumaree declared.

Acoustics To Be Sharpened At Westgate Shelter House

Teen-agers who step on their partners' toes at this summer's youth dances at Westgate Shelter House will not be able to use the old excuse that they couldn't hear the music. Thanks to the Hilltop Lions Club, the poor acoustics in the shelter house will be a thing of the past.

The boys and girls committee of Hilltop Lions Club has ordered a complete sound and public address system which will be presented to the Youth Services Council, according to chairman Jim Ford. It includes a microphone outfit, amplifier, turntable and two public address speakers.

The Youth Services Council is an affiliate of Hilltop Community Council and is comprised of 14 teen-age clubs from West High School and local churches. Its adult advisors include representatives from Girl and Boy Scouts, Campfire Girls, YMCA, YWCA, and the city recreation department. It is managed and governed, however, by the youths themselves, according to Mrs. H. G. Booth, chairman of the adult advisors.

Twelve Friday night "round" dances and 12 Tuesday night square dances have been scheduled for the coming summer vacation. Teen-agers from throughout the city are welcome at the dances which are chaperoned by adult advisors and are the only organized teen-age dances held during the summer on the Hilltop. Small admission fees defray the costs of orchestral groups and other expenses. The dances have been held annually since 1954.

Cowboys Prep For City Look

With no help from the weatherman, the Cowboy varsity track squad has been able to get in a few time trials. After getting a brief look at his boys, Coach Glass said that City League track crown could be won by nearly any team. Students Explore Teaching

Direct Club. The Senior Future Teachers Association at Franklin Heights is directed by (from left to right) Becky Temple, president; Margie Dolan, vice-president; Elaine Lehnert, reporter; and Mary Alice Dailey, treasurer.

The Senior Future Teachers Club at Franklin Heights High School has gotten off to a very active start having already engaged in many worthwhile projects.

Main purposes thus far have been to explore the necessary qualifications for becoming a teacher.

The point system used in college for grading the students was explained. Members brought college catalogs and pamphlets on teaching and discussed pertinent questions.

The students were initiated into the club in the most unique way by being "teacher for a day." Culminating activity for the day was the preparing and presenting of an actual lesson by each member.

Another big day was Apr. 1, when F. T. A. members motored by bus to the OSU campus for the morning. While there, they met with a professor from both the elementary and secondary levels of work to learn college requirements. Later, one of the Franklin Heights student teachers conducted a tour of the interesting parts of the campus. Climaxing the morning activity the group had lunch at the Ohio Union.

In Passing

By Esther Weakley

EASTER MORNING

Tomb, thou shalt not hold Him longer.
Death is strong, but life is stronger;
Stronger than the dark, the light;
Stronger than the wrong, the right;
Faith and hope triumphant say
"Christ will rise on Easter Day!"

While the patient earth lies waking
Till the morning shall be breaking,
Shuddering 'neath the burden dread
Of her Master, cold and dead,
Hark! she hears the angels say
"Christ will rise on Easter Day!"

And when sunrise smites the mountains,
Pouring light from heavenly fountains,
Then the earth blooms out to greet
Once again the blessed feet,
And her countless voices say
"Christ has risen on Easter Day!"

THE RESURRECTION

Warm breezes of spring have melted the snows of winter
And warmed the earth to stir and enter
Into new life to awaken the tiny seeds
To send forth sprouts to fill life's needs.
Little green shoots are stretching up;
Soon they'll be dandelion and buttercup
And all the flowers that give us beauty
To cheer us on our paths of duty.
Some will grow to sustain life;
To give us strength for our daily strife.
For spring is the time of year
When everything is reviving here
Warm spring air and gentle breezes
Call to us as nature pleases
With verdure growing toward the sun
For spring is the time of the Resurrection.

PONTIUS PILATE TO HIS WIFE:

You warned me that this Man was innocent.
I knew about the dreams that terrified
And would not let you rest—when darkness cried
Aloud to you, and you said "Oh, repent,
My lord, your judgment!" Would that I had bent,
Before it was too late, my pompous pride!
Would I had never seen Him crucified.
He had no fault. Such hours as I have spent!
I held unquestioned power to change His fate,
But feared that I be called not Caesar's friend.
Almost I envy the poor thief that lies
With broken bones, whose trusting at the end
Won him the promise that a blessed estate
Awaited him that day in Paradise.

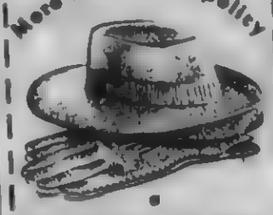
EASTER SERMON

Here is a young man who was born in an obscure village, the child of a peasant woman. He grew up in another village. He worked in a carpenter shop until he was thirty, and then for three years he was an itinerant preacher. He never wrote a book. He never held an office. He never owned a home. He never had a family. He never went to college. He never put his foot inside a big city. He never traveled 200 miles from the place where he was born. He never did one of the things that usually accompany greatness. He has no credentials but himself.



While he was still young the tide of public opinion turned against him. His friends ran away. He was turned over to his enemies. He went through the mockery of a trial. He was nailed to a cross between two thieves. While he was dying his executioners gambled for the only piece of property he had on earth, and that was his coat. When he was dead he was laid in a borrowed grave through the pity of a friend. Nineteen centuries have come and gone, and today He is the central figure of the human race and the leader of the column of progress. I am far within the mark when I say that all the armies that ever marched, and all the navies that ever sailed, and all the parliaments that ever sat, and all the kings that ever reigned, put together, have not affected the life of man upon this earth as has that One Solitary Life.

The Fleet's In For Forty Ohio Sailors On Leave

SHIP AHOY!—The fleet's in and Jim's folks, Mr. and Mrs. James DeStazio, are having fun on the nautical shore leave. The Casa Maria restaurant looked like Norfolk, Va., on a week-end as Jim's sailor buddies (and dates) ate pizza and danced to rock and roll music into the wee hours.

Nary a soldier was in sight last Thursday evening as the navy took over the Casa Marie restaurant when Mr. and Mrs. James DeStazio, of 841 S. Roys-av, closed their restaurant to throw a party for their son Jim.

The 21-year-old sailor is home on a 14-day leave after completing his boot training at Bainbrige, Md.

On hand to help Jim celebrate were 40 buddies who enlisted with him in January, '57, at the Navy Recruiting office in Columbus.

They were sworn in together and remained a close-knit group at Bainbridge. Later, the new recruits were dubbed the "Scioto Co." because they were all from Central Ohio.

The sailors were so well thought of at the training center that a special film was made of the group showing them during a typical day at the center.

Chief Fred Hayes, public relations officers for Navy Recruiting, showed the film at the party. Chief Hayes was instrumental in arranging the get-together. The sailors will go their separate ways after their leaves are over.

A TV camera filmed the arriv- al of the "Scioto Co." at Port Columbus after it was learned there was nothing aboard the plane but 40 sailors.

Jim appeared on Ed Wood's TV show and talked about the unusual trip. "We didn't charter a plane" he said, "we just made our reservations together and were lucky I guess."

Chuck Pinney, son of Mr. and Mrs. James Pinney of 3782 Sullivant-av, a member of the company, also took part in the fun. He was shown operating a 20 mm gun in the film.

Mr. Jones was mowing the lawn when he saw a large moving van pull up to the door. He rushed in to his wife and asked her what it was all about. "It's the furniture folks," his wife informed him in a whisper. "They've come for the piano."

"But I gave you the money for the next installment," he reminded her.

"Yes, I know, dear," she answered. "I'm going to pay them as soon as they have it downstairs. I've decided to have it in the living room."

What grows in an urn garden?
Flowering in the urn garden is one of man's treasured possessions—the memorials of those who have been dear to him.
Here rest the departed loved ones, prepared for memorialization through kindly, reverent cremation which merely accelerates the process of Nature, accomplishing in a few hours exactly what Nature alone requires decades to complete. Memorial urns, properly identified, are recessed within the lawns in a setting of natural peace and beauty.
The cremation memorial offers unequalled advantages both sentimental and financial. These are explained in an informative booklet, "The Way of Nature". Write or telephone us for your free copy.

The GIRL SCOUT DISTRICT DIARY

Girl Scouting In West Hill

By Mrs. James W. Whalen, Public Relations, District No. 10

A meeting of Girl Scout leaders, co-leaders and committee members of West Hill neighborhood will be held Thursday, Apr. 18, at 9:30 a.m., at the Hilltop Y.

Mrs. Robert Merrick, 172 S. Burgess-av, will preside.

Town sessions of basic troop camping instructions for adults in West Hill neighborhood will be given at the YWCA, 65 S. Fourth-st, Apr. 22 and 24, from 9:30 a.m. to 12:30 p.m.

The overnight session will be held at Camp Ken-Jockety Apr. [illegible].

There is a new national policy concerning registrations of new troops. These will not be accepted from June 14 to Sept. 1.

The Ohio Trefoil Girl Scout Council has some immediate needs: the need for leadership for a handicapped troop. Anyone interested should have Girl Scout experience or some experience in working with crippled children.

These girls put on plays occasionally, one of their latest being a play on slum clearance and juvenile delinquency which was presented last May 25 at Westgate Methodist Church. These girls have been working toward a trip to Washington and they cannot go until a leader is found. Also among the immediate needs, the council needs a troop camp chairman and someone to take camping registrations, mostly weekends at Ken-Jockety. You would be able to take your family with you. Anyone interested should have a car to pick up equipment necessary for the maintenance of the camp.

SPECIAL TRAIN TRIP — 7 a.m. Saturday, May 11. The Railroad Community Committee of Columbus will operate a special train to Cincinnati for boys and girls, men and women, for a boat ride on the Ohio River or to the Cinerama. "Seven Wonders of the World." The train loads at 6:30 a.m., leaving Union Station at 7 a.m., and will return to Columbus at 6 p.m. BROWNIE TROOPS MAY NOT PARTICIPATE as they are not covered by insurance. Tickets will be on sale at 373 N. High-st. Cal Mr. McEowen, CA. 1-1121, Ext. 238. Bring a lunch. Cost: All-inclusive with boat ride, adults $6.42, child fare $3.95; all-inclusive adult fare, Cinerama, $6.25, child fare $3.75.

SUPER SALES GIRLS — A ticket will [illegible] you to each and every Brownie and Girl Scout who sold cookies. West Hill neighborhood is very happy to report a successful sale and appreciation goes out to every adult who helped the girls put it over with good team work.

The following girls sold the highest number of boxes of cookies in troops registered in West Hill neighborhood: Troop 127, Beverly Turner; Troop 744, Marcia Richter; Troop 609, Karen Endsley; Troop 249, Corrine Morris; Troop 612, Ann Ansel; Troop 600, Beverly Stump; Troop 415, Carol Biggs; Troop 294, Karen Longhenry; Troop 504, Betty Mueller; and Troop 129, Patty Ann Crawshaw.

Troop 128 under cookie chairman Mrs. Fred Moritz, 90 N. Warren-av, sold the highest number. Leader of the troop is Mrs. D. T. Crawshaw, 109 S. Burgess-av. Mrs. Crawshaw also holds the position of district chairman of District 10 of the Girl Scouting Association.

The regular monthly district meeting was held at the Hilltop Y on Thursday morning, Apr. 11, with Mrs. D. T. Crawshaw, district chairman, presiding. Also present from the central scouting office was Miss Carol Potter, district director. All six neighborhoods in this district were represented.

VFW Group Presents Flag

RECEIVING A FLAG for Brownie Troop 538 of John Burroughs School is eight-year-old Kay Bradley, daughter of George Bradley of 261 South Terrace-av, and the late Mrs. Bradley. Mrs. Robert Zuleuf, of 308 North Harris-av, a member of Westway Auxiliary 3441, VFW, presents the flag while troop leader, Mrs. Robert Dingo, 474 S. Terrace-av, looks on.

PENNANT PREDICTION

Stengle's Schoolmate Says: 'Yanks Will Win In A Walk'

It seems that once you know Casey Stengle, you aren't likely to bet against his prowess as a manager.

That is the case with Gift N. Harper, ad manager for the West editions of the Rural-Urban News, who played baseball with Casey while both were attending Central High School at Kansas City, Mo.

Harper predicts the coming American League pennant race like this:

"The Yanks will win in a walk! Cleveland is showing signs of weakening and the White Sox are going to fool a lot of people and will be gunning for second place."

Gift N. Harper

The successful New York manager hasn't changed a whole lot since he attended high school according to Harper. "He was always a tough competitor," Harper relates. "And you knew there was a tough battle on your hands when you played against him.

Nickname Came Later

"We never knew him as Casey when we were in school. Everybody there called him 'Dutch.' It wasn't until he started to play professional baseball and was traveling that he acquired the name Casey.

"Whenever he was on the road and someone would ask him where he was from, Dutch would reply 'K-C' meaning Kansas City.

"He had his mind made up when he was in high school that he was going to play big league baseball. He was an outstanding player in high school.

"Dutch was our regular third baseman. Playing that position is tough for any left-hander, but he had such tremendous whip it didn't seem to hinder him. He is the only southpaw I ever saw play third base.

While we were in high school, we also played together on an amateur team sponsored by the Parisian Cloak Company," Harper recalled. "And we also played in the same sandlot football league.

"He played a halfback position and could really run. He would tear around end like 'big iron.' He was always tough. I remember seeing him and his brother pound at each other for an hour in a fist-fight.

"I haven't seen him since he was managing the Toledo team in the American Association several years ago. When the team was in town to play the Red Birds, I would go down and talk to him before the game.

"Cleveland may give the Yankees a real battle this year, but I doubt it. (Early) Wynn and (Bob) Lemon are about through and (Herb) Score can't win them all.

"I don't like to bet against Casey. He has always been the type person that once he set his head to something, he would usually do it."

There is no telling what we would buy if we had enough money to buy it.

Hilliards Church Of Christ Renovates New Property Site

No one in the Hilliard Church of Christ congregation will escape spring cleaning this year!

The hard-working members are spending most of their spare hours cleaning, redecorating and modernizing a house, which was part of a property purchased recently by the church.

The four-acre Latham property on Avery-rd was purchased as the site of their new church. The site faces Avery-rd and includes living quarters and a two-car garage. The home will be occupied by one of the church families as an income property for the church.

Some masculine assistance will be contributed by men of both the Hilliards and the Norton Churches of Christ. They will burn weeds, haul trash, paint window frames, and accomplish other "strictly male" tasks during the renovation.

Easter will be celebrated by the congregation with a 6:30 a. m. Sunrise prayer meeting at the grandstand on the county fairgrounds. The service will be led by young people of the Teen and Twenties class. Vacation Bible School will be held from June 3 to 15.

A permit to construct a two-car concrete block garage on the east side of Pasadena-av in Prairie Township has been issued to Eva Pappas, 345 Nashoba-av.

All Gardeners Are Invited To Open Meeting

An open meeting for residents of the community and members of all garden clubs in Franklin county, will be held Apr. 22, 8 p.m., at Westminster United Presbyterian Church. Lincoln Village Beautifiers will be hosts.

Non-members wishing to attend are requested to call Mrs. Carl Conrad, TR. 9-4082, for reservations.

Walter Burwell of Burwell nurseries, who supervised the planting of all trees and shrubs in Lincoln Village, will present a program on their proper care.

Hostesses will be Mrs. C. R. Trauger, Mrs. A. B. Kisling, and Mrs. Robert Fisher. Each club member will submit an arrangement or specimen from her garden.

Beautifiers offer the following advice for April: begin weekly spraying of roses, peonies and delphinium; sow larkspur, portulaca, sweet alyssum, annual poppies and California poppies; keep garden tidy, remove matted leaves from shrubs; plants may be set out, but beware of late frost.

"I was shot through the leg."
"Have a scar?"
"No thanks, I don't smoke."

Pack 114 Meetings Dated

Three meetings of interest to those connected with Cub Scout Pack 114 are being announced.

The monthly committee meeting will be held Tuesday, May 14, 7 p.m. at the home of Fred Kesterson, 1720 Richmond. St. Timothy's Lutheran Church, Harrisburg-pk, will be the scene of a pack meeting at 7:30 p.m. Monday, May 20 Monthly Roundtable will be held Wednesday, May 22.

PENNANT PREDICTION

Stengle's Schoolmate Says: 'Yanks Will Win In A Walk'

It seems that once you know Casey Stengle, you aren't likely to bet against his prowess as a manager.

That is the case with Gift N. Harper, ad manager for the West editions of the Rural-Urban News, who played baseball with Casey while both were attending Central High School at Kansas City, Mo.

Harper predicts the coming American League pennant race like this:

"The Yanks will win in a walk! Cleveland is showing signs of weakening and the White Sox are going to fool a lot of people and will be gunning for second place."

The successful New York manager hasn't changed a whole lot since he attended high school according to Harper. "He was always a tough competitor," Harper relates. "And you knew there was a tough battle on your hands when you played against him.

Nickname Came Later

"We never knew him as Casey when we were in school. Everybody there called him 'Dutch.' It wasn't until he started to play professional baseball and was traveling that he acquired the name Casey.

"Whenever he was on the road and someone would ask him where he was from, Dutch would reply 'K-C' meaning Kansas City.

"He had his mind made up when he was in high school that he was going to play big league baseball. He was an outstanding player in high school.

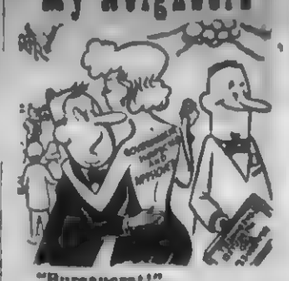
"Dutch was our regular third baseman. Playing that position is tough for any left-hander, but he had such tremendous whip it didn't seem to hinder him. He is the only southpaw I ever saw play third base.

While we were in high school, we also played together on an amateur team sponsored by the Parisian Cloak Company," Harper recalled. "And we also played in the same sandlot football league.

"He played a halfback position and could really run. He would tear around end like 'big iron.' He was always tough. I remember seeing him and his brother pound at each other for an hour in a fist-fight.

"I haven't seen him since he was managing the Toledo team in the American Association several years ago. When the team was in town to play the Red Birds, I would go down and talk to him before the game.

"Cleveland may give the Yankees a real battle this year, but I doubt it. (Early) Wynn and (Bob) Lemon are about through and (Herb) Score can't win them all.



"I don't like to bet against Casey. He has always been the type person that once he set his head to something, he would usually do it."

There is no telling what we would buy if we had enough money to buy it.

Hilliards Church Of Christ Renovates New Property Site

No one in the Hilliard Church of Christ congregation will escape spring cleaning this year!

The hard-working members are spending most of their spare hours cleaning, redecorating and modernizing a house, which was part of a property purchased recently by the church.

The four-acre Latham property on Avery-rd was purchased as the site of their new church. The site faces Avery-rd and includes living quarters and a two-car garage. The home will be occupied by one of the church families as an income property for the church.

Some masculine assistance will be contributed by men of both the Hilliards and the Norton Churches of Christ. They will burn weeds, haul trash, paint window frames, and accomplish other "strictly male" tasks during the renovation.

Easter will be celebrated by the congregation with a 6:30 a. m. Sunrise prayer meeting at the grandstand on the county fairgrounds. The service will be led by young people of the Teen and Twenties class. Vacation Bible School will be held from June 3 to 15.

A permit to construct a two-car concrete block garage on the east side of Pasadena-av in Prairie Township has been issued to Eva Pappas, 345 Nashoba-av.

All Gardeners Are Invited To Open Meeting

An open meeting for residents of the community and members of all garden clubs in Franklin county, will be held Apr. 22, 8 p.m., at Westminster United Presbyterian Church. Lincoln Village Beautifiers will be hosts.

Non-members wishing to attend are requested to call Mrs. Carl Conrad, TR. 8-4032, for reservations.

Walter Burwell of Burwell nurseries, who supervised the planting of all trees and shrubs in Lincoln Village, will present a program on their proper care.

Hostesses will be Mrs. C. R. Trauger, Mrs. A. B. Kisling, and Mrs. Robert Fisher. Each club member will submit an arrangement or specimen from her garden.

Beautifiers offer the following advice for April: begin weekly spraying of roses, peonies and delphinium; sow larkspur, portulaca, sweet alyssum, annual poppies and California poppies; keep garden tidy, remove matted leaves from shrubs; plants may be set out, but beware of late frost.

Pack 114 Meetings Dated

Three meetings of interest to those connected with Cub Scout Pack 114 are being announced.

The monthly committee meeting will be held Tuesday, May 14, 7 p.m. at the home of Fred Kesterson, 1720 Richmond. St. Timothy's Lutheran Church, Harrisburg-pk, will be the scene of a pack meeting at 7:30 p.m. Monday, May 20. Monthly Roundtable will be held Wednesday, May 22.

Pick And Shovel Are Vacation Tools For Relic-Hunting Husband And Wife

Amateur archeologists; Mr. and Mrs. Ernie Good hold a cut-away illustration of Watts Cave in Christian County, Ky. The Goods, who have dug to a depth of 11 feet in the cave have unearthed many rare Indian relics and artifacts. They believe that they have discovered proof in this cave that will show that it was inhabited 10,000 or more years ago by early Paleolithic men.

By John McPeek

It's hard to imagine a person who by choice would spend his yearly vacation digging eight hours a day with a pick and shovel.

But with Ernie Good, who does just that, it is a labor of love.

Find Rare Artifacts

An amateur archaeologist, Good operates an automobile body and paint shop at 27 N. Powell-av 11 months of the year, but along about August he and his wife, Dorothy, pack up and take off for southern Kentucky, where for the past four years they have spent their vacations digging for indian relecs in a large cave near Trenton.

Recent discoveries made in the Kentucky cave by the Goods have brought archaeological fame to their door. Universities, museums, archelogical societies, the Smithsonian Institute, and noted archaeologists throughout the country have been corresponding with the Goods since their discovery of "fluted points" (a type of spearhead) in the diggings.

These particular points, made of flint, are believed to have belonged to the nomadic "Folsom Man," a common term given to the Paleolithic man who inhabited North America 10,000 or more years ago.

No definite trace of this man has ever been found east of the Mississippi and if radiocarbon dating tests assist in establishing that these fluted points belonged to the Folsom Man, the Goods will be credited with a great discovery.

The couple are members of the Ohio State Archaeological and Historical Society, and live at 15 Circle-dr, Grove City. One room of their home is devoted to displaying their large collection of more than 5,000 relics that they have gathered through the years.

Boyhood Interest

Good first became interested in Indian relics as a boy of 12 when his father presented him with an arrowhead found in their Hilltop backyard. But he feels the official start of his collection began a few years later when he traded an ancient electric windshield wiper and 20 cents to Elbert Smith, 2184 Safford-av, a boyhood companion, for an axhead and two spearheads. These articles still hold a special position in his collection.

Prized at many thousands of dollars the collection consists of pottery pieces, flints, spearheads, arrowheads, axheads, shell beads, odd mineral pieces, bone artifacts,skulls, and many other artifacts.

Good holds an arrow that was removed from the skull of the skeleton pictured. Believed to be more than 4,000 years old, the skeleton is that of an Indian who had obviously irritated one of his contemporaries to the point of action, and was one of approximately fifty that Good has unearthed in the Kentucky cave. To the left of our deceased friend is the skull of a dog that had been buried with him.

Market Basket

By Bertha B. Everhart
County Home Economics Agent
Franklin County

GOOD BUYS THIS WEEK: Head lettuce, canned applesauce and beets, frozen baby limas, frozen broccoli and strawberries, milk, cheese, large eggs.

MILK AND CHEESE

Next to a compliment on a new dress or hat, a homemaker appreciates flattering remarks about her cooking. Whether it's the crowning touch of strawberry shortcake with whipped cream or the tangy cheese flavor of a Welsh Rarebit, dairy foods have found a prominent place in America's prized and praised recipes.

FOOD VALUE — Milk and cheese give you so much in animal protein, calcium and other nutrients. For example, about the same amount of calcium is contained in one cup of milk, one serving of cheese, two servings of ice cream (½ pint) and three half-cup servings of cottage cheese.

It's false economy to skimp on milk and cheese, yet these are the foods along with citrus fruits, green and yellow vegetables, found most often neglected when families are undernourished.

The price of milk has not kept pace with the increase in wages and salaries. In fact, it requires less work time today to buy a quart of milk than it did 10 years ago. The price of milk, like many other foods, includes transportation and processing costs. Fifty-five cents of your milk dollar pays for these services while the remaining 45 cents goes to the farmer.

Care of milk: Wipe the bottles or cartons with a damp cloth and hustle them into the refrigerator as soon as they arrive at your home. Milk needs a cool, dark place. Some precious vitamins are destroyed by light.

Cover milk to protect its delicate flavor. Other refrigerator odors easily creep in when it's left uncovered.

Pour out the milk you plan to use at any one time and return the rest to the refrigerator immediately.

Use yesterday's milk before today's. This is easy to do if you always put new containers behind ones already in the refrigerator.

Care of cheese: Cover all cheeses tightly in plastic containers or jars, or wrap well in aluminum foil or waxed paper. Packaged cheese may be stored in its own wrapping. Keep all cheeses in the refrigerator.

Soft cheeses, such as cream and cottage, are quite perishable but can be kept for several days in tightly covered containers.

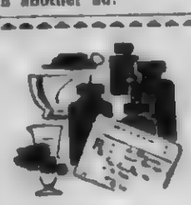
Cut off any mold that develops on hard cheese, such as American and Swiss. The cheese underneath is perfectly good.

Serve most cheeses at room temperature for best flavor.

Uses: Milk is a natural in any course, meal or snack. Use it in soups, sauces, gravies, main dishes, cereals, puddings, casserole and pies. Easiest of all, drink it. Cheese makes a tangy appetizer, main dish, sauce for vegetables, salad, and dessert.

In milk and cheese main dishes, use enough of these protein foods to substitute for a serving of lean meat. For instance, macaroni and cheese for four people needs one pint of milk and one-half pound of cheese. Your macaroni and cheese will taste good, too.

Ringing Response



Mrs. Marilyn Marsh's telephone was ringing fulltime after she advertised clothing and furniture in this newspaper. Mrs. Marsh, 105 N. Brinker-av, was so delighted with the response that she made a call of her own—to BR. 9-8444—to run another ad!

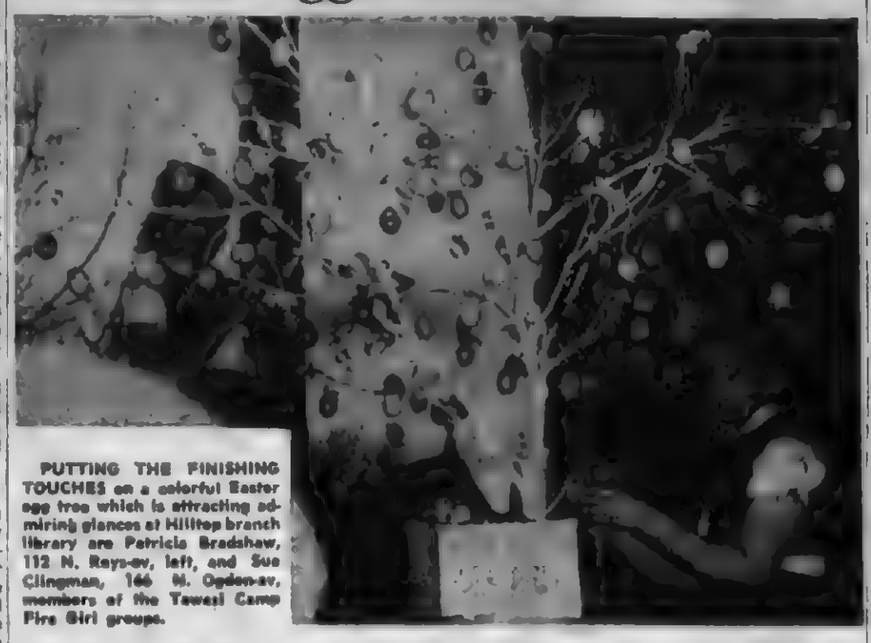
A small girl who lived in a remote section of the country was receiving her first Bible instruction at the hands of her elderly grandmother, and the old lady was reading the child the story of Creation. After the story had been finished the little girl seemed lost in thought.

"Well, dear," said the grandmother, "what do you think of it?"



"Oh, I love it. It's so exciting," exclaimed the youngster. "You never know what God is going to do next!"

PERMIT ISSUED

A permit has been issued to James Tree, 192 S. Wheatland-av, to remodel a garage.

furnish chocolate eggs that youngsters will receive in exchange for boiled eggs at Glenwood. Returned boiled eggs will then be given to the State School for Retarded Children.

Youngsters at Westgate will be allowed to keep their boiled eggs and everyone taking part in the hunt will leave the park with either a chocolate egg furnished by the Hilltop Lions, a boiled egg, or both.

Serving as HCC coordinator at Westgate will be Bud Martin of the Hilltop YMCA staff. Mrs. Marilyn Moore of Glenwood Recreation Center will serve as Council coordinator at Glenwood.

A police cruiser, equipped with public address system, will be on hand at each park. Uniformed Boy Scouts, Girl Scouts and Campfire Girls will help conduct the hunts and help keep order under adult supervision.

Cooperating PTA committees at Glenwood will include mothers from West Mound Street, St. Aloysius and Highland Avenue Schools. Mothers committee from PTA's at St. Mary Magdalene, John Burroughs, Westgate, West High and West Broad Street Schools will assist at Westgate Park. Staffs of both the Hilltop YMCA and Glenwood Recreation Center will also assist.

Both the Blue Star Mothers and Hilltop Welcome Wagon have contributed $5 checks to help meet expenses.

Hilltop Community Council requests parents to take or send their youngsters to the park nearest their home not more than 15 minutes before the events start at 9 a.m. Their assistance is also solicited in enforcing the new age limit—four years through third grade.

A Range For The Home

Why not give your kitchen a break with a new gas range? And why not give your budget a break by selecting it from the classified ad bargains in this newspaper. Somebody's good fortune was a gas tabletop range, advertised recently by Mrs. W. N. Collins, 215 W. Park-av. Give somebody a "big break" by calling BR. 9-9444 for your advertising

Everything From Jelly Beans To Chocolate Bunnies Adorned These Easter Bonnets

St. Mary Magdalene School was the scene of a gala Easter parade last Friday as students modelled original Easter bonnet creations in the school's annual holiday celebration. The 530 students, each wearing a colorful, imaginative hat, paraded through the neighborhood and then returned to their classrooms for a party and Easter egg hunt planned by eighth grade students. Sister Norma is principal of the school.

Margie Redmond wears a tree ablaom with colorful Easter eggs.

Little Debbie Spangler, Danny Ansel (he's inside the bunny), and Jane Dull watch with interest as classmates parade in all their finery.

Charles Reese jauntily tips his hat gaily decorated with Easter basket trimmings.

Eleven Boys Win Bunnies At 'Y' Event

Approximately 200 Indian Guides and Gra-Y members of the Hilltop YMCA attended the fourth annual Bunny Hunt Sunday afternoon at Westgate Park.

Each youth was required to buy a hunting license which entitled him to participate and hunt for live bunnies. This event was sponsored by the Hilltop YMCA Y's Men's Club. Roy Agin served as chairman, assisted by John Hutchinson and Howard Reber.

Many Y's Men and Indian Guide fathers were present and offered their assistance in making the Bunny Hunt a success. Several local churches furnished busses and the Y's Men and Indian Guide fathers also furnished transportation.

The following boys found the marked eggs and were the lucky winners of the bunnies: Sherwin Ritchie, Tony Pipic, Larry Meadows, Billy Weaks, Ted Vollmuth, Fred Berkemes, Stanley Boyer, Mike Rice, Jerry Grooms, Pete Parks and Mike Schaaf.

Therefore if any man be in Christ, he is a new creature: old things are passed away: behold, all things are become new.—(II Corinthians 5, 17.)

To be given the opportunity of beginning life all over again, cleansed of wrong—of consigning the past to the past and of being, in all truth, born again — that is God's wonderful gift to those who accept Jesus Christ as His Son, our Savior and Redeemer.

Question: Do you agree that Ingrid Bergman was the best choice as the Best Actress of 1956?

Mrs. Gus Johnson, 39 N. Westmoor-av: "Yes, I think she deserved it. I didn't see her latest movie but I think she's a fine actress."

Mrs. Richard Lloyd, 155 S. Terrace-av: "Yes, I do. I saw 'Anastasia' and I loved the movie. I have always admired Ingrid Bergman and as far as I'm concerned her personal life doesn't enter into it."

Mrs John William, 163 N. Warren-av: "Yes, I do. I feel that she is a very good actress and certainly deserved it."

Mrs. Richard Lang, 603 Columbian-av: "Yes, I think that regardless of her private life, she has the ability as an actress to deserve the award."

Gustav Marecher, 479 Neilson-av: "Yes, I think she is a personality that certainly deserved the Oscar. She is a top actress in every way."

Westgate EUB To Dedicate New Sanctuary, Easter

Bishop Fred Dennis, resident bishop of the Ohio area, will preach and read the rites of dedication during identical worship services at 8:30 and 10 a.m. Sunday in Westgate Evangelical United Brethren Church's new sanctuary.

Construction was started last June and first service was held on Apr. 7.

A series of 12 illuminated art glass windows on each side of the sanctuary depict the life of Christ from the announcement of the shepherds to the ascension. An electronic unit is being used while pipe organ construction is being completed.

A small chapel with seating for 100, intended for small weddings and services, is to the right of the main sanctuary. Also included in the new addition is a modern nursery with thermopane windows and connection with the pulpit public address system, and a social room with kitchenette for youth groups and class meetings.

The church was built in 1929 and the basement educational unit was added in 1952.

Building committee members are Dr. Eldred B. Heisel, chairman; Cecil Suver, Roy Kistner, Homer Ranney and Henry Ruegg. Harold Lynanand and Paul Eller were contractors and Boyd Martin, architect.

Rev. Harold Dutt has been pastor of the church since August, 1944.

Newly completed sanctuary of the Westgate Evangelical United Brethren Church, 61 S. Powell-av, will be dedicated on Easter Sunday. Built with a divided chancel and rose window, the sanctuary is completely air-conditioned and has a seating capacity of 600. A choir loft, seating 44, is at the back of the chancel.

REMODELS HOME

A permit has been issued to R F Whetston, 948 S. Eureka-av, to remodel a frame dwelling. Midwest Construction Co. is the contractor.

Army Men Finish Ordnance Course

Two soldiers, Privates Claude A. Daughtery and William L. Hobensack, recently were graduated from the ordnance school's parts supply course at Aberdeen Proving Ground, Md.

During the six-week course, they were trained to receive, store, issue, identify, classify and salvage all types of ordnance spare parts, assemblies and components.

Daughtery, 23, son of Mr. and Mrs. Ralph Daugherty, 2010 Whitehead-rd, is a 1953 graduate of Central High School.

Hobensack, 19, son of Mr. and Mrs. Everett Hobensack, 684 E. Stewart-av, is a 1956 graduate of South High School.

The men entered the Army last August and completed basic training at Fort Chaffe, Ark.

Schools Enter TB Contest

Sixty Franklin county high school teachers and principals including Florence B. Gardner and Nicki Merrick, West, attended the kick-off party for the third annual "TV Spotlights TB", television script-writing project, at the Athletic Club recently.

A special feature at the party was the appearance of last year's winners and the presentation of their entries. Among them was Wanda Lou Lee, 2468 Valley View Drive.

The countywide project involves writing a 20-second television spot on tuberculosis—still the county's number one health problem—and illustrating it with material for a slide.

The project will end Apr. 27. Six winners will be chosen, and their entries will be aired on WBNS-TV during the summer months, with full recognition to their schools and teacher-advisers. The winners will be chosen on the basis of their accuracy and originality.

In addition, the top winner, and his adviser, will receive a two-day plane trip to CBS studios and the National Tuberculosis Association in New York City.

Although the event is not primarily an art project, the Columbus Art School will also award a $350 art scholarship to the student whose ability is outstanding.

COMMUNITY LOYALTY

.....You'll Always Find It Here!

STEPS of PROGRESS

This is one of a series of messages designed to point out why this community is truly a wonderful place in which to live. Reflecting the steps of progress in our area, these advertisements are sponsored by local business and professional men who are appreciative of the loyalty, cooperation, and patronage of the loyal citizens whom they serve. Each message is a tribute to a group or organization having complete faith and confidence in the future progress of this community.

EVERY community should have a spirit of loyalty and pride on the part of those citizens who consider it their home. Unfortunately, some communities do not recognize this civic obligation. We are fortunate! Our community has a sense of loyalty that is unusual. Our people are loyal to each other, to their business firms . . . to their community . . . they believe their wants can be adequately taken care of right here in our own area. Our people are loyal to their churches . . . their schools . . . their organizations of all kinds. They believe, and rightly so, that truly here live the finest people in the world . . . people who love their neighbors, who will aid them when needed. Our people have confidence in each other and trust in the judgment of others. Our people believe in their professional men and in the firms with whom they do business. They believe that here things and products and services and courtesies and personal attention are just a little better than anywhere else.

That's why our people have a sense of community loyalty. Certainly, we can point with pride to our citizens who have such justifiable faith in those around them.

This community will always be progressive and neighborly because its people have faith and loyalty in each other and in the community in which they live. We, whose signatures appear on this page, are grateful for the loyalty of our friends. We are proud to be a part of this community.
